

A multidisciplinary team supporting families, schools, and services.

Proud partners of NHS Health Education England and Council for Disabled Children

**Bonfire Night is celebrated on the 5<sup>th</sup> of November.**

**On Bonfire Night we set off fireworks into the sky.**

**Fireworks can be all different sizes; some may go to the sky, and some may be smaller in our garden.**

**Fireworks can make loud noises that we can hear outside and inside our house. This is okay as I can wear my ear defenders or loops to help.**

**Some fireworks can leave a burning smell afterwards if it helps you could spray your favourite scent on some cloth to cover the bad smell.**

**If you are watching the fireworks, you can have your favourite toy or fidget with you.**

**Remember if you need some help, your parent/carer, or safe person is here to comfort and help.**

**Have fun & be safe!**
