FIXED FEE RECRUITMENT

TRANSPARENT PRICING

SAVING COMPANIES 95% ON RECRUITMENT FEES

WHAT IS INCLUDED

A dedicated campaign management, streamlined candidate acquisition, tailored job adverts and online promotion, search engine optimisation of job advertisements, applicant tracking and manual shortlisting of candidates. Arranging candidate interviews and placing candidates successfully.

BENEFITS

Outsourcing these time-consuming activities for a fixed fee IS the best option for employers with a small recruitment budget in need of high-quality candidates.

No additional charges for multiple candidate hires.

If we find you candidates with great talent for your vacancies and you choose to hire them all, we don't charge you any additional fees.

With the traditional contingency model, you would pay a fee for each placement, with Parker Placement your cost per hire just gets lower and lower.

We've worked on plenty of campaigns where the client's cost per hire has been significantly reduced by thousands of rands.

THIS HAS TO BE WORTH CONSIDERING

WE COVER ALL INDUSTRIES ACROSS THE BOARD

FIXED FEE RECRUITMENT

1 - 5 Vacancies : R35 000.00 pm
1- 10 Vacancies : R40 000.00 pm
1- 20 Vacancies : R50 000.00 pm

As part of the fixed fee service, you will have access to a dedicated Account Manager who will work with you to firstly understand your recruitment needs and then apply a range of tools to help fill your jobs.

Each job campaign will typically run for a period of 28 days, over which time your Account Manager will utilise a broad selection of Recruitment Marketing channels to ensure both active and passive job seekers are made aware of your job.

These channels will include a wide range of Job Boards, both generalist and niche, Social Media Platforms and working with our Recruitment Partner Agencies.

We will never forward unsolicited candidates, but will identify potential applicants with the relevant skills/experience/talent and reach out to these people.

You can therefore be safe in the knowledge that the candidates we submit have a good understanding of the job opportunity and have applied for the role.

WHAT HAPPENS NEXT

If you choose to recruit every applicant we provide, there is no additional charge. Yes, that's right....you simply pay a single monthly fee and that's it.
