Historical Notes
on the
Israeli/Palestinian Conflict

1. Zionism is an illegitimate transformation (betrayal of the principles) of Judaism from religion and spirituality, into a secularistic movement., and culture.
2. By which ideology, Zionists have committed grievous moral evil in their treatment of the Palestinian people.

Quoting from the Information Project of the Palestine Solidarity Committee in Seattle, "Palestinians and Jews have lived for thousands of years in the region once known as Palestine, and now known as Israel, the West Bank, and the Gaza Strip."

"For some two thousand years, Palestinian Jews were a small and accepted minority in Palestine. The current conflict is not ancient, but has its roots in the nineteenth century with the birth of the Zionist movement in Europe."

"Zionism began in the late 1800's as a nationalist movement among European Jews who hoped to escape from centuries of persecution, apartheid, pogroms, and expulsions from European countries. The Zionist movement advocated forming a Jewish national state in Palestine." From a nonreligious, non-biblical prophetic standpoint, their action would seem to be a merciful, honorable thing to do for such a disadvantaged, maligned people.

"A popular slogan of the Zionist movement--'a land without a people for a people without a land'--was openly racist in denying the significance or rights of the indigenous people of Palestine. Neither Palestinian Arabs nor the majority of Palestinian Jews favored the Zionist plan. Zionists caused increased resentment by purchasing Palestinian land from absentee Turkish landlords and pursuing their plan by way of foreign colonial governments."

Most of the world would sympathize with the movement, not knowing or caring about the religious component of the matter, though that has ordained priority

over any secular considerations--however compelling and worthy they may otherwise seem to be!

It could be likened to liberalized, Christian evangelism, which being conducted on the false premise of universal atonement, and free will salvation availability, employ natural (unspiritual) methods, i.e., psychology, gimmickry, practically any means to justify the end ("decisions" for Christ). The church has built a virtual empire of worldwide evangelism, on the false foundation of "another" gospel--having edited and revised the literal meaning of salvation doctrine that God has established in the scriptures to be perpetuated, intact, by all generations of the church.

And, there is a faithful remnant of the church which has not capitulated to the idolatrous teaching that a great majority of the church is indoctrinated with! The church degeneration which has resulted in its gospel unfaithfulness, is documented by church prophecy that defines the end-time church in such sad, critical terms as "lukewarm, miserable, wretched, poor, blind and naked". Rev. 2 and 3. To which literal account of itself, the church is inexcusably ignorant, and exacerbates by refusing to heed exhortations, and appeals to repent, and be reformed!

Disregarding biblical prophecy referring to God's specific plans for Israel's future, by what amounts to highjacking and interfering with those plans--ignorantly, or otherwise--will be judged by God, accordingly, whose ultimate purpose cannot be thwarted, nor even enhanced by mortal man!

"Violence between Palestinians and Jews began during the early period of European Jewish settlement, with attacks on civilians by both sides. On November 29, 1947, the General Assembly of the United Nations--under heavy pressure from the United States Government--adopted Resolution 181, which recommended dividing Palestine into two nations, one Palestinian and one Jewish. Though the Jewish people made up only 33 percent of the total population, and owned only 6.59 percent of the Land, the UN Resolution recommended giving the Jewish state 54 percent of the territory."

"The Palestinian Arabs, having already rejected the UN's right to partition their land, now rejected the Resolution as unjust. They demanded instead the independence that the British and French had promised them after World War One. Zionist leaders were also unsatisfied with partition, though they accepted the Resolution as justification for declaring the Jewish state."

"Civil war between Zionist Jews and Palestinian Arabs broke out immediately after UN Resolution 181 was announced." Zionist shock troops attacked the Palestinian village of Khissas in northern Galilee. "Men, women, and children were killed and wounded in the night raid. At least 200,000 Palestinians had been driven out of their homes in what was to become Israel."

"Armistice agreements were signed in January, 1949. The new state of Israel had conquered 78% of Palestine, with Jordan taking control of the West Bank, and Egypt taking control of Gaza. Historic Palestine disappeared from the map of the world."

"The great majority of the actual fighting had taken place outside the territory of the UN-defined Jewish state. Over half of the Zionist casualties were from attacks on Palestinian villages, not from defending Jewish settlements. By 1949, at least 800,000 Palestinians had been driven out of their homes."

Historic Judaism is represented by such organizations as Neturei Karta - International Jews against Zionism. Their fundamental allegiance to the Torah is an example of group solidarity loyal and faithful to the principles of the whole body of traditional Jewish religious literature, including the Scriptures, and the Talmud. The group solidarity of the Zionists is consensual agreement to a liberal, basically nonreligious break-away movement, driven by nationalism and materialism.

