- 2:00 gates closed.
- 2:15 gates open to river side
- 2:30 gates closed
- 2:45 gates open to lake side
- 3:00 gates close

My request is to have one additional lock on this date as indicated by the highlighted times listed. It is my further request that the lock be closed no later than 2:30pm. I will instruct the fishermen if they are there at 2:30 and one second, they will most likely not make the lock. I'm trying to give the participants who have locked out every opportunity to make the 3pm weigh in within time if all works well to their favor. However, it will be announced it is ultimately the responsibility of each participant to be at the weigh in location on time. If they are late, because of unforeseen issues it is neither the fault of Buckman Lock operators or the fault of OGS Tournaments, when they could have locked through at 1:30. We are adding the last lock to truly attempt to accommodate the boat numbers 51 and above who have a weigh in starting at 3:30. Yet, we ask of you to make all attempts to have the lake side gates open by the projected 2:45pm time if at all possible.
