

BTL EMSELLA®

SAY NO TO INCONTINENCE

1/3 of women
who experienced
incontinence said
they were **hesitant**
about physical activity
for fear of losing urine.*

Don't be a statistic.

Results and patient experience may vary. As with any medical procedure, ask your doctor if the BTL EMSELLA procedure is right for you. BTL EMSELLA is intended to provide entirely non-invasive electromagnetic stimulation of pelvic floor musculature for the purpose of rehabilitation of weak pelvic muscles and restoration of neuromuscular control for the treatment of male and female urinary incontinence. ©2019 BTL Group of Companies. All rights reserved. BTL, EMSELLA, and HIFEM are registered trademarks in the United States of America, the European Union, and/or other countries. The products, the methods of manufacture or the use may be subject to one or more U.S. or foreign patents or pending applications.
