**ANNUAL GENERAL MEETING OF THE PEEL 4X4 CLUB****Annual General Meeting Minutes**Date: Saturday 26th July, 2025

Venue: Total & Partially Disable Veterans of Western Australia

**PRESIDENTS REPORT (Gary Mayes)**

- Gary thanked Julie Power for organising the venue & night; and to Hugh for the venue recommendation.
- Also thanked members for a great year. Large number of trips, plus several more in the calendar.
- Several new members throughout the year, which was great to see.
- Gary gave individual thanks to each of the committee members:
 - Julie Power for taking on the role of Secretary at the last AGM, and has also been the one organising refreshments for each of our General Meetings; along with co-ordinating events like the Christmas Function, AGM's, and other things that have popped up throughout the last year. Julie also helped in getting our financial records in order.
 - Dave Knudsen for continuing on as Insurance Officer & Deputy Chairperson, despite also having to do shift work. Dave has also initiated getting the club sorted properly with the ABN & Tax File Number, which meant quite a bit of time on the phone to the Government Departments.
 - Cassie Mayes continued on as Treasurer & Webmaster for the first 6 months of the year, before leaving the club, but maintained support from afar, which was appreciated.
 - Brian Tanner stepped up again to continue providing you all with this information packed magazine.
 - Chris Jones for taking on the role of Environmental Officer.
 - Jacob Yardley for taking on the role of Property Officer.
 - Steven Power for continuing the role of Trip Coordinator, ensuring that everyone is kept up to date at meetings on what trips are coming up.
 - Hugh for having a go at the Treasurer position.
 - Mark Skeels for assisting with management of the Facebook pages, and also attending a couple of the Delegate meetings.

A big round of applause was given by all in attendance.

- Gary asked about interest in a club night at ARB Rockingham. There were quite a few interested.
- Gary also advised that he had made contact with Mandurah Boat, Caravan, Camping & 4x4 Show.

Business for the President:

- The possibility of using the TPDVWA facility for General Meetings was discussed. This would cost \$100 per year to become a member.
- Brian asked for update info from all members for the red book.

Gary asked the standing down Committee if there was anything to report.

**ANNUAL GENERAL MEETING OF THE PEEL 4X4 CLUB****Annual General Meeting Minutes**Date: Saturday 26th July, 2025

Venue: Total & Partially Disable Veterans of Western Australia

Trip Planning Ideas

Leading a Trip

I'd like to lead a trip, but don't know where to go

This is likely one of the hardest items once you have the confidence to lead a trip.

Some suggestions for finding somewhere to go are:

- Previous Trip Reports
- Suggestions from other members
- A previous trip you went on, and quite enjoyed
- Maps available on the members section of the Peel 4x4 Club website
- Plan a technical / knowledge day
- A google search for good locations

I have an idea, but not the experience leading a trip

If there is somewhere you would like to go, and would also like to drag the club along with you, why not approach the trip coordinator) or another experienced club member that has led trips), and discuss your ideas.

Take mental (or written) notes of how other trip leaders run their trips.

The only way to gain the experience, is by actually getting out there and having a go.

What Experience Must I Have?

This depends largely on the grade of trip (Scenic / Social; Easy; Medium; Hard; Extreme) and area you wish to conduct your trip in. As a rule of thumb, if you, the Trip Leader feel confident in your abilities, yet realise your limitations, you're in.

Start off with simple trips first, and go from there.

Should I Have an Assistant?

YES, however this is not mandatory. An assistant is invaluable in helping to bridge the gaps in your experience, and to help balance the decision making. Someone who is experienced in 4WDing is a good choice. They would normally fill the position of tail end Charlie, providing backup from the rear.

How To Plan a Smooth Trip

Your trip will only run as smoothly as you plan it. Your pre trip briefing should include convoy procedures, identify Tail End Charlie, First Aider, allocation of magnetic numbers, give a brief description of what the group may encounter, (the element of surprise doesn't enhance the element of a good trip), and any safety tips, eg use of flag.

Flexibility

At some stage during your trip, things may go wrong such as running behind time, countless recoveries, trapped or lost. Don't despair, things are never as bad as they seem. Don't be afraid to come forward and consult with the group as they are in it just as much as what you are. Pool your ideas and something always comes of it. Flexibility is the key, never be afraid to change your plan.

Trip Planning Ideas

How To Get Started

Formulate your intention on paper – where you want to go, date & time, and any special features of land marks you wish to include. See the Trip Coordinator, or other members, who may be able to help out with maps and advice, or give you the name of someone who has been there before.

You may also need to contact relevant authorities; eg DBCA, caravan parks, check road conditions and property owners for further information.

The Trip Coordinator will place your trip on the calendar and organise a sheet to go out at the meeting.

What's The Hardest Task?

Giving it a go!!

Con, bribe, coerce or draw straws to pick some unfortunate soul to write up a trip report for the magazine (definitely the hardest part). This way you get to reflect back on your trip, your hearsay adventures and yourself, the umpteen gruelling hours up to your neck in mud and leeches, gruelling hours of gut wrenching recoveries, and those dribble sessions around a campfire.

