WHY I DO THIS

As a family caregiver, Certified Guardian, business owner, and Michigan Notary Public, I've experienced firsthand how difficult life becomes when chaos is KING - important digits and decisions are lost or unknown, and documents aren't signed, organized, or available when families, friends, and clients need them most.

Have your documents been updated in the last 3-5 years? Do you still speak to your advocates? A little preparation today can prevent a lot of headache and court costs tomorrow.

MORE THAN A NOTARY

Ask about:

- Document Organization
- Fiduciary Support Services
- Office & Business Management
- Marshalling and Asset Documentation & Organization
- Caregiver & Family Support
- QuickBooks Bookkeeping
- Real Estate Investor Support

OUR MISSION

Helping individuals, families, caregivers, fiduciaries, and business owners organize today, protect tomorrow, and bring back joy for over 15 years.
