## FIRE DETECTION SYSTEM ASSETS

**The Fire Alarm System (FAS) provides fire detection, early evacuation warning, local fire brigade or public fire department notification, and manual or automatically activated fire detectors. This system is applied to all facilities. In SG4Solution, we make the maintenance for the below systems; Fire Alarm Systems can be broken down into four main types:**

**CONVENTIONAL**  
Fire Alarm System

**INTELLIGENT**  
Fire Alarm System

**ADDRESSABLE**  
Fire Alarm System

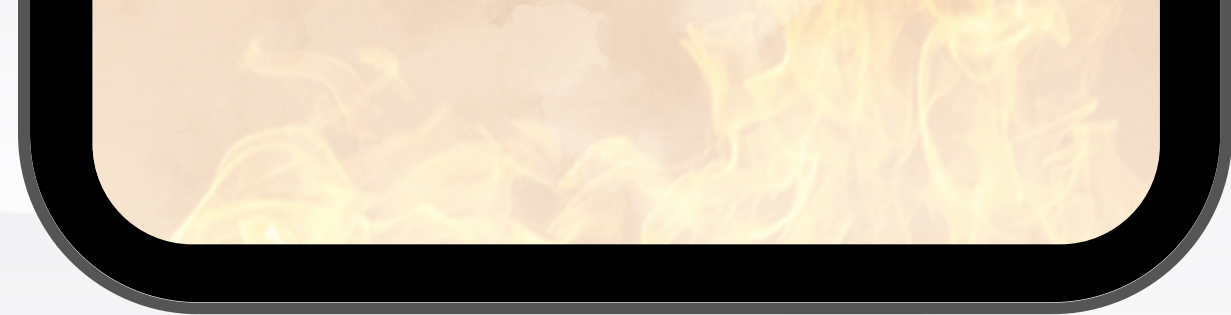

**WIRELESS**  
Fire Alarm System

# Passive Fire Protection

## Complete Fire Protection Solutions

**Fire Analysis**

**Thermal Analysis**

**Structure Analysis**

**PFP  
Analysis**

**Passive Fire Protection is an essential component of structural fire safety. In accordance with the Saudi Arabiabuilding regulations, all new refurbishments and buildings must incorporate Passive Fire Protection measures.**

**Passive fire protection is designed to aid with fire compartmentation by isolating the spread of fire and smoke to other parts of the building, effectively keeping the fire in the location where it originated.**

We install, maintain and perennially look after industrial, commercial and domestic CCTV installations on sites across the Saudi Arabia. Our authorized specialists have installed CCTV for private homes, business spaces and government offices. Would you like to ensure security of your family and your property? What's more, keep on a check who and what goes all through your place of living arrangement with a Wi-Fi-empowered system of reconnaissance cameras.**

**We will take the time to answer each of your questions for you in a way you will be able to understand and gives the most moderate answers for your home security needs. Ensure your place with top-notch surveillance cameras that records HD quality video as well as intended to mix consistently into your commercial space's existing decor. We provide high-quality installations and service of security surveillance, alarms and access control. From the smallest installations to the largest, most complex integrations, you can be sure that you will get the best gear and the individual consideration you merit.**

# CCTV Maintenance

Performing regular maintenance checks is crucial for your safety. MMJSS is among the best CCTV suppliers in UAE. We conduct periodic inspections of CCTV cameras installed in Dubai for unparalleled services. A few tips for maintaining the working and CCTV in Dubai are as following:

- Clean Camera Lenses
- Check Wiring & Power Supply
- Verify Time Stamp
- Verify your Camera's Position
- Clean DVRs
- Check Hard Drives
- Check for Corrosion
- Inspect Camera Housing
- Verify Lighting
- Verify Recording is Active 24/7

# Video Analytics

**Video analytics can transform standard CCTV systems into intelligent and effective detection and alert systems. CCTV cameras are now capable of recognizing the faces of people, vehicles, animals and bags automatically.**

**WE PROVIDE A ONE-STOP SHOP FOR ALL ANALYTICS SOLUTIONS, from CCTV face recognition cameras to people counting software and intruder detection systems.**

# Our Scope of work

# Source Gulf Company

## Our Way Forward

- To achieve these commitments, SG4Solution will embed the Saudization Strategy at the heart of its Competence Management System, which will enable it to:

- Provide a strong contingent of local talent involving them as early as possible in the development phases.

Meet and even exceed Employers' requirements and expectations regarding Saudization

- Maximize employment opportunities and placements for Saudi people at a credible ratio over time.