A trip report ending in the words "Good time had by all", is well worth giving the Trip Leader position a go.

What resources are available?

Within the club, we have 3x Trip Bags available to be used by Trip Leaders, whether it be on an actual trip, or for a Reccy Run. In each bag, is:

- Magnetic Numbers (15x in total)
- A Personal Locating Beacon
- A snake bite kit
- A folder with all the forms you need, including the Trip Procedure Sheet
- Pens

The Trip Procedure Sheet is a step-by-step checklist, which helps the trip leader, by having everything in order. From the initial meet & greet, welcoming visitors, trip briefing; all the way to collecting the magnetic numbers at the end of the trip.

What is a Reccy Run, and do I need to do one?

A Reccy Run is a Reconnaissance Run. This is used to check that the maps / directions being used are accurate, preventing getting the convoy lost. It also helps to prevent any unknown surprises along the way, such as closed roads, locked gates, etc..., and gets the Trip Leader familiar with the trip. It also allows the Trip Leader to determine locations such as where to air down, lunch / break locations, air up location, and where the trip will end.

Depending on the location, it is advisable to have at least one other vehicle with you when doing a Reccy Run, just in case you do get stuck.

A Reccy Run is not critical in leading a trip, but is definitely recommended.

Trip Planning Ideas

Additional Info

It's not just about the location. Make it your own trip.

For example, Lennard Track – we did it early in 2025, and went to Gnomesville afterwards. This year, we incorporated a camping trip at Honeymoon Pool, a surprise afterwards, and my signature brewery stop at the end...

It doesn't need to be an actual trip. If you don't feel comfortable leading a trip on 4x4 tracks, maybe look at hosting or planning a social event.

A good example is we have had a Curry Night, hosted by a member at their house; or we have had social events like the World War 2 Tunnel trip planned by a member.

There is heaps of information out there in regards to different days trips & locations – even in our magazines from Brisey.

Maps are available on the Club Website for members to download. These are previous proven trips, and also trips that will require a Reccy Run to confirm prior to doing a trip.

NOTE – If you have ever been a trip leader, you will know how frustrating it is when people put their name on the trip sheet then don't turn up!

If you put your name down to go on a trip make note of it; and if you are unable to attend for any reason (or no reason at all), let the trip leader know. This way they are not waiting for you.

Be punctual too, as you being late can cause frustration when we have to meet up with other people along the way, or are on set tour times.

If you are running late phone the trip leader. You cannot be sure a message has been seen.

NOTICE OF CLUB FEES

Membership fees are now due as from 1st July 2026 and will remain at \$90.00

Payments can be made by deposit to the club bank account using your surname as reference. Please reach out to the Treasurer at peel4x4.treasurer@gmail.com to get the bank details.

Remember if you have not paid yet you are now unfinancial and will not have voting rights at the AGM.

See below for excerpts from the constitution about payments

E. The association's financial year will be the period of 12 months commencing on 1st July and ending on 30th June of each year.

12. Membership fees

- (1) The committee must determine the entrance fee (if any) and the annual membership fee (if any) to be paid for membership of the Association.
- (2) The fees determined under subrule (1) may be different for different classes of membership.
- (3) A member must pay the annual membership fee to the treasurer, or another person authorised by the committee to accept payments, by the date (the **due date**) determined by the committee.
- (4) If a member has not paid the annual membership fee within the period of 3 months after the due date, the member ceases to be a member on the expiry of that period.
- (5) If a person who has ceased to be a member under subrule (4) offers to pay the annual membership fee after the period referred to in that subrule has expired —
 - (a) the committee may, at its discretion, accept that payment; and
 - (b) if the payment is accepted, the person's membership is reinstated from the date the payment is accepted.

Containers for Change

After the AGM we made an account to donate the empty recycling containers to the club.

These funds can then be used towards our social functions or other agreed upon purchases for the club as something a little extra.

No obligation, and we understand people collect their own, but if you have any empty bottles or cans laying around please feel free to use the QR code or account

Another AGM is just around the corner which means another club year is over. I must be getting old as the time between AGM's seems shorter than it used to. As I mentioned before I will be nominating for the magazine editor again this year but if anyone want's to take it over I will be happy to stand aside and have a rest. After about 15 years on the committee I don't remember what it is like to be part of the general membership. I may not renominate for committee at the 2027 AGM.

Only a month now before Julie and I leave for our South Australia road trip, with all the false starts we are looking forward to it. We are going to do a counter clockwise lap of SA staying a week in various towns then doing day trips into the surrounding areas. Also we will have a day trip to Mildura in Victoria to catch up with our prodical son we haven't seen for over 10 years. We expect to be gone about 2 months or until we run out of money whichever comes first.

Our recent holiday to Dongara turned out to be rather expensive. While away we were contemplating storage for our upcoming road trip and decided that a canopy for the ute would be very handy. After ordering the canopy from MW Toolboxes in O'Connor I thought some drawers would be handy too so ordered a Kings slimline drawer. The very next day we got bogged outside Mingenew (see last month's magazine) and had to get the rescue crew out. The credit card certainly got a workout.