The latter kind of group dynamic overrides ethics, and other higher, moral principles. It is similar, in essence, to the Arminian, majority faction of the church, which is united in a false interpretation of the gospel, that has corrupted the literal truth of salvation doctrine. So that, even as there is a faithful Jewish remnant, there is a small minority of Christians, who have not capitulated to the false

indoctrination which has pervaded and characterized the universal church for centuries, i.e., the gospel according to man, not God's literal principles!

To be specific, the Jewish division is not purely theological, as the gospel conflict is. The Zionist contingent is mainly secular, versus the orthodox spiritual constitution of the Judaist faction. The latter Jews hold to the traditional Judaist doctrine as taught in the Torah and Talmud, and the authoritative Old Testament scriptures.

Jer. 31:10, says "He (God) that scattereth Israel, will gather him, and keep him, as a shepherd doth his flock." Which, along with many other scriptures, contradicts the unauthorized acceleration of returning the dispersed Jews to the homeland (Palestine) before the Lord's time, which is His personal work to bring about at his appointed time.

Neither was it God's will to establish a separate nation, but for the Jews to be cohabiting with the Palestinian Arabs, as it was before the dispersion! "Zionist tribalness, however, has overstepped its bounds.....they don't understand that their rights end where others begin." Quoted from Facebook name, "American". Nor, do they (Zionists) care, as no egocentric people do!

And, from "gamal", Facebook, "We (Judaists) don't want to take Palestine away from the Arabs, and give it to the Jews, but we want to take it away from imperialism (of the Zionists), and give it to the Arabs and Jews.....then will begin the long struggle for rapprochement between Arab and Jewish states...." This was always a basic hope and mission of the orthodox Jews!

"In September 2000, frustration at the lack of Israeli good faith negotiations towards a just peace led Palestinians to protest nonviolently in the streets. The Israeli government responded with disproportionate and lethal force, often shooting demonstrators fatally in the head, and attacking villages with American-made helicopters and rockets. The escalating violence of this "Second Intifada" or Uprising, claimed thousands of Palestinian lives and injured many more. Thousands of Palestinians were rounded up as prisoners, without charges." Per Information Project notes.

Continuing excerpts from the forenoted source, ".....thousands of internationals from all over the world have stood with the Palestinians, while dismantling roadblocks, harvesting olives, walking through curfews to school, riding on Jewish-only roads, and protecting homes from demolition. Israeli officials routinely deny entry into Israel to anyone suspected of working for the human rights of Palestinians."

"Palestinians believe that attacks on Israeli civilians are justified as forms of resistance. In retaliation from massive Israeli assaults, some Palestinians have resisted the occupation by shooting at unarmed civilians inside Israel. Other Palestinian attacks are aimed at Israeli soldiers, in what international law considers "legitimate" armed struggle."

"A vast majority of Palestinians have never resorted to legitimate or illegitimate violence to resist the occupation, but continue to use steadfastness and nonviolence to struggle against Israel' s military occupation and ongoing attempts to dispossess the Palestinian people."

Prime Minister Benjamin Netanyahu is a Zionist, not a traditional orthodox Jew, or Judaist. Other than nominal references to God, as assumed authority for the biblically illegitimate movement of dispersed Jews to the homeland, he is a committed leader of the fundamentally terrorist Israeli majority faction which is a nonreligious, opportunistic, self-serving organization!

Palestinian Arabs, for the most part, are victims of the 200 plus years of conflict with the Israelis--no matter what the world-at-large accuses them of being! From what I have read, and honestly can reason, the cards have been stacked against the Palestinians from the outset of the Zionist movement. Between the deceptive claims and actions of the Zionists, and the prejudice and gullibility of the world in general, too much false credit and undeserved sympathy, including financial support has been extended to the wrong side of the long siege involved.

Unscrupulous power-wielding has been the driving force of the Zionists, who without the moral compass of even a convicting conscience, have ruthlessly exploited, and abused their fellow countrymen, without more than a semblance of

justifiable provocation!

"Man's inhumanity to man", is a badge of contempt and shame, that should stigmatize the Zionists as long as they remain guilty and unrepentant for their horrendous, racially motivated cruelty to the Palestinian Arabs! The innocent blood of the multitudes whom they ruthlessly slaughtered, will cry out for justice from the ground of their brutal deaths!

Zionists have lived much of that part of their lives as terrorists. But, God himself, whose will they falsely claim to represent and serve will, of course, fully judge and punish their sins. The memories of which, will haunt those who remain as unbelievers, throughout eternity!

