

## **Community-Based Developmental Division**

**The Community-Based Developmental Division is designed specifically for novice & developmental teams.**

**This division focuses on teaching the fundamentals of football, building confidence, and developing sportsmanship in a supportive and instructional environment. Emphasis is placed on skill development, proper technique, teamwork, and understanding the game — rather than competition alone. Coaches in this division are committed to mentorship, positive reinforcement, and ensuring every athlete receives meaningful playing time. This program serves as the foundation for long-term player growth within our league and community.**
