# Sanitary Fittings

TSI is your complete source for specialized fittings and tubing for your food, dairy or beverage processing application. Smooth, crevice-free interiors and secure, self-aligning joints are characteristic of our Tri-Clover fittings. Each offers superior corrosion-resistance and unmatched service life. Our fittings are designed and manufactured to ensure dimensional accuracy and structural integrity, making them easy to install.

\*Service ratings are based on hydrostatic tests using standard-molded Buna-N material gaskets, with proper installation of ferrules, assembly of joints and absence of shock pressure. Contact Alfa Laval for service of other type and material gaskets, and for ratings at higher temperatures. All ratings shown are dependent upon related components within the systems and proper installation. For temperatures above 250°F, we recommend using only 13MHP clamps. This information is only valid if