Palestinian Arab and Jew/ History Highlights

1. The conflict is not ancient--but dates from the late 1800's with the "illegitimate" birth of Zionism.
2. For some 2,000 years Palestinian Jews were a small and accepted minority, in a common nation, mutually and peacefully shared.
3. Zionism is a secular, nonreligious movement, formed prematurely (without divine warrant or directive), to free European Jews from centuries of persecution, expulsions, etc., during their long period of dispersion.
4. The Zionist movement advocated creating a Jewish national state in Jerusalem. Orthodox, Judaist Jews wanted to keep the historic, natural merged relationship of the two races, intact.
5. Neither Palestine Arabs, nor the majority of native Palestinian Jews favored the Zionist plan.
6. Zionist Jews are openly racist, running roughshod over the mainly peaceful Arabs, by dispossessing them of their homes and land, and denying them equal human rights to the necessities of life--food, water, and other utilities, and safety and medical facilities and services.
7. U.N. Property Resolutions heavily favored the Israelis over the Palestinian Arabs.
8. Both Palestinian Arabs and Jews objected to the U.N. Partition (two-state)

Resolution, but Israel accepted it, as justification for declaring a Jewish state. The Arabs demanded, instead, the independence that the British and French had promised them after World War 1. Not only were they harshly mistreated by the Zionists but, the world in general, through the U.N. has wronged them repeatedly.

9. For example, though the Jewish people made up only 33 percent of the total population, and owned only about 7 percent of the land, the U.N. Resolution recommended giving the Jewish state 54 percent of the territory.

10. Violence began during the early part of European Jewish settlement, and Israeli forced occupation. Civil war broke out after U.N. Partition Resolution 181 was announced.

11. Zionist shock troops attacked the Palestinian village of Khissas, killing and wounding men, women, and children in the night raid. 200,000 Palestinians had been driven from their homes, and land that was to become Israel. By 1949, at least 800,000 Palestinians had been driven from their homes.

12. "Armistice agreements were signed in Jan., 1949. The new state of Israel conquered 78% of Palestine, with Jordan taking control of the West Bank, and Egypt taking control of Gaza. Historic Palestine disappeared from the map of the world."

13. In Sept. 2000, Palestinians rightfully protested nonviolently in the streets. The Israeli government responded with "disproportionate, and lethal force, in what was called the Second Intifada, claiming thousands of Palestinians lives, and injuring many more. Thousands more Palestinians were rounded up, as prisoners, without charge."

14. "Thousands of internationals from all over the world have stood with the Palestinians", throughout their miserable, dangerous life situations. "Israeli officials routinely deny entry into Israel, to anyone suspected of working for the human rights of Palestinians."

15. In retaliation from massive Israeli (Zionist) assaults, some Palestinians resisted the occupation by shooting at unarmed civilians inside Israel, as justified

resistance--and against soldiers, in what international law calls, "legitimate armed struggle."

16. Still, a vast majority of Palestinian Arabs have never resorted to violent resistance against unjustified Jewish occupation.

17. Prime Minister Benjamin Netanyahu is a Zionist, and guilty as the key leader of the brutal attacks against the Palestinian Arabs--in acts of terrorism against a people who should have equal human and national rights to exist in peace, and potential prosperity, and freedom from persecution and attack by the strongarm tactics of their co-inhabitant Israeli neighbors!

18. The hue and cry of Israel, that the Arabs, as well as the Islamic radicalists want to eliminate them from the earth, rings hollow for the vicious lying propaganda that it is, when everyone should know that it not an obsessive goal, or even a general desire of most Palestinian Arabs! But, who could blame them if it was true, after the inhumanity they have suffered at the bloody hands of the Zionist Jews?

Summary Commentary

In fact, the opposite is the case, wherein the Zionists hate the Palestinian Arabs, with such intolerance and unfounded animosity, that they desire their demise, even extinction!

Can we not see how the Zionists with their wicked, greedy subjugation of the Palestinian Arabs, are the real inhuman antagonists, along with the Islamic terrorists, in this grievous manifestation of human depravity?

On moral grounds, no matter what is accomplished nationally and politically, the end can never justify the means! No positive spin can offset the fact that the Israelis acquisitions in Palestine are "ill-gotten gains", by the means of brutal force. Scarcely a thing has been gained by peaceful, fair negotiations--which should always have been the method of dealing with every interest or issue affecting each co-habiting party.

