Bob Kerrey Newsmax Article

Open Letter

Bob Kerrey's 3/31 criticism of Obama's health care fiasco, deficit spending, and economic stimuluses, implying them to be failed policies, are points well taken, especially from a fellow liberal. But, at the end of his article, when he used a hypothetical example of a voter (probably himself), saying to Obama "You stand for all the things I support. But, honestly you won this election (2012) because you sucked less than Romney".

I would think the three things disagreed with, would qualify the full endorsement, but then again the well circulated 64 impeachable offenses committed by Obama, published by Internet Archive more than three years ago, which by now is much increased, appears not to have had any effect on Kerrey and millions of other idolatrous, liberal (at any cost) followers of our overtly rogue President.

Does that not make Kerrey, in effect at least, a co-conspirator in Obama's plot to undermine and subvert this country's sovereignty, free enterprise economy, and personal freedoms and opportunities? That is, to establish statism (a socialistic central government dictatorship, or preferably monarchy), for him!

Kerrey acts as if he is ignorant, or unconcerned with the gravity of the public accounts of Obama's "high crimes, and misdemeanors" (treasonous acts). Are there that many people naive enough not to believe that we could go the way of Marx's Russia, Hitler's Germany, and Castro's Cuba? The thought of the possibility of our country becoming Obama's America ought to first, scare, and then anger every American, including his duped, mesmerized followers, if they can ever be awakened in time! Oh, I forgot, they are enamored with the "race" (black) factor. Everything else is less important, or indecisive!

Whoever voted for, and continues to support Obama, whether ignorantly or knowingly (both inexcusable) are guilty of aiding and abetting America's worst

enemy! Yes, at least at this point in our history, worse than Islamic terrorism, to us! Like Red Skelton's line, "I calls 'em the way I sees 'em". Ironically, Obama said that transparency would be a feature of his administration. Well, of course, he meant it differently, but anyone not taken in with his charisma, and rhetoric, can see that the word "transparency" applies to him, because anyone should be able "to see right through him".

Obama, of course, is not the first "King" that betrayed his country. History is full of the scoundrels! "He Must Go" is a chant that ought to be sounded by every citizen loyal to the Constitution, which Obama has virtually trashed, by disobeying the timelessly valid precepts and principles of that brilliantly conceived document, designed to be the perennial governing law of the land!

Having taken an oath to uphold the solemn duties of the Constitution, as the most important part of his Presidential responsibilities, his subsequent disloyal actions glaringly and arrogantly confirm the fact that neither he nor his word can be trusted! His unprincipled operating creed is that "The end justifies the means". The ultimate "end" being fulfilling his agenda to bring about his insidious, treasonous plot to overthrow our unique sovereign republic, and institute full-fledged dictatorial socialism, under U.N. control, vicariously living out "My Father's Dreams", that he venerates and extols.

What is so frustrating, and aggravating to most of us, is that while we are being hi-jacked by conspiratorial traitors, a shameful large number of our citizens don't even know, or believe that we are threatened by impending disaster. Such ignorance, irresponsibility, and complacency has destroyed many nations in the world's history.

Characteristics of progressivism permeate the Obama administration's actions, with probably the most dangerous, proposed and avowed eventual act of control, depriving citizens of the most effective means of self-protection and preservation, by legislating a national ban on the ownership of firearms!

And, as has often been stated, in so many words, people who won't defend, or don't even see the threat to their precious freedoms, do not deserve the liberty

that so many patriotic Americans have risked, or given their lives to protect and preserve! May God help us, even though we have increasingly pushed Him out of our national life!
