

**"If the people want a government of their own,  
they must do the work of making it their own."**

Robert M. "Fighting Bob" LaFollette

**We, the workers, can get the job done, if we organize!**

**Two elegantly simple, yet incredibly powerful,  
pro-democracy amendments will -**

**The Perfect Democracy Amendment** will make it easier for the citizens of Missouri to call veto referendums and use the initiative to enact legislation by allowing petitions to be signed electronically (online).

**The Proxies for Citizens Amendment** will allow anyone who is eligible to vote in Missouri to assign a "proxy" to any one member of the Missouri House and any one member of the Missouri Senate and then give each senator and representative a number of votes equal to the number of proxies they have been assigned, plus one for themselves, on everything voted on in the General Assembly. Proxies can be reassigned at any time. This will give Politically Active Citizens the ability to vote (indirectly) on legislation being considered in the General Assembly.

Initiative petitions for both of these proposed reforms have been approved for circulation in Missouri. If we gather the required number of signatures by May 3, 2026, these proposals will be on the ballot in Missouri on November 3, 2026.

**All that is necessary to make Missouri a Perfect Democracy  
is for enough workers to unite in support of democracy.**

**WHEN WE UNITE - OUR MOVEMENT WILL BE TOO BIG TO FAIL**
