

To the Team at CityServe Canada,

She;kon

On behalf of the Akwesasne community and the Ratiwennahawi Foundation, I extend my deepest gratitude for your extraordinary generosity and partnership. The hundreds of thousands of dollars' worth of Gift In Kind donations from your Amazon pallets have made a profound difference in the lives of countless families within our communities, which spans both Canada and the United States.

Your dedication went far beyond the donations themselves. The care and effort you took to arrange the trucking, manage the logistics, and ensure the safe delivery of all these goods reflect a genuine spirit of compassion and service. Each item received has found its way into the hands of people who truly needed it; from children and elders to families working hard to build better lives.

We are also deeply touched that through our ongoing partnership, some of these generous donations were shared overseas with Indigenous communities in need around the world. CityServe Canada's commitment to being a blessing to Indigenous peoples everywhere stands as a shining example of unity, respect, and shared humanity.

With heartfelt appreciation, Niawen,

Michael Kanentakeron Mitchell