As I mentioned at the last meeting this will be the last magazine for a couple of months while we are away.

GENERAL MEETING OF THE PEEL 4X4 CLUB

Chairperson Notes

Date: 26th July 2025

Venue: Total & Partially Disable Veterans of Western Australia

Meeting Opened: 5:15pm

Chairperson welcomed all members.

Safety Briefing.

ATTENDEES & VISITORS. As per attendance register.

APOLOGIES / PROXIES. As per attendance register.

Gary reminded everyone of the prizes that were up for grabs throughout the night, and thanked Chris Jones & Parkside Towbars Rockingham for their generosity with the Major Raffle Prize. Gary also thanked Jacob & Heidi for donating the prizes for the door prize & minor raffles, and ARB for also providing a subsidy for raffle prizes.

2. TRIPS SINCE LAST MEETING

- Gary advised that there were a total of 24 trips of various types in the past 12 months, which was a great effort.

3. CONFIRMATION OF MINUTES FROM PREVIOUS MEETINGS

- Annual General Meeting – 06/07/2024. Greenhills Inn
Chairperson Gary Mayes has accepted & signed the previous minutes. There were no objections as to the accuracy of the minutes, therefore unanimously accepted.
- General Meeting – 25th June 2025. Secret Harbour Surf Life Saving Club
Chairperson Gary Mayes has accepted & signed the previous minutes. There were no objections as to the accuracy of the minutes, therefore unanimously accepted.
- The minutes of tonight's Annual General Meeting will be put forward at the next General Meeting.

 - Club Stirrer of the Year: Duane Buckenara

**ANNUAL GENERAL MEETING OF THE PEEL 4X4 CLUB****Annual General Meeting Minutes**Date: Saturday 26th July, 2025

Venue: Total & Partially Disable Veterans of Western Australia

**PRESIDENTS REPORT (Gary Mayes)**

- Gary thanked Julie Power for organising the venue & night; and to Hugh for the venue recommendation.
- Also thanked members for a great year. Large number of trips, plus several more in the calendar.
- Several new members throughout the year, which was great to see.
- Gary gave individual thanks to each of the committee members:
 - Julie Power for taking on the role of Secretary at the last AGM, and has also been the one organising refreshments for each of our General Meetings; along with co-ordinating events like the Christmas Function, AGM's, and other things that have popped up throughout the last year. Julie also helped in getting our financial records in order.
 - Dave Knudsen for continuing on as Insurance Officer & Deputy Chairperson, despite also having to do shift work. Dave has also initiated getting the club sorted properly with the ABN & Tax File Number, which meant quite a bit of time on the phone to the Government Departments.
 - Cassie Mayes continued on as Treasurer & Webmaster for the first 6 months of the year, before leaving the club, but maintained support from afar, which was appreciated.
 - Brian Tanner stepped up again to continue providing you all with this information packed magazine.
 - Chris Jones for taking on the role of Environmental Officer.
 - Jacob Yardley for taking on the role of Property Officer.
 - Steven Power for continuing the role of Trip Coordinator, ensuring that everyone is kept up to date at meetings on what trips are coming up.
 - Hugh for having a go at the Treasurer position.
 - Mark Skeels for assisting with management of the Facebook pages, and also attending a couple of the Delegate meetings.

A big round of applause was given by all in attendance.

- Gary asked about interest in a club night at ARB Rockingham. There were quite a few interested.
- Gary also advised that he had made contact with Mandurah Boat, Caravan, Camping & 4x4 Show.

Business for the President:

- The possibility of using the TPDVWA facility for General Meetings was discussed. This would cost \$100 per year to become a member.
- Brian asked for update info from all members for the red book.

Gary asked the standing down Committee if there was anything to report.

GENERAL MEETING OF THE PEEL 4X4 CLUB

General Meeting Minutes

Date: Wednesday 24th June, 2026

Venue: Secret Harbour Surf Life Saving Club

14. GENERAL BUSINESS

- Gary raised a query from the Committee Meeting, and put it to the members for their opinion about the legalities of what should happen if a member drives another members (or visitors) vehicle, or gives directions to them driving, has an incident, and insurance is required to be claimed. Who do we all feel is liable for paying the excess or other costs associated with repairs, and/or recovery. It was discussed that we should obtain legal advice, but was then also discussed about going back to the WA4WDA.

ACTION: Gary to contact Association about this.

- AGM discussion – individual items below.
- Gary advised that we needed a minimum of 13 members to conduct the AGM, where a couple is still classed as one member.
- Gary checked previous minutes following a query at the last General Meeting. The cost for visitors to attend is \$10 per adult, which \$10 per adult will come off membership fees if the visitor joins in that year (Max. \$20 discount per membership)

- **FOOD:**

Club will supply meat for BBQ. Steve & Julie will organise. Gary will make burgers.

Steve & Julie will get bread & condiments.

Members / visitors to bring a salad and/or dessert to share.

It was requested that members bring their own cutlery / crockery.

- **GAMES:**

100 board, at \$2 a number, for a \$100 fuel voucher. Julie will print this off.

