

Modular Bathroom Furniture

Welcome

Your bathroom should be a haven of tranquillity. A place to relax and unwind. We understand the importance of having a stylish, practical bathroom that has been crafted with high quality materials that are built to last. Our furniture has been designed and manufactured in the UK for over 55 years by our team of talented individuals and each piece of Atlanta bathroom furniture comes with a lifetime guarantee*. With a choice of colours, sizes and styles, our new range of modular bathroom furniture offers a look that is ideal for your new bathroom.

Available Finishes

Each design in our modular bathroom furniture collection is available in a carefully selected colour palette to complement its look and style. This varies from a range of high gloss to the enticing and highly tactile Indigo Soft Touch with its matt silk finish. Our full range of finishes are shown below.

Key Features

Co-ordinating interior door or drawer and internal cabinet colour for a clean, co-ordinated look.

18mm rigid cabinet for durability and strength.

12mm feature side panels for a superior finish.

Internal motion activated drawer light.

Soft close as standard.

Strong and easy to clean 18mm doors and drawers.

Style Guide - How To Create Your Bathroom Look

1. Planning the layout of your bathroom

Evaluate and measure the available space, consider where you would like the amenities such as the WC, basin and bath and/or shower to be positioned. Does the existing layout work or can the space be utilised better? A wall hung unit can give the illusion of more space. Look at the room that you currently have, how will it be used and by whom? Do you need a bath or would a walk in shower make better use of the space?

2. What is your style - be inspired

You might have an idea of what style, colour and look you are after or you may need some inspiration. Whether you prefer a classic timeless look, a contemporary handleless style or a desirable curved finish, let our latest range of modular bathroom furniture inspire you. From the minimalist sharp look of PORT that comes as a single or double drawer unit to the curvaceous design of our AMBLE range. If you are creating a downstairs WC or updating an existing one, take a look at our contemporary FARNE range or if you prefer a classic look our BAMBURGH range could be the style you are looking for.

3. Consider storage and lighting

We all need space for our bathroom toiletries and our range of modular bathroom furniture can help create a clutter free environment. To maximise your space further consider a separate storage unit. This can be co-ordinated with your bathroom furniture to complement your overall bathroom look and it is a worthwhile investment. Getting the lighting right can create a desirable ambience to your room. Our internal motion sensor drawer light that is included as standard and our range of LED mirrors can add to this.

4. Making your dream bathroom a reality

Planning your dream bathroom should be fun and enjoyable. Make sure you get the help of a qualified expert when installing any bathroom fixtures or fittings, or if you require any building work. Many of our approved bathroom showrooms can offer practical, useful advice to help you optimise and plan your space. They can accommodate for a wide range of budgets and often provide a full project management service from design to installation, which can make the overall process easier and hassle free.

PORT

Minimalist style for a desirable subtle look. An opulent and versatile range to suit your own unique sense of style.

PORT - 800 Single Drawer Wall Hung Basin Unit in Cashmere Gloss

PORT

With a minimalist inspired style, our PORT range is opulent and versatile to suit your own unique look and space. It has slender 12mm side panels that give an overall contemporary style. It is available in five on-trend colours and as a single or double drawer basin unit in either 600mm or 800mm width. Complete your look by choosing from our wide range of handles from a desirable lipped handle to a sleek rose copper handle.

Chrome Flush Plate and compatible cistern can not be used with the Forino Comfort Height Toilet or a BAMBURGH 550 WC Unit.

What is mineral cast?

Our mineral cast basins are made from a composition of mainly natural stone (75%) such as dolomite, which is crushed and blended with a resin to provide a durable and hard wearing material. The surface is then coated with a thin 0.5mm gelcoat to give it a protective smooth layer.

What are the benefits of mineral cast?

It has a high impact tolerance, a smooth tactile finish and its strength and flexibility allows it to be moulded into shapes that more traditional ceramic basins can't be. It is easy to clean with a scratch resistant surface.
