

HOW TO DO TMMR DURING COVID-19 2021 EVENT HEALTH PLAN

Welcome to Tennessee Motorcycles & Music Revival at Loretta Lynn's Ranch. These have been challenging times and we have struggled with the decision to host the event or postpone. As we move forward with our May dates, we want to make sure we provide you with not only a great event experience, but a safe environment. In a post-Covid-19 world, that means practicing social distancing and social responsibility. "Social distancing" means keeping a safe 6-foot distance from others when possible and when you can't - wear a mask. However, family members are not expected to social distance

Masks are recommended in close quarters but not required by law. "Social responsibility" means understanding why we have to take these precautions not only for our own safety, but for the safety of others. Please bring your own masks and be prepared to wear them when necessary. Please wash your hands often. Carry your hand sanitizer and use antibacterial soap. This is the bad news but news we have to provide.

The good news is....you're going to be at Loretta's Ranch and you'll be outdoors in the fresh air on acres and acres of wide open space!

Here are some guidelines we would like you to follow. Thank you in advance for your cooperation. Be safe and have a blast!

1. Bring your own masks, hand sanitizer and antibacterial soap. If you forget or need more, check Loretta's country store or Walmart in town.
2. Make sure your RV's carbon monoxide(CO) detector is properly functioning and batteries charged. Better safe than sorry.
3. Buy a contactless thermometer and take your temperature before heading out. If you have a temperature over 100.4, please stay in.
4. If you have been in contact with someone with Covid within two weeks of the Event, please stay home and don't take chances with other people's health.

When going off property and visiting local businesses in the area, please be sensitive to the residents and wear a face mask. The county requires all businesses in Waverly wear masks in order to enter.

Thank you for your cooperation. We look forward to seeing everyone and have a fun, safe event!