Throw a \$2 coin at the bottle of whiskey (or similar).

- **RAFFLES:**

DOOR PRIZE – this was discussed. Maximum \$100 out of pocket value. Possibly a fishing rod combo. Nuddo & Sarah were going to see if they could organise something.

NORMAL RAFFLE. Already have some prizes. Speakers, Drink bottle set, lovely bracelet

MAJOR PRIZE – Up to around \$250 to \$300 out of pocket cost.

- BYO Drinks
- Scones supplied by the venue the next morning for those staying overnight.
- Nuddo is arranging Mini Golf. It was put to a vote about having this on the Saturday before the AGM, or on the Sunday. The Sunday was the most popular choice.
- Nuddo advised that those wanting to stay needed to book in soon, as spots won't last for too long.
- The AGM will need to end at around 10:30pm, due to park rules.

- Mark Skeels advised that the Mandurah Camping, Caravan & 4x4 show is now being promoted. Gary said he will follow up.

ACTION: Gary to follow up with Mandurah show to see if we can get in again.

- Steve & Janine received their badges.

GENERAL MEETING OF THE PEEL 4X4 CLUB

General Meeting Minutes

Date: Wednesday 24th June, 2026

Venue: Secret Harbour Surf Life Saving Club

15. TECHNICAL SEGMENT

- Gary advised that he hasn't discussed with Committee, but won't continue with the Tech Segments. These will instead be made into Social Events.
This way those not interested don't have to stick around, and we can focus more time on the subjects being discussed.
There was also mention of potentially a recovery day.

NEXT GENERAL MEETING: AGM. Saturday 25th July 2026 at Willowbrook Farm Caravan Park.

NEXT COMMITTEE MEETING: Wednesday 12th August 2026. Hosted by Gary Mayes

NEXT DELEGATES MEETING: TBC

Meeting closed at: 8:32pm

The minutes from this meeting have been verified as true & correct.

**HAPPY
BIRTHDAY!**

*To any Club Members or their
family having a birthday in
AUGUST*

With the discontinuation of the Hema HN7 and the introduction of the Hema HX1 and HX2 many were very dissapointed, myself incuded.

The HX7 running Oziexplorer CE version was, in my opinion, the best portable offroad GPS navigator. What about Oziexplorer Android I hear you ask? That's the second best only because it misses out on some of the tools in Ozi CE. My third best is Oziexplorer for the laptop, although it is a much more powerful system the logistics of using a large laptop in a car is difficult. I used Ozi on a 10 inch netbook laptop for many years in the Jeep.

For those of us that prefer the Hema HN7 or similar devices, some of us are finding the batteries are starting to fail now and some devices are failing altogether. I have bought both the Hema HX1 and HX2 and am not happy with either although I am starting to learn the HX2 now, I still have a HN7 that Bucko gave me which is working great now I have removed the battery

Finding a smallish Windows CE device with an internal GPS and unlocked to be able to install Ozi is hard and the devices that come preinstalled with Ozi even harder to find. Peter Dawes has done some research and has found the XGODY portable GPS Navigator from Brash Imports on EBAY which comes in 5, 6 and 9 inch models with Oziexplorer CE preloaded and licenced. Just be aware that not all devices on offer have Oziexplorer preloaded so you must check when purchasing.

I do not have any affiliation or financial interests with Oziexplorer or Brash Imports just reporting an old favorite for those like me prefer Oziexplorer

Brisey

The screenshot shows an eBay product listing for a portable GPS device. The main image is a black tablet mounted on a stand, displaying a 3D road map. The word 'Brash' is written in large blue letters above the image. To the left of the main image is a vertical strip of smaller images showing different views and features of the device. The listing title is '5" 7" 9" PORTABLE OFF ROAD GPS ALL TERRAIN AND ROAD MAPPING 12V 24V RED LIGHTS'. The seller is 'BRASH IMPORTS (9086)' with a '100% positive' feedback rating. The price is 'AU \$164.50', marked down from 'Was AU \$176.99'. The condition is 'Brand New'. The listing includes options for screen size, sunscreen, and voltage. A promotional code 'JULYSS' offers an extra AU \$10.00 off.

While I was installing my drawers in the back of the ute I wanted to use some 8 mm nutserts (or rivnuts) to mount them. I have a set that goes up to 6 mm so the prospect of paying over \$100.00 for a tool to install 8 nutserts wasn't very nice. It is just as well Google knows everything so a quick search showed me how to make a suitable tool with bits I have in the garage.

Brisey

You can install a Rivnut without a proper tool by using a standard **bolt, nuts, and washers**. By threading these together and tightening the nut, you pull the bolt backward, which crushes and expands the Rivnut to lock it tightly into the material.

Tools and Materials Needed

- **Bolt:** High-tensile, matching the Rivnut thread size and pitch (e.g., M6, M8).
- **Nuts:** One nut matching the bolt thread size another oversized to slip over the bolt thread.
- **Washers:** Two flat washers that fit over the bolt.
- **Spanners:** One spanner for each nut size.

