District 10 Presents

Elementary Families and The Science of Reading
Join us [virtually](#) for a Three-Part series

Session 1 Thursday, February 12, 2026 from 6:30 pm-7:45 pm

During this session families will learn about the role of oral language in reading and create activities that can be done at home to support oral language through storytelling, singing, and conversations! We will share information on how to access HMH resources at home so you can read along with your child.

Session 2 Thursday, March 12, 2026 from 6:30 pm - 7:45 pm

The focus of this session will be on building vocabulary and comprehension reading skills. Through interactive word games and activities families will learn how to strengthen reading skills.

Session 3 Thursday, April 16, 2026 from 6:30 pm - 7:45 pm

The final session will promote creating a literacy rich environment at home. Families will gain practical tips on setting up reading corners and incorporating literacy into daily routines.

Families will be provided with resources, activities, games, and access to websites that will further learning!
