

Trackchair[®]

THE ULTIMATE ALL-TERRAIN WHEELCHAIR

ELITE-PERFORMANCE

AXIS 40

GO FARTHER AND GET THERE FASTER.

Unveiled in 2022, the Trackchair® AXIS set the new standard for all-terrain mobility. Designed on the cutting edge of technology, the AXIS delivers unrivaled performance.

The AXIS achieves superior speed and efficiency with upgraded motors and a state-of-the-art, streamlined design.

Comfort can be fully personalized with 6 adjustment points, and 18 vibration-dampening zones soften every ride.

6 adjustment points provide a perfect fit

ST

THE ORIGINAL. PERFORMANCE-PROVEN.

Launched in 2009, the Trackchair® ST redefines outdoor freedom. From conquering snow-covered landscapes to navigating challenging mud and sand, the ST model empowers you to go further and venture beyond concrete constraints. The ST model is patented for design and functionality, features a wide stable base, and is built to withstand the test of time.

Trackchair® ST Models

Range	Variable up to 7 miles

With four different models, a variety of modifications, and dozens of colors & accessories available, your Trackchair® will be suited for you!

TILT-ON-THE-FLY

INDEPENDENT FLIP-UP ARMS

TR

The Trackchair® TR is the only all-terrain wheelchair in the industry engineered to bring the user to the standing position while also featuring both seated and upright driving!

The Trackchair® TR is the perfect choice for individuals seeking the cardiovascular, respiratory, and digestive health benefits that the standing position can provide. With four different model sizes, dozens of color selections & accessories, and the ability to make modifications per the user's needs, every Trackchair® TR is custom-built with precision.

Trackchair® TR Models

Model No.	Width BETWEEN ARMRESTS	Seat Depth	Total Width
TR1816	18"	16"	37"
TR1820	18"	20"	37"
TR2016	20"	16"	39"
TR2020	20"	20"	39"

Trackchair® TR Specs

Height	43" lowered; 64" raised
Length	59"
Weight	~490 lb
Accommodation <small>USER WEIGHT</small>	up to 300 lb
Seat Height	25"
Range	Variable up to 7 miles

NT

The Trackchair® NT is a narrow-profile, fully-adjustable Trackchair® model. Designed to fit within a total width of just 29.5 inches, the NT is able to pass through doorways, load into accessible vehicles, and maneuver tighter spaces. Numerous points of adjustability are provided to enhance comfort, ensure a perfect fit, and allow the NT to "grow with a child" as needed.

Trackchair® NT Specs

Height	47.5" (adjustable)
Overall Width	29.5"
Length	47.5"
Weight	~440 lb
Accommodation <small>USER WEIGHT</small>	up to 250 lb
Seat Height	26.5"
Width <small>BETWEEN ARMRESTS</small>	Adjustable (15" to 22.5")
Cushions	Many options available
Range	Variable up to 7 miles

NARROW-WIDTH

NR

Trackchair® NR Specs

Height	46" lowered; 59" raised
Overall Width	29.5"
Length	48"
Weight	~450 lb
Accommodation <small>USER HEIGHT / WEIGHT</small>	45" - 65" tall / up to 175 lb
Seat Height	26"
Width <small>BETWEEN ARMRESTS</small>	Adjustable (15" to 22.5")
Cushions	Many options available
Range	Variable up to 7 miles

Recommended for smaller individuals (45" to 65" tall and up to 175 pounds)

The Trackchair® NR is a cross between the narrow-width NT and the standing TR, inheriting their respective hallmark features. Best-suited for smaller users, the numerous adjustment points enhance comfort and allow the NR to "grow with a child" as needed.

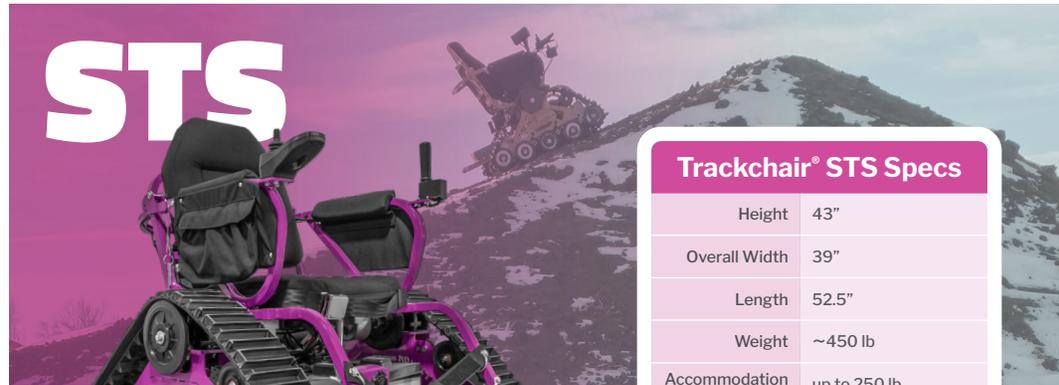

STS

Trackchair® STS Specs

Height	43"
Overall Width	39"
Length	52.5"
Weight	~450 lb
Accommodation <small>USER WEIGHT</small>	up to 250 lb
Seat Height	23"
Width <small>BETWEEN ARMRESTS</small>	20"
Range	Variable up to 5 miles

