EXHIBIT 2

Each Co-Owner owns in addition to his apartment an interest in the common elements of the Property which percentage ownership interest has been determined and computed by taking as a basis the value of each individual apartment in relation to the value of the Property as a whole. Such percentage interest in the common elements of each Co-Owner shall vary, however, provided that the Developer proceeds with subsequent stages of development. There are four Phases of Development. Phase I shall consist of 42 apartments. Phase II shall contain an additional 41 apartments making a total of 83 apartments. Phase II is indicated within the Exhibits to the Master Deed. Phase III, if included, shall contain an additional 41 apartments and/or additional common elements (or a total of 124 apartments.) Phase III is likewise designated within the said Exhibits. Phase IV, if included, will contain an additional 41 apartments and/or additional common elements (or a total of 165 apartments.) Phase IV is likewise designated in said Exhibits.

The percentage of interest in the common elements of each original Co-Owner of an apartment at each stage of development is shown hereinbelow in this Exhibit.

In addition, each Co-Owner of an apartment shall be entitled to one (1) vote which represents a certain percentage of the total votes of all of the Co-Owners. Such voting rights and the percentage of the total vote of each Co-Owner of an apartment has been computed by

taking as a basis the value of the individual apartment in relation to the value of the Property as a whole.

In the event only Phase I is included in the Regime, each Co-Owner shall have an undivided 2.38095 percent ownership in the common elements of the property and share in the common expenses and assessments and common surplus of the Regime. His one (1) vote shall represent 2.38095 percent of the total vote of all Co-Owners of the Regime.

In the event that Phase I and Phase II are both completed (a total of 83 apartments), there shall be appurtenant to each apartment an undivided 1.204819 percent ownership interest in the common elements of the Property and share in the common expenses and assessments and common surplus. In addition, the one (1) vote for each apartment shall constitute 1.204819 percent of the total vote of all apartments of the Regime.

In the event that Phase I and Phase II and Phase III are all completed (a total of 124 apartments), there shall be appurtenant to each apartment an undivided .80645 percent ownership interest in the common elements of the Property and share in the common expenses and assessments and common surplus. In addition, the one (1) vote for each apartment shall constitute .80645 percent of the total vote of all apartments of the Regime.

the headend equipment at request of Lessee. In the event that the building
renovation has not progressed whereby the rough wiring can be done to all
units while TFC technicians are on the job for 1 week to 10 days, then Lessee
assumes responsibility for remaining rough wiring (materials only to be
furnished by Lessor).

Except for installation of the antenna amplification and wiring as stipulated,
all remaining installation will be performed by Lessee. Lessor will assist
Lessee as required with supervisory data over the phone and will also furnish
at no charge 1 technician for a maximum of 2 days for any required trouble-
