Armored and glass
Rotameters & variable area flow
meters; recorders & controllers

Recognized as a global leader in
high-quality level instrumentation in
level and flow indication products
such as level gauges, sight ports,
and armored sight glasses

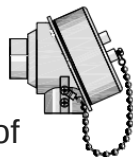

Level, flow, pressure, and
temperature indicators, controllers
and digital panel meters.

Thermocouples & RTDs

Supplying a robust line of
temperature measurement - RTDs,
thermocouples, transmitters and
thermowells.

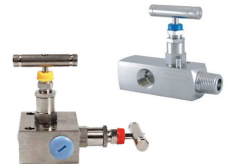

Cost effective, accurate,
informative and effective
turbine flow meters, totalizers and
transmitters for a wide variety of
applications

The K-TEK level product line of magnetic
level gauges, laser & GWR transmitters,
switches, and floats has the proven
technology to provide solutions for the most
difficult liquids & solids level applications.

Tried and true pressure
and temperature
instrumentation including bimetal
thermometers, needle valves,
manifolds and numerous tube fittings

High precision pressure and
temperature test gauges and gauge
seals that are easy to calibrate.

Recognized as a global
leader in the manufacture
of ceramic ball valves that
have proven their superior properties
and longevity in hostile environments such
as corrosive and abrasive applications.