In perspective, then, no matter what has constituted the overall, or general behavior of Jews in the world, it must be acknowledged or conceded that the scriptures reveal that at least an element of the nationality has an ordained, special relationship with God. Unmerited, of course, and they are no less sinful and dishonoring to God, than any other people on earth.

But, to their credit, the conservative Judaist faction, or orthodox Jews have remained steadfast and loyal to the ancient scriptures (including the Torah and Talmud), and have not capitulated to the Zionist apostasy, coopting leadership of the vanguard of Israel--promoting unauthorized repatriation of dispersed European Jews, before their prophetically appointed time! Which eventuality was to be accomplished by God, when and how he would execute that part of his plan.

Those who are keepers of the Judaic tradition, are a remnant that God always reserves to himself, and protects! The misguided grievous injustices that the Zionists have inflicted upon the Palestinian Arabs, should not be charged to the peaceful Jews who have lived honorably, according to the laws of Judaism--anticipating the fulfillment of God's prophetic plans for their eventual spiritual restoration, as God's chosen nation!

Unfortunately, even most Christians are oblivious to the realities discussed in this commentary, and wrongfully accord undeserved sympathies to the misrepresentation of Israel, that is mainly composed of renegade Zionist Jews! The misguided thinking is really no surprise, since a great majority of Christians (free will, Arminian deviants) allowed themselves to be indoctrinated with a false interpretation of the gospel!

The gravity of their unfaithful act, is well described by fitting words of the respected English preacher, Charles Spurgeon, but true to form with their refusal to willingly and openly listen to appeals for them to repent of their false gospel beliefs, the errant believers noted, probably will not hear or heed that message, either!

Nonetheless, the following words of wisdom, should have the same fundamental effect upon every believer, of the absolute importance of the meaning of every fact that God has revealed to us, especially the gospel, which is the foundation of our faith!

Quoting from Spurgeon, "Nothing makes a man so virtuous as belief of the truth. A lying doctrine will soon beget a lying practice. A man cannot have an erroneous belief without by and by having an erroneous life. I believe the one thing naturally begets the other." In other words, man will act upon what he believes, whether its the truth or not!

The most critical example of not knowing the truth is the false interpretation of the gospel, that dominates and pervades the universal church. What Spurgeon said after the positive statement of the first sentence, exactly applies to the great majority of today's Christians, to their discredit and unrealized shame!

And, though you Arminian believers assume that your interpretation of the gospel is the truth, thus making you virtuous persons, could not be much more mistaken! Neither should it be of any consolation that you consider that other things that you believe that are right, are to your credit as faithfulness. I know that it is a hard thing to think that a fundamental wrong belief can have such a devastating effect on one's life testimony.

The essence of what Spurgeon said in the rest of the quotation, is the only logical conclusion that can be made. That is, in condensed form, "Right begets right, and wrong begets wrong". It surely is a law of life, that God in his righteousness judgment has instituted! Or, as his word inherently teaches, we have to know what is right, to do what is right!

Think too, of the irreverence of "using God's name in vain ", by asking Him in prayer to bless or cause something to happen in connection with a wrong interpretation of his word, i.e., the gospel! In vain, because he would never accept misuse of his word. It would be like asking him to participate in idolatry! Because, that is exactly what a false concept of the gospel is, "another" gospel, hence, involving another god! And, if Satan isn't the author, he is the administrator of it!

While the main subject of the commentary is exposure of the serious fault of Zionism, as previously noted, the comparison of the Arminian false gospel that prevails in the church, is very similar in effect to the Zionist takeover of the nation of Israel. Both parties of the breaches of God's word and will, are barely aware of even the question of serious disobedience and disloyalty to God that they constitute.

As for my qualifications to expound on these two most critical matters affecting

Israel, and the church--my credentials are proven knowledge of the biblical truths governing the two subjects. Which, fundamentally, should be every Christian's belief of the doctrines involved! Yet, to the church's shame, there is only a minority faction of the church which correctly believes and upholds the gospel truth that God gave to the original church at Jerusalem.

So, as with the "remnant" of Israel that remains true to Judaic principles and religious requirements, so too, is there a "remnant " of the church that is loyal to its New Testament foundation! That is, constitutionally true disciples, not having capitulated to the devil's lies, and speciously unaware of departing from the faith!

While the Christian church has been saturated with a steady volume of false gospel preaching and teaching for centuries, I have, thankfully, become one of the minority of voices for "defense and confirmation of the truth", especially relating to the gospel. In view of the contemporary church's false indoctrination, there can be no greater calling of the Lord. And, which we should remember, after all, is "our reasonable service". Rom. 12:1.