Step-by-Step Installation Process

- 1) **Prepare the Hole:** Drill a perfectly sized hole for your Rivnut. Make sure the hole is snug to prevent the Rivnut from spinning during installation.
- 2) **Assemble the Tool:** Thread the tightening nut (B) onto the bolt (C), followed by a washer, and then an oversized nut (A), another washer, finally screw the Rivnut onto the end of the bolt.
- 3) **Set the Rivnut:** Insert the Rivnut into your drilled hole.
- 4) **Hold and Tighten:** Use one spanner to hold the oversized nut steady so the assembly cannot rotate. Use a second spanner to turn the tightening nut.
- 5) **Compress:** As you tighten the bolt, the oversized nut and washers will push against the Rivnut flange while the bolt pulls the bottom up, causing the Rivnut body to bulge and crush tight against the backside of the material.
- 6) **Remove the Tool:** Once you feel significant resistance and the Rivnut is set, loosen the nut and back the bolt out of the Rivnut.

Pro-Tips for Success

- **Use Lubrication:** Put a drop of oil or grease on the bolt threads and the underside of the washer. This reduces friction and makes the tightening process significantly smoother.
- **Avoid Steel Rivnuts If Possible:** This method works incredibly well for soft materials like **aluminum or brass**. Steel Rivnuts are notoriously difficult to hand-tighten and may strip your DIY bolt threads.
- **Watch the Flange:** Stop tightening as soon as you feel a sudden increase in resistance or notice the faceplate bowing slightly. Over-tightening will strip the Rivnut threads.

OUR STORY

Blurred is a Perth based male street wear clothing line. Established in 2021 by lifelong friends Keegan Power & Connor White. We were inspired to create a street wear line while contributing and giving back to the community. Our vision is to create quality street wear with our own unique niche, designs and ideas. Blurred's aim is to bring awareness to mental health; concussion and the effects it leaves its victims with. Blurred's name was inspired by the personal struggles Co-owner Keegan Power.

Keegan was diagnosed with post-concussion syndrome in March 2020, from a build of head knocks. He struggled with many symptoms but most of all vertigo and pro-longed headaches. Unfortunately, he was forced to stop work, football, social outings, and most of all his quality of life was diminished. The vertigo was so severe it stopped him from doing basic day to day tasks.

This has been detrimental to his mental health and general well being.

Through this tough time Keegan was able to kick start his recovery through the help of his family and mates. 'Mates Helping Mates' is the foundation of our company and something we truly believe in as our core value. We at Blurred believe mate ship is a big part of life and the ability to rely on your mates in a time of need is so important and should not be underestimated.

While Keegan was struggling he was lucky enough to reach out to others who were going through similar situations, he came across an organisation called @inbetweentheears who creates awareness about concussion. @inbetweentheears provides support and guidance on how to best recover from a concussion. They were a major aid in Keegan's recovery, like @inbetweentheears we are invested in spreading the awareness around post concussion and hope to aid and inspire as many people as possible.

We are a passionate team that takes pride and joy in both creating our clothes and spreading awareness. We value each individual customer, and we hope to have your support during this exciting time. – Connor & Keegan

FIX YOUR FOURBY

Fix Your Family

You're a long way from a workshop across the top end of Australia. Here are a few trackside fixes, tips and tricks that could help you handle a mechanical issue on the tracks.

WORDS BY MICHAEL BORG

Being self-sufficient extends beyond just carrying enough food and water when it comes to touring the top end. Yep, knowing how to handle a breakdown is a mighty handy skill to have, and it's often the creative bush mechanic fixes

that steal the show, too. So, in this article, let's take a look at the gear you'll need to carry to give you a fighting chance in the world of bush mechanics. While we're at it, we'll take a closer look at the proven techniques we've seen to keep the show on the road!

THE FIX-IT QUICK KIT

Ever wondered what tools and equipment you'll need to fix almost anything on the tracks? Well, here's everything you'll need to make the ultimate kit for your adventures.

MUST HAVE HAND TOOLS

- Multi-grip pliers
- Multiple screwdrivers
- Large Shifter
- Pliers
- Claw hammer
- Stanley knife
- Socket set
- Breaker bar
- Spanner set
- Test light or multi meter
- Air compressor
- Rags
- High-lift jack
- 12V air compressor
- Drag chain
- Brake hose clamps or vice grip pliers
- Hacksaw (or at least the blade)
- Bottle jack (Doubles as a porta-power for panel repairs too)

TRACKSIDE LIFE-SAVERS

- Tyre repair kit
- Assorted electrical fuses
- Assorted hose clamps
- WD-40
- Fencing wire
- Cable ties
- Tyre foam
- Epoxy putty
- Silicon sealant
- Ratchet straps
- Role of electrical wire
- Thread locker
- Canvas patches plus a needle and thread
- Tarpaulin (Great for ground sheet or shelter)
- Length of exhaust pipe (great breaker bar extension)
- High temperature bearing grease
- Scotch-Brite or sandpaper – perfect for cleaning a surface before re-sealing

