League Formats

In an effort to keep the teams close in points and location, all divisions will be scheduled based on points per team and geography.

Doubles teams: Team combined player rating averages cannot exceed 120 PR.

Trios teams: Team combined player ratings averages cannot exceed 160 PR.

Quad teams: Team combined player rating averages cannot exceed 200 PR.

Substitution Rule: All leagues will be assigned a cap after the division is formed. In the event a substitute is needed, any player is allowed as long as the current ratings for the team do not exceed the cap of the division. All substitutions text info to 206-335-5037 at least 6 hours prior to the start of the match.

Example: If we have 16 teams in close geographic proximity to each other, the 8 teams with the highest combined PPD will be placed in one division & the 8 lower combined PPD teams will be in the other division.

All divisions will be handicapped based on the league format capabilities of the dart boards being used.
