(281) 535-0800 | cobiacontrols.com | sales@cobiacontrols.com

Measurement instruments and automation solutions to help standardize your industrial process including: **Flow, Level, Pressure, Temperature, Controllers & Recorders, Actuators & Positioners.**

**PRECISION
DIGITAL**

Level, flow, pressure, and temperature indicators, controllers and digital panel meters.

Supplying a robust line of temperature measurement with over 80 years of experience manufacturing RTDs, thermocouples, transmitters and thermowells.

McMENON

Premier manufacturer of flow and temperature measurement instrumentation, premier supplier for ABB DP flow and temperature and the trusted partner of choice for complete contract engineering and manufacturing services.

JOGLER
PREMIER LEVEL PRODUCTS

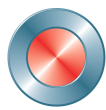

The Jogler level product line of magnetic level gauges, magnetorestrictive transmitters, direct-reading level gauges and other superior level products are known for reduced lead times and on time delivery.

Questtec
SOLUTIONS

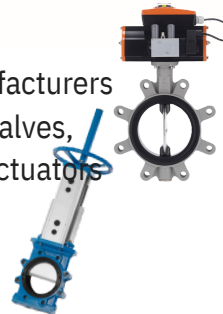

QTS Level specializes in the development and engineering of armored glass level gauges, valve products, steam level indicators, and liquid level gauge accessories.

EBRO ARMATUREN®

Stafsjö

Two of the world's leading manufacturers of high-performance industrial valves, knife gate and butterfly valves, actuators and automation technology

Fujikin

Recognized as a global leader in the manufacture of ceramic ball valves that have proven their superior properties and longevity in hostile environments such as corrosive and abrasive applications.
