Great value worktops
and breakfast bars

Just two simple steps to your perfect worktop

- 1** Select your worktop from our 30mm or 40mm selection.
- 2** Choose your décor. See the décor availability charts on pages 20 - 23.

As easy as riding a bicycle:
that's Tandem!

30mm Curved Edge

30mm thickness worktops and breakfast bars* with colour matched upstands and splashbacks that won't break the budget.

Slimline

It's 30mm thickness is in tune with the current kitchen design demand for thinner worktops.

On trend

The leading edge of Tandem 30mm Curved Edge worktops and both long edges of Tandem 30mm Curved Edge breakfast bars* have classic, gently curved edges: which look great!

Low cost

30mm Curved Edge is the lowest price range from theCollection.

Full availability information can be found on pages 20-21.

*Breakfast bars are sometimes called island units or peninsula units.

SNOW SPARK

40mm Curved Edge

40mm thickness worktops and breakfast bars* with solid colour, granite, marble, wood and patterned décors. All available with colour matched upstands and splashbacks at a great value price.

New Curved-Edge

40mm Curved Edge has a modern, tightly curved profile for the leading edge of the worktops and both long edges of the breakfast bars*. These new curved edges give 40mm Curved Edge an almost square edge look, which is a very popular kitchen surface trend.

Solid look

The 40mm thickness of 40mm Curved Edge is still the most popular choice for kitchen worktops and breakfast bars*. The laminate wraps around the top and bottom surface of each worktop and breakfast bar edge, giving 40mm Curved Edge additional protection and a very stylish look!

Décor choice

15 sophisticated solid colour, granite, marble, wood and patterned décors to choose from.

Full availability information can be found on pages 22-23.

*Breakfast bars are sometimes called island units or peninsula units.

Breakfast Bars* and Worktops

The extra width of breakfast bars* in the Collection gives you the room to prepare food and sit together with your family and friends, whilst socialising and enjoying a meal.

The image on the right shows a 40mm Curved Edge breakfast bar* with a 40mm Curved Edge worktop in the background. All the décors of the Collection are available for both breakfast bars* and worktops.

Breakfast Bars

3000mm x 900mm

Worktops

3000mm x 600mm

*Breakfast bars are sometimes called island units or peninsula units.

CYPRESS CINNAMON

NATURAL BLOCKED BEECH

Upstands

3000 x 100 x 18mm

Colour matched upstands will add the finishing touch to your worktop and breakfast bar* installation. Not only do upstands look great, they protect your walls by providing an effective barrier to water and impact.

Easy to install and keep clean, upstands are also good value for money.

All the décors in the upstand range exactly match the décors of the complete Collection of worktops and breakfast bars*.

Full availability information can be found on pages 20-23.

*Breakfast bars are sometimes called island units or peninsula units.

Splashbacks

3000 x 1200 x 8mm

splashbacks are a cost effective alternative to tiles. And, because most splashbacks are installed without any joints, they are much more hygienic than the grouted joints of tiles: where germs can develop.

Just like upstands, splashbacks are produced with the same décors that are used by worktops and breakfast bars, so you get a beautiful seamless look. Tandem splashbacks will also protect your walls by providing an effective barrier against water, cooking fats and impact.

And, a seamless splashback is so easy to wipe clean!

A wide selection of splashback décors is readily available for the complete Collection of worktops and breakfast bars.

Full availability information can be found on pages 20-23.

GREY LIGHTNING STONE

Surface Finishes

There's something for everyone.

In addition to the huge selection of solid colours, woods, granites, marbles and abstract décors that the Collection can offer, there are 6 exciting laminate surface finishes to complement your chosen decor.

Glaze*

A stunning texture which combines complex variations of surface texture, gloss and matt with the décor colours to create a striking contemporary finish.

Black Quarry

Gloss*

This highly reflective, luxurious surface is one of our most dramatic finishes. However, it does require a little more care and attention to retain its glamour.

Black Slate

Matt

Matt is used with some of our stone and wood décors where the delicately textured surface helps to authentically create the look and feel of a natural surface.

Walnut Butcher Block, Natural Blocked Beech, Blocked Oak, Grey Dust, Lava Sand, Taurus Beige, Grey Lightning Stone, White, Pearl White and Patmos

Quartz*

A reflective surface, incorporating dazzling multi-coloured metallic elements which are freely distributed to give you a unique finish and look.

Black Spark, White Spark

Satin

Satin produces a semi-polished sheen to enhance the colours of the décors that use this attractive texture. It also has the benefit of being a hard wearing finish.

Black Slate, Black Labrador, Taurus Black and Granite

Wood

A subtle variety of textures which follow the natural grain of real wood.

Cypress Cinnamon and Colmar Oak

*Quartz and Gloss surfaces are more prone to scratching than other worksurface finishes, so please take additional care when handling and cleaning.

Please check our availability charts on pages 20-23 for each surface finish and texture.

Quality

All products are manufactured in accordance with the BS/EN 4965 standard. This gives you the best possible heat, water, abrasion and impact resistance for laminated products.

The BS/EN438 laminate surface is bonded to EN312/2003 E1 high density particle board. A waterproof foil is bonded to the underside of each worktop and breakfast bar: this gives protection from water penetration. Each worktop and breakfast bar also has a polyurethane seal to protect the long edges from water penetration. The rear edges of all worktops and breakfast bars are also waterproofed.

Gloss décors have a protective foil to prevent surface damage from scratching and scuffs during delivery to your home. The foil is removed during the installation process. Each worktop and breakfast bar is delivered with a free of charge loose laminate edge for your installer to seal all edges cut on site.

The Collection has achieved the ultimate mark of quality – the FIRA Gold Award. All products are supplied with protective polythene wrapping.

GREY DUST

BLACK SPARK

The Environment

All timber used in the production of worktops, breakfast bars, upstands and splashbacks come from well-managed and sustainable forests which are certified in accordance with the rules of the Forest Stewardship Council (FSC) and the Program for the Endorsement of Forest Certification (PEFC).

The Collection has excellent product recycling properties.

The use of amazingly realistic wood, granite and marble effect décors means that it is completely unnecessary to cut down exotic species of real wood or mine for granite and marble.

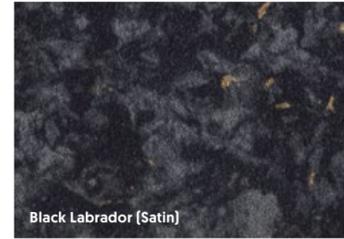

The mark of responsible forestry