ELECTRICAL SPARES AND EQUIPMENT

- Roll of electrical cable
- Soldering wire
- Crimp terminal kit
- Spare on/off switches
- Spare relays
- Crimper pliers
- Scan tool
- Test cables (length of cable with an alligator clip on each end)
- Alligator clips – perfect for temporary connections during diagnosis
- Spare fuses – Including mini blade and glass tube style
- Electrical tape (non-conductive unlike other tapes)
- Jumper leads

SPARES TO CARRY

- Wheel bearing and seals
- Complete hub assembly
- Water hose (to match your water tanks)
- Wheel nuts and wheel studs
- Tyre valves and removal tool
- Spring hangers
- Spring U-Bolts set
- Any unique or hard to source parts for your set-up

TYRE REPAIR KIT

A basic tyre repair kit is an essential tool for the trade of travelling offroad. They can often allow you to plug and seal up a puncture, instead of using your spare tyre, which you may need later on. To add to your kit, try packing a few extra spare valves as you just never know when that dodgy tyre deflator is going to remove the valve and lose it when you're not paying attention. Naturally, you'll need a valve removing tool too. Oh, and having a spare tyre tube handy on those big expeditions can be a real trip-saver too. You might not need it, but at the very least it will serve as a darn good floating device when you find yourself a majestic swimming hole to frolic about in.

TOP TIP

The most valuable bush mechanic tool you've got is your mind. So don't be afraid to get creative and use absolutely anything at your disposal to get the job done!

RADIATOR TUBE REPAIRS

If a stick manages to fling up and damage your radiator's main tubes (they hold the water), you'll end up with a leak. For smaller punctures you might get

away with smearing some sealant or Epoxy Putty over the hole. However, for badly damaged tubes you'll most likely have to remove the radiator to gain better

access. The idea is to sever the damaged tubes in half and roll the ends up to seal it up. Then, use sealant or epoxy putty to keep it wound tight.

BUGGERED BUSHES

Rubber or polyurethane bushing is usually used to stop two surfaces from rubbing together and causing friction related damage. So, if one decides to disintegrate it can cause all sorts of problems on the tracks. If it requires urgent attention, it's time to get creative. The good news is you'll find plenty of rubber around your vehicle that's just begging to become a makeshift bushing. You know, things like an old floor matt or mud flap.

TIPS, TECH. & TINKER TIME *Fix Your Fourby*

HOSE REPAIRS

Got a leaky hose? Well, if you can't replace it you can try to patch it up. One weird and wonderful method is to line the inside of the hose where it's punctured with a bit of tin from an old Coke can. You can use some kind of sealant to bond it to the rubber and seal it up. Another technique is to use a few lashings of good old fashion race tape with some

sealant thrown in for good measure. Still not convinced? How about cutting a piece of rubber from the end of the hose (or one like it), slicing it

down the centre and placing it directly over the top of the puncture with sealant before tightening it down with a few hose clamps.

USING YOUR HIGH-LIFT

On tough 4WD tracks, it's not uncommon to get mud and gunk stuck between your tyre and the rim, which means you have to break the tyre's bead to clean it out. The problem is it takes a fair bit of pressure to break a tyre's bead.

Luckily, your high-lift jack can effectively turn your entire camper trailer or 4WD into an efficient bead-breaking tool. Start by removing the valve so that the tyre can completely deflate. Then, simply place the base of the jack on top of your tyre's sidewall and position

it nice and close to the rim (close to bead location). Then, proceed to jack/lift the vehicle up slowly from a solid point of the camper or vehicle, like the towbar or similar. The idea is to use the weight of your

camper trailer to eventually break the bead for you. Now, if you don't have a high-lift jack available, a basic bottle jack will more often than not do the job—it's just not always as user friendly.

THE WRAP UP

Let's face it, it's not always going to be sunshine and roses when you're touring a vastly inhospitable region such as the entire top end of Australia. But more often than not it's the challenges that we overcome that leave memories that will last a lifetime. 

SIMPLE *DIV* CAMPER CHECKS

Easy tips to keeping your home away from home ready for the road

COMPILED BY MICHAEL BORG

Whether you're a seasoned traveller or a newbie to the camping world, ensuring your camper trailer is in tip-top

shape is vital for a hassle-free journey. So, it kind of makes sense to take charge of your camper trailer's maintenance regime, eh? By performing regular checks and maintenance

tasks, you'll be ready to hit the road with confidence and peace of mind. So, let's dive in and discover how to keep your home away from home in tip top shape and ready for action.

SEALED CORRECTLY

The first step in our maintenance program is to inspect the seals around the doors, windows, and other openings. Over time, seals can deteriorate and let moisture and dust seep into your trailer. Carefully examine the seals for any cracks or gaps. If you spot any issues, replace or repair them promptly to prevent water damage and maintain a cozy, dry interior.

In the case of entry or compartment doors, you can visually inspect the seal to look for signs of dust getting through. In this case, the locking latches can often be adjusted to ensure equal pressure is applied when latching it closed.

