

# Complete Health Campus

The Community Health Campus is an integrated community facility that will consist of overall health and wellness needs of the community, including mental health, behavioral health, and general physical health services.

## Mission:

The Complete Health Campus will provide Mid-Michigan inclusive access to total wellness in one location.

## Amenities:

Multiple medical facilities will be available on the property such as urgent care, dental care, chiropractic services, and more.

Daycare facilities will be included 24/7.

A gym as well as physical therapy and recovery units will be built.

An Olympic-sized community pool.

The facility will include 12 basketball courts and mixed-use fields and courts.

An indoor 400m track will be installed, the only one nationwide

A bowling alley will operate for recreational use as well as tournaments.

Mental health professionals will be available in breakout rooms.

A commercial grade kitchen will provide classes and meals for the community as well as every part of the facility.

A ballroom and theater to hold other events of the community.

## Clare County Health:

- 81st out of 83 Michigan counties for overall health
- 42% of youth in Clare County are considered obese
- 18% of Clare County lives in poverty
