At Beyond The Brush, our mission is to provide a comprehensive gateway to the local art community. Our platform includes several key features designed to engage art enthusiasts and support local talent:

- **A comprehensive website** (implied by) featuring information on local artists (categorized for easy browsing), galleries (listed by location), and art institutions. Our online gallery also allows visitors to **shop local art** directly.
- **The "Behind The Brush" podcast**, which offers exclusive artist interviews, providing a deeper understanding of the creators, their inspirations, and upcoming events. This allows art lovers to connect with artists on a more personal level.
- **A dedicated section for "Upcoming Events"**, ensuring that art enthusiasts are always aware of the latest exhibitions, openings, and other art-related activities in the region.
- **Opportunities for artists to become "Featured Artists"**, providing them with personalized online galleries, artist interviews, and promotion to a global audience of collectors and aficionados. This also includes the opportunity for artists to **sell their art** through our online gallery.
- **A platform for galleries to be "Featured Galleries"**, offering them global exposure to art lovers and collectors actively seeking new galleries. Featured galleries benefit from curated listings, dedicated features highlighting their exhibitions and artists, gallery interviews to share their story, and promotion of their events. Our platform also facilitates the **online sale of art** from featured galleries.
