Job Title: Paint Line Specialist

Reporting: Paint Line Specialist positions report to the Production Lead

Summary: Accessories Unlimited, a manufacturer of skid loader and tractor attachments, is looking for a Paint Line Specialist. The candidate should have experience in the application of powder coat paint, prepping parts for paint, and handling of weldments with forklift trucks.

Qualifications:

- Experience in the operation of forklifts
- Powder coat application experience
- Part prep, applying cleaning detergent, rinse, and light sanding
- Self-motivated to move onto the next project without constant supervision
- Reliable and can be counted on daily
- Hard working, efficient, and always looking for ways to improve productivity
- Goal orientated, setting daily goals, and doing what it takes to accomplish those goals

Duties:

- Load parts in weldment racks by hand as well as with forklifts
- Move parts in and out of the paint line using forklifts
- Prep parts by applying degreasing detergent and rinsing with pressure washer
- Move parts in and out of paint line oven to dry as well as for paint curing
- Final prep parts for paint by sanding, cleaning with compressed air, and plugging necessary areas with high temp tape and plugs
- Apply powder paint on weldments
- Unload finish painted parts from paint racks onto transportation and storage pallets
- Put parts away into proper locations
- Perform WIP to finish part transaction and inventory movement transactions when inventory has been moved using computers
- Repair any necessary paint damage and flaws by prepping and spot painting parts
- Assist with snow removal using skid loader and or shovels
- Maintain facility grounds and keep free from garbage and debris
- Perform other duties as needed and assigned

Status and Benefits: Paint Line Specialist positions are nonexempt hourly paid positions. Any time worked above 40 normal work hours will be paid out and 1.5 times the employee's standard pay rate (overtime). Benefits include but not limited to health insurance, 401K match, performance, and yearly retention bonuses.

Essential Functions: Shipping/Receiving Specialists must be able to lift up to 50lbs., communicate effectively both written and verbally in the English language, and be able to work indoors as well as outdoors in hot/cold environments.
