

Baths

To many, the bath is the focal piece in a bathroom's design. Whether you are looking for a standard single ended bath or one that is designed for luxurious bathing, where the taps are central, also known as a double ended bath, within our Collection we have something for everyone.

Showering baths incorporate the elements of space that can be found within an enclosure, without the need for an additional cubicle. The popularity of freestanding baths is represented in our range of stylish contemporary and traditional pieces from one of the UK's leading freestanding bath manufacturers, including the gorgeous range of Natural Stone baths. Combining natural stone and mineral technology, these baths are not only visually stunning, but are smooth, solid and silky to the touch. We are sure you will be impressed.

Find your perfect bath amongst our collection. From standard single and double ended options, through to black freestanding contemporary choices, we are sure we have something for every bathroom space and every budget.
