**Version Date:** 02/10/2021

**Job Title:** Assembly Line Technician

**Reporting:** Assembly positions report to the Shop Lead.

**Summary:** Accessories Unlimited, a manufacturer of skid loader and tractor attachments, is looking for skilled Assemblers. The candidate should be able to read prints, and assemble equipment using assembly instructions and proper tools, both hand and power.

**Qualifications:**

- Experience with basic power and hand tools
- Ability to read prints and instructions
- Knowledge of basic manufacturing/shop functions preferred
- Self-motivated to move onto the next project without constant supervision
- Reliable and can be counted on daily
- Hard working, efficient, and always looking for ways to improve productivity
- Goal orientated, setting daily goals, and doing what it takes to accomplish those goals
- Overhead crane experience preferred

**Duties:**

- Install correct build stands for equipment being built
- Hang main bodies on stands using cranes and prep other components for machine assembly
- Assemble equipment per assembly instructions
- Perform quality run tests and checks
- Repair any necessary quality issues found during quality checks and tests
- Remove finished machine from build stands using crane
- Crate and package finished machines for storage and shipping
- Assist with picking parts for assemblies using computer generated pick lists
- Assist paint department with prepping and washing weldments and finished machines
- Clean and organize work areas including isles and bathrooms when required
- Maintain and repair equipment as needed
- Perform other duties as needed and assigned

**Status and Benefits:** : Assembly positions are nonexempt hourly paid positions. Any time worked above 40 normal work hours will be paid out and 1.5 times the employee's standard pay rate (overtime). Benefits include but not limited to health insurance, 401K match, performance and yearly retention bonuses.

**Essential Functions:** Welders must be able to lift up to 50lbs., communicate effectively in the English language, and be able to work in hot/cold environments.