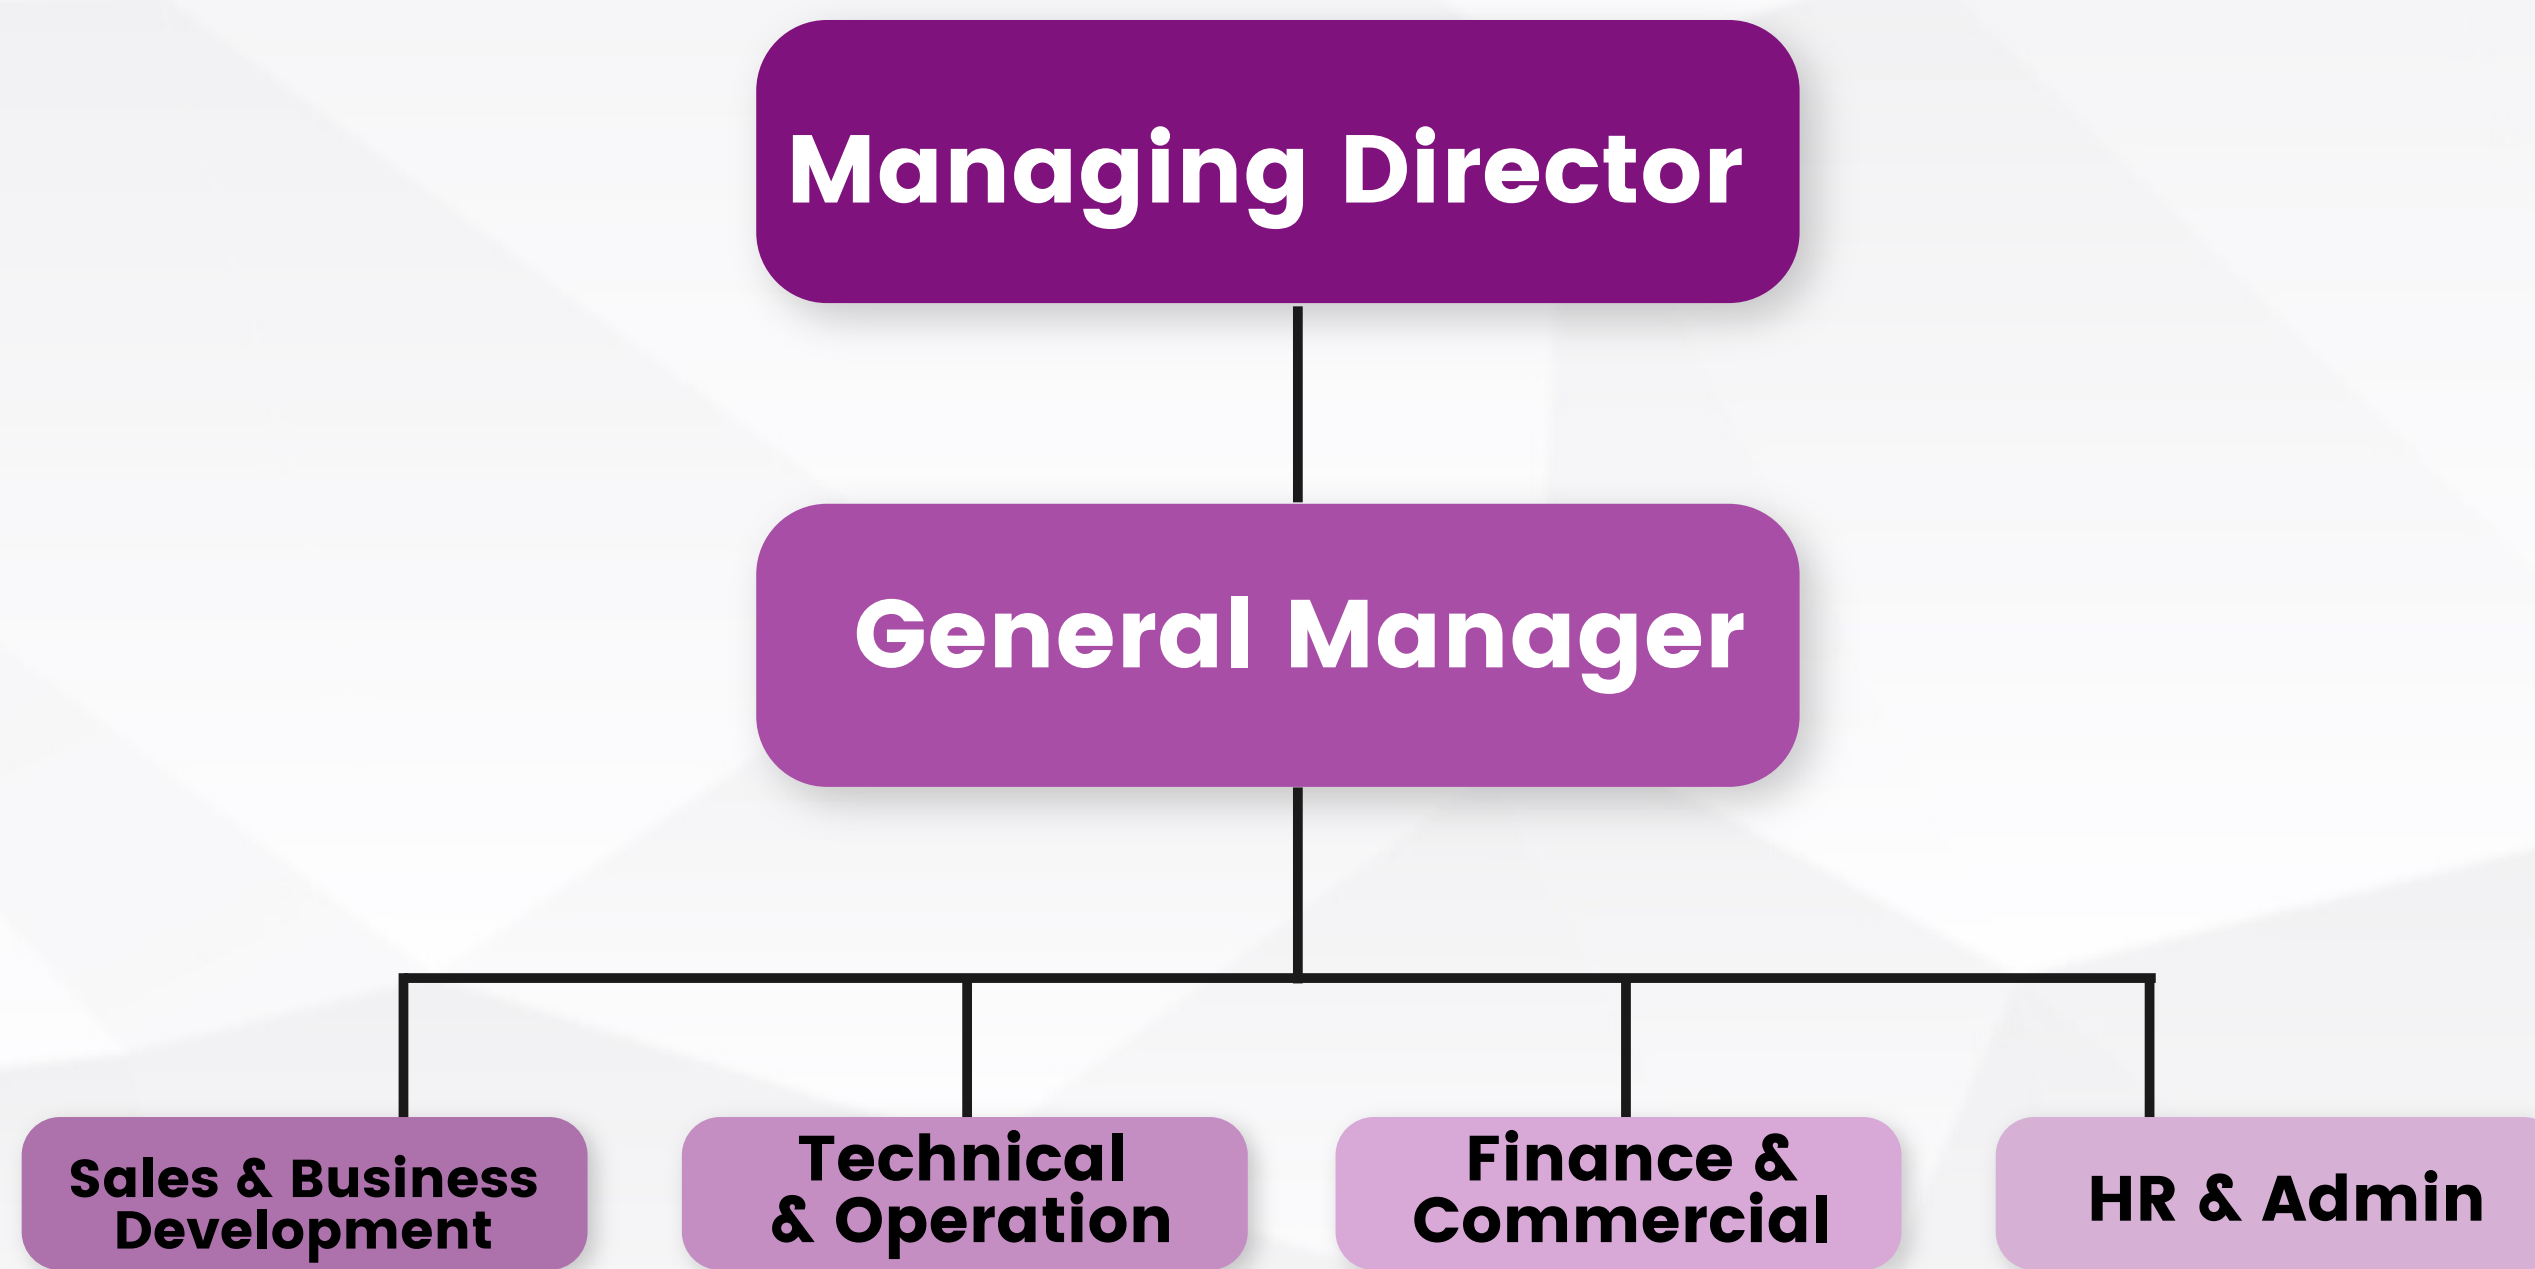

- Allow university/college students access to help them understand the industry and spark interest in pursuing its careers.
