### **AuthentiCare 3.0 Update**

As many of you are aware, AuthentiCare has updated to the new 3.0 app. There have been some hiccups along the way, but they are continuing to troubleshoot and improve the new app. Some of the problems can be fixed with uninstalling and reinstalling the app from the device and re entering the Setup Code KANSASPRD, and other issues are more complex. Here are some reminders of things that can be done when the system isn't working...

With the initial setting up of the new 3.0 app, the Device ID will change, and workers need to get that to our office so that we can add it into the system.

The app does not show the number of hours that are left on the members' Service Plan at the end of the month, but they are working to get that updated and changed.

AuthentiCare 3.0 is not compatible with older version phones going back as far as iPhone 15 and Android is 8. Also, make sure that the latest Operating System is downloaded onto your current device before switching to the 3.0 App.

There are a slew of issues that we are learning about every day as well, so if you have any questions or problems clocking in and out, please call our office at the first opportunity. We are limited in the number of full shifts we can enter into AuthentiCare.

## IDD Rate Increase

IDD rates did get an increase starting July 1<sup>st</sup>, 2026. If you wish to update your workers' pay, please send us an updated Employment Agreement with the new rate reflected on Section 5 and we can get that updated.

It can be found on our website at <https://lifepatternsks.org/support-workers>.