The Trackchair® STS incorporates a state-of-the-art torsion-arm suspension system and automatic track tensioning to smooth out rough terrain and improve ride quality. Modeled after the ST20 Trackchair®, the STS integrates all the features that make the Trackchair® the best all-terrain wheelchair on the market.

FDAcleared SERIES

Contact us for information on ordering a Trackchair® Eagle, Falcon, or Hawk through your insurance carrier or the VA.

FDAcleared SERIES EAGLE

The Trackchair® Eagle was built to emulate the performance and stability of the Trackchair® ST model. As the first FDA-cleared tracked wheelchair, the Eagle provides freedom and independence

to those who desire to get off the concrete. Patented for design and functionality,

the Eagle has a wide stable base, is built to last, and will traverse almost any terrain (sand, snow, mud, shallow water, etc.) with ease.

FDA 510(k)
#K181908

Trackchair® Eagle Models

Model No.	Width BETWEEN ARMRESTS	Seat Depth	Total Width
Eagle 18	18"	18"	37"
Eagle 20	20"	18"	39"
Eagle 22	22"	18"	41"
Eagle 24	24"	18"	43"

Trackchair® Eagle Specs

Lowest Height	42" (cushion adjusts to 48")
Length	52.5"
Weight	~400 lb
Seat Height	23"
Range	Variable up to 7 miles

Upgraded with an adjustable, lateral-support back cushion and a pressure-relieving base cushion, the user can enjoy their time outdoors comfortably.

With four different sizes, a variety of modifications, and dozens of colors and accessories available, the Eagle can be customized exactly as needed!

FDAcleared SERIES FALCON

FDA 510(k)
#K163451

The Trackchair® Falcon was designed to emulate the performance and stability of the Trackchair® TR model. Able to bring users to the standing position, the Falcon provides added respiratory, cardiac and digestive benefits.

Trackchair® Falcon Models

Model No.	Width BETWEEN ARMRESTS	Seat Depth	Total Width
Falcon 1816	18"	16"	37"
Falcon 1820	18"	20"	37"
Falcon 2016	20"	16"	39"
Falcon 2020	20"	20"	39"

The Trackchair® Falcon will traverse most any terrain, from sand to snow to mud, with ease.

Patented for design and functionality, the Falcon has a wide stable base, and is built to last.

Upgraded with an adjustable back cushion with lateral support and a pressure-relieving base cushion, the user can enjoy their time outdoors comfortably.

With four different model sizes, a variety of modifications, and dozens of colors and accessories available, the Falcon Trackchair® can be customized exactly as needed!

Trackchair® Falcon Specs

Length	59"
Lowest Height	43" (cushion adjusts to 49")
Weight	~490 lb
Accommodation USER WEIGHT	up to 300 lb
Seat Height	25"
Range	Variable up to 7 mi

FDA cleared SERIES
HAWK

The Trackchair® Hawk is **only 29.5" wide and will accommodate a person up to 250 pounds**. This model is a great option for individuals who may want to go through doors and transport in/out of most handicap-accessible vehicles.

Upgraded with an adjustable back cushion with lateral support and a pressure-relieving base cushion, the user can enjoy the outdoors comfortably.

With fully-adjustable arms, a variety of modifications, and dozens of colors and accessories available, the Hawk will be built just as needed!

FDA 510(k)
#K202728

FDA cleared SERIES
HAWK
(WITH STANDING UPGRADE)

FDA 510(k)
#K202728

The Trackchair® Hawk (with standing upgrade) is only 29.5" wide and accommodates users **up to 175 pounds and between 45"–65" tall**. This model is a great option for smaller individuals who may want to go through doors, access most handicap-accessible vehicles, and enjoy outdoor experiences in the upright position.

Upgraded with an adjustable back cushion with lateral support and a pressure-relieving base cushion, users can traverse the outdoors with more comfort. Dozens of modifications, colors and accessories (not to mention its fully-adjustable arms) ensure that the Hawk will be built for you.