TYRE WEAR

Regularly inspect the tyres for signs of uneven wear, bulges, or cuts. Uneven tyre wear could indicate alignment issues. If you notice the tyre is wearing more in the centre of the tread, it usually indicates overinflation. If both the inner and outer edge of the tyre is worn out while the centre of the tyre isn't, it indicates the tyre has been underinflated. The other thing to check is the tyre's age. This is usually indicated by a four-digit number within a border on the tyre side wall. The first two digits represent the week the tyre was manufactured, and the last two digits show the year. It is recommended that the tyres are replaced every 5-6 years as a general rule.

ELECTRICAL TERMINALS

Clean and well-functioning electrical connections are vital for proper trailer lighting and electrical systems. Over time, corrosion can build up on the terminals, especially in the auxiliary plug, hampering their effectiveness.

Periodically inspect and clean the electrical terminals using a wire brush (an old toothbrush also works) and contact cleaner. This will help maintain reliable lighting and electrical performance.

GREASE IT UP

To ensure smooth and effortless towing, don't forget to lubricate your camper trailer's hitch regularly. Apply a suitable lubricant to the hitch ball and coupler to reduce friction. This simple step will make hitching and unhitching a breeze, while also preventing unnecessary wear and tear on the components. If you've got an offroad style hitch, these need to be able to rotate and move freely, and thus lubricating, usually via the built-in grease nipples, is also required.

TIPS, TECH. & TINKER TIME *Camper Trailer Maintenance*

BATTERY CARE

Your camper trailer's battery powers various onboard systems, so it's crucial to keep it charged and well-maintained. If you've got a main isolator switch, ensure it's isolating the

batteries when not in use to prevent any devices pulling power and draining the battery. Regularly check the battery's charge level, and ensure the terminals are clean and securely

fastened. If you store your camper trailer for extended periods, consider using a battery tender (maintenance charger) to maintain the battery's health.

LPG SYSTEM

For trailers equipped with LPG systems, safety should be a top priority. Inspect the propane tanks, lines, and connections for any signs of damage or leaks. Spraying soapy water over any fittings, connections or suspect areas, and watching for bubbles to appear can help identify a gas leak. Ensure the tank

valves are closed tightly when not in use. If you suspect a leak or need assistance,

consult a professional gas technician to address the issue promptly.

WATER TANKS

Maintaining a clean water system ensures fresh and safe drinking water during your camping adventures. Regularly sanitize the water tanks and flush the system to remove any contaminants or build-up. Follow the manufacturer's guidelines to ensure proper cleaning and maintenance procedures.

QUALIFIED MECHANIC INSPECTIONS

Safety is paramount when towing your camper trailer. Enlisting a qualified mechanic to inspect the brake system and wheel bearings regularly is a good way to ensure your van is mechanically ready for the road.

KEEP IT CLEAN

Last but not least, give your camper trailer's exterior some TLC. Regularly wash the exterior with mild soap and water, paying extra

attention to remove dirt, grime, and road debris which can deteriorate to the point of permanent damage to the construction

materials. Dust and exposure to sunlight dries out rubber seals, too. So, make sure you keep it well covered whenever possible.

PARTING WORDS

Remember, taking proactive measures to maintain your trailer not only helps you avoid unexpected issues on the road but also prolongs its lifespan. So, invest a little time and effort into your camper trailer's care, and you'll be rewarded with countless memorable adventures on the open road. Happy camping! 

SMASHED BURGERS

If you are looking for a take away fix, this is your go to burger. They are quick and easy to make and taste so good! The sauce is a must, the secret ingredient.

Makes 5 single patty burgers
Prep Time 25 Minutes

1. Make the special sauce first by combining all ingredients well in a bowl and set aside.
2. Heat BBQ hot plate on high heat.
3. Divide beef mince meat into 5 equal parts (5 x 100g) and roll into balls.
4. Reduce BBQ hot plate to medium, spray balls with olive oil before placing on the BBQ hot plate. With a BBQ spatula flatten (smash) the patties as much as you can so they are thin and big enough to cover the hamburger bun.
5. Add salt on patty and then flip and salt again. Place a slice of cheese on each patty. Patties cook in approximately one minute because they are so thin.

500g	Lean or Regular Beef Mince
5 buns	Hamburger, round sesame rolls or brioche
	Salt to taste
	SPECIAL SAUCE
½ cup	Garlic aioli
1 tbsp	American mustard
1 tbsp	Tomato ketchup
½ tsp	Sugar or granulated sweetener
1 tbsp	Pickled cucumber juice
1½ tbsp	Pickles finely chopped
	FILLINGS
5 leaves	Cos or ice berg lettuce
2	Tomatoes (sliced medium thickness)
5	Pickled cucumbers (each sliced into 3 long ways)
1 large	Brown onion (sliced medium thickness)
5 slices	Tasty cheese
	As desired: Ketchup & American mustard

Gasmate®

SMASHED BURGERS

6. Whilst cooking the patties cut the hamburger buns in half and place them on the BBQ grill or warming rack, toasting lightly on both sides.
 7. Place an open bun on each plate. Place patty on the bottom bun, followed by ketchup and mustard, then sliced tomato, lettuce leaf, 3 onion rings and 3 pickle slices. Cover top bun with approximately 1.5 tablespoons of the special sauce and place on top of burger with the fillings.
- For a double patty hamburger, use 80g of beef mincemeat per patty, each covered with melted cheese as above. Stack the two patties on top of each other, followed by fillings and sauce (as above). Note: alter the total amount of beef mince meat required and sliced cheese for double patty hamburgers.
 - Onion in the recipe is raw, however you can BBQ them if you prefer. Note: You will need 3 onions sliced as they will break down when they are cooked.
 - For vegetarian option replace beef patty with grilled whole mushroom or other non-meat options.

