SUCCESS STORIES

Since July 2022 till February 2024, Jamie McCabe has been contracted by Beach Energy an Oil & Gas Operator in Australia as their Coring Subject Matter Expert for their WA Campaign. Involved with in-house support from the initial planning, tender, technical, QHSE phases through to operational support and completion. Result: the well was highly successful with all targets met and exceeded.

Since April 2023, we consulted with Pro-Test Well Services and their Engineering team on new technology operational field trial support and developing high end client engagement. We also are providing API Q2 Advisory Services to their business working closely with key stakeholders.

Successfully assisted Oil Baron in reaching ISO9001 accreditation, building SharePoint Services and Quality Control Services.

KEEP IT SIMPLE
AND PRODUCTIVE.

.....

SERVICES

Company is based locally in Queensland and committed to supporting regional and Australian businesses. Efficient at working remotely as we have developed an unobtrusive process to assist businesses conveniently with newly developed systems and processes.

Certification: break down the process into 4 phases. Allowing our consultant to structure a step-by-step process to help your company achieve its goal of reaching the accreditation phase.

Document Control (DC): Support your company to the best of its ability throughout each phase and or DC measures. Document procedure pack development. As well as provide targets for each phase or DC implementation.

.....

Chair meetings and guide responsible individuals on the process scheduled with your key stakeholders regularly. The aim being to help train and aid businesses supporting their goal to become or continue to be a quality market leader in their field.

SharePoint & Connectivity Packages: develop SharePoint sites and OneDrive in Microsoft 365 which are cloud-based services.

The benefit of our services are they help organisation's: share and manage their business processes, including content, knowledge, and applications. Aiding in and empowering teamwork to quickly find information and seamlessly collaborate across the organisation.

Provide connectivity to other MS APPS such as Power APPS including Power BI, make the package easy to use and powerful in visual impacts.
