

DROP-INS

We are currently reviewing our drop-ins to make sure we are getting to each corner of our city and making them as accessible as we can.

Is there a day, time, venue where you would like to come and see us, have a brew, and talk all things SEND?

Let us know at info@salfordpcf.com

Annual SEND Survey!

Each Autumn we send out our annual survey to ask parent carers their views. The results from this survey are shared with key agencies including the Local Authority, Health Services and community and voluntary organisations, all of which use this information to shape services.

Keep an eye out on our Social Media channels or become a member to get it directly into your inbox.

How are we doing?

Quarterly Newsletter

YOUR forum!

Our steering group has been working incredibly hard behind the scenes to make sure we have a forum that works for everyone, that is accessible to all, and is sustainable for the future. To enable us to achieve this, we recently became a Community Interest Company. Although the way we work won't look much different, we hope this will enable us to do more work to gain the views of parent carers and their children, work with more services to ensure they are meeting the needs of children and young people, and offer support to anyone who may need it.

Your views matter!

We are really trying hard to gain the views of all Salford's Parent Carers and we are trying a number of ways of doing this. This includes holding larger events, running our weekly drop-ins or planning activities at the allotments. If you are unable to get to any of these, you can still have your say on a range of topics.

Our team have been working with a wide variety of services and professionals including Educational Psychologists, Education settings, and leisure providers to look at what is working for families and what isn't. To help us with this work, we need to hear your views, opinions and experiences.

Our website has a page dedicated to "have your say". We already have a number of surveys available with more to come over the coming weeks.

Head over and get involved!

SHARE YOUR VIEWS!

Salford Community Leisure

Parent reps are working with Salford Community Leisure to hear customers experiences of using the Leisure Centers, Community Centers, Museums and Libraries, and how they can make improvements. HAVE YOUR SAY! COMMING SOON

Salford's Local Offer

Every Local Authority has to have a Local Offer that tells parent carers what services are available for their children with SEND. Have you heard of the Local Offer? Have you seen what is available? Are you able to access the information easily?

Parent reps are working with the Local Offer Partnership to improve the Local Offer and would love to hear your views? HAVE YOUR SAY! Salford's Local Offer

Transitions

What makes a good transition? What has helped your child when moving between year groups/schools/settings? (This can be from pre-school to school, Early Years to YL Infants to juniors, primary to secondary, post 16 or into Adult services)

We would love to know what has worked well for you and your family to enable use to build on any good

Neurodiversity in Education and PINS

SalfordPCF are excited to announce we will be working alongside our strategic partners to deliver TWO projects in schools from September.

Neurodiversity in Education (Formally Autism in Schools) will be running in two of Salford's high schools whilst *Partnership For Inclusion of Neurodiversity in Schools (PINS)* will be delivered in four primary settings.

Both projects are co-delivered by the Local Authority, Mental Health Services and SalfordPCF and aim to improve school experiences for neurodivergent children and young people. For more information head to our website.