SPANISH RISOTTO

This is a fusion of paella and risotto! A great one pot meal packed with flavour and a great recipe if you like seafood.

1. Heat oil in frypan, add onion and garlic. When onion is translucent, add diced chicken and cook until brown. Remove from frypan and add sliced chorizo and cook until lightly brown.
2. Add sliced capsicum and when soft, add back chicken that was put aside, saffron, tomato paste, diced tomatoes and rice. Stir until all combined ensuring you scrape the bottom so the food doesn't stick.
3. Add 1 cup of vegetable stock, pepper to taste and stir until liquid is nearly absorbed. Then add wine, stirring and scraping the bottom of the frypan until all the liquid is nearly all absorbed.
4. Add remaining stock, stirring until stock simmers. Add seafood (calamari and prawns) and peas. Stir until all combined. Reduce heat and bring to simmer again. Cover frypan with lid or foil (tightly & shiny side down) and cook for approximately 25-30 minutes until all the liquid is absorbed.

2 cups	Arborio Rice
2.5 cups	Vegetable Stock
200g/2 thighs	Chicken thigh diced
2	Chorizo sausage diced
200g	Calamari
200g	Prawns (no shell)
1	Green capsicum sliced
1	Red capsicum sliced
1.5 cups	Frozen peas
1 small	Red onion
2 cloves	Garlic minced
¼ teaspoon	Saffron powder
1 tablespoon	Tomato paste
1 cup	White wine (dry)
200g	Diced tin tomato
1 tablespoon	Olive Oil
	Pepper to taste
	26cm frypan

Tips & Serving Suggestions:

- For no seafood, increase the amount of chicken and chorizo sausage
- For all seafood remove chicken and chorizo and increase the seafood, including white flesh fish.

VIETNAMESE NOODLE SALAD WITH PORK BELLY

A light and refreshing salad bringing bursts of Vietnamese flavours to your table. Simple and quick to make on a hot summer day.

Serves 4 people
Prep Time 15 Minutes

1kg	Pork belly or pork shoulder
1 tbsp each	Ginger, garlic, lemongrass paste (Gourmet Garden section in Fruit & Veg section of supermarket)
2 tsp	Salt
200g	Asian vermicelli noodles
1	Continental cucumber (sliced thin sticks – 2cm long)
½	Red capsicum (slice thinly - 2cm long)
1 cup	Shredded/grated carrots
4	Spring Onions (sliced thin sticks – 2cm long)
1 bunch	Coriander leaves roughly chopped
1 bunch	Mint leaves roughly chopped
2 handfuls	Mixed lettuce leaves
½ cup	Salted peanuts (chopped roughly)
300ml	Poonsin Vietnamese Dipping Sauce (Asian section of supermarket)
1 tsp	Fish sauce (or substitute with ½ tsp salt)
3	Carrots (whole) for cooking pork belly
	Olive oil spray

1. Preheat BBQ to 350 degrees plus by turning all burners onto high. Ensure it has reached this heat before cooking
2. Pat dry skin of pork belly and then score with a sharp knife. Generously salt and spray with olive oil and then rub in salt in and get into the crevices.
3. Place pork skin side down on a plate. Rub in 1 teaspoon of salt, ginger, garlic and lemongrass paste on meat side of the pork, not the skin.
4. Once BBQ has reached over 350 degrees, reduce hotplate burners to low heat and place 3 carrots on BBQ plate placing pork on top, skin side facing up. This will prevent the pork from burning on the bottom. Do this quickly and avoid keeping the hood open for too long as temperature will reduce. Cook until pork crackling is golden brown and crisp. This will take between 30-45 minutes. Once cooked set aside before slicing.

Gasmate®

VIETNAMESE NOODLE SALAD WITH PORK BELLY

5. Whilst pork is cooking boil 1.5L of water in kettle and place noodles into a large bowl and cover with boiling water for approximately 15 minutes. Once noodles are soft and opaque, strain in colander and rinse with cold water and then cover with cold water. Once pork is cooked, strain noodles again and cut noodle lengths shorter with scissors and then place in a large bowl.
6. Add cucumber, capsicum, carrot, spring onion, coriander, mint, peanuts, peanuts and dipping sauce, fish sauce (or ½ teaspoon salt) and combine well with tongs.
7. Serve into individual 4 bowls and top with sliced pork belly and some more chopped peanuts.
 - Other ingredients that can be included:
 - Fried shallots
 - Cocktail spring rolls cut into thirds (cooked: fried or air fryer)
 - Pork can be swapped for chicken or beef with same marinade and cooked on BBQ.
