The Best Built Pool in the Industry

Fiberglass by Latham

Latham's Advanced Composite Technology was developed with intensive research and testing, making Latham fiberglass pools easier to handle and install. Latham fiberglass is stronger, more rigid and more durable. It is built better and backed better, with the best warranties in the industry.

- 1. Crystite Gelcoat** – Engineered and built for fade, stain and scratch resistance, our gelcoat has been offering the industry's most beautiful and durable swimming pool surface in its most popular colors for over 25 years. And now you can enjoy the radiance of our exclusive G3 finishes, adding an extra sparkle to your pool.
- 2. Vinyl Ester Resin** – Our resins are designed for corrosion and impact resistance, flexibility, strength and durability.
- 3. Advanced Ceramic Construction** – Ceramic-infused resin provides increased stiffness.
- 4. BiMax Radius Reinforcement** – The tight weave and direction of the fibers within this material add tremendous strength to the pool shell.
- 5. Carbon-infused Technology** – Carbon fibers have the highest compressive strength of all reinforcing materials, and are found in automobiles, boats, yachts, airplanes—and spaceships!
- 6. Aramid Fibers** – Developed for demanding industrial and advanced-technology applications, Aramid Fibers combines high strength, toughness and thermal stability.
- 7. Woven Roving and Marine-grade Resin** – Woven roving dramatically reinforces the strength of the pool shell.
- 8. Closed Reinforced Beam Construction** – Our unique closed reinforced beam construction creates unparalleled strength and rigidity.
