The New World Order
A US/UN Global Empire

The following statement was copied from an article, Rebuilding America's Defenses (more like "Offenses"), or Project for a New American Century (PNAC):

"In essence, it lays out a plan for permanent U. S. military and economic domination of every region on the globe, unfettered by international treaty or concern. And, to make that plan a reality, it envisions a stark expansion of our global military presence" The neocon process is intervention and imperialism; with the ultimate goal being a U. S. (UN) global empire, under the tyrannical control of a cabal of international bankers, and other associated elitist conspirators.

Also, per PNAC, which was replaced by a new think tank, the "Foreign Policy Initiative", founded by Bill Kristol and Robert Kagan, who made the statement, that: "At present, the U. S. faces no global rival. America's grand strategy should aim to preserve and extend this advantageous position as far into the future as possible". Typical Neocon language! That is, continue to feed the greed of the global gobblers!

The ominous signs of the impending NWO leaders' planned takeover of world authority are increasingly evident in their actions, and statements. It involves a massive coverup by certain international bankers, statesmen, corporate executives, news media, academia, talk shows, etc.

Touching on the main theme of who the trusted dignitaries are that betrayed us, and therefore do not deserve the esteem and high regard we have otherwise given them, an example of the false honor they are traditionally accorded, occurred recently in a Republican presidential candidates' debate.

Jeb Bush referred to his father as "the greatest man alive". Even love for one's father doesn't justify undeserved accolades for him. The man betrayed his country and participated in setting the stage, and consummating a traitorous deal (treaty)

surrendering our American national sovereignty, and freedom for the communistic tyranny of a one-world totalitarian government!

Therefore, conscientious, objective thinking citizens, which apparently we don't have many of, would not exalt an unpatriotic, subversive political leader--especially a president who violated the Constitutional principles he swore to uphold! Such behavior is the stuff of impeachment grounds of high crimes and misdemeanors, including treason! Isn't that a great heritage to leave to your family, and your country?

Men were once hanged for stealing a man's horse, and these crimes are a whole lot more serious than that. In connection with which, Jeb Bush, himself, who is in accord with the UN Charter, is not worthy to be a candidate for President, or any other responsible government office--any more than his father, or his brother were!

Whether or not Jeb is a member of the NWO affiliated Non-Governmental Organizations (NGO's), i.e., The Bilderbergers, the Council on Foreign Relations (CFR), the Trilateral Commission (TC), or the Project for a New American Century (PNAC), recently replaced by the Foreign Policy Initiative--he certainly is a Neocon and supports their movement which promotes international intervention, and imperialism, including crisis creating military attacks in foreign countries.

Sending military men and women into conflicts, not legitimately for our national defense, is ultimately for the purpose just noted--that being part of the NWO goal of eventual world domination! Their actions are stock-in-trade methods to undermine and overpower nations, and bring them down to a slave state of indebtedness to world banks, and economic and military dependence upon the developing world authority of a US/UN Global Empire!

Deanna Spingola, in her website, Spingola Speaks, may be the best internet, or any other, source of expository information on the whole range of criminal actions of government and corporate interests, and other ideologues, who endeavor to gain international power and resources to increasingly establish total world dominance, and administration of all human affairs--governmental, economical, military, and personal, under one big hierarchy of world high-jackers!

She uses the term "false flags" (whether original or not). "False flags" (or

choreographed catastrophes) operations have been used for generations for various motives: the seizures of additional land/or natural mineral resources, the acquisition of cheap labor, economic destabilization, military depopulation of indigenous inhabitants, destruction of religious or political ideologies, the establishment of political tyranny, or a staged attack (as in 9/11), with the establishment of The Patriot Act, and the Department of Homeland Security for extra national defense, or to assist an allegedly threatened ally, or so-called protection of U.S. citizens living in a foreign country".

Turning to the mystery of the "deafening silence" of limited reports and articles on the NWO conspiracy, which is widely labeled as only an unfounded theory, both by liberal and conservative media, and agreed upon by them not to be considered and discussed publicly--which has the effect of a counter-conspiracy obfuscation of the truth! Or, more basically, **denial of the Constitutional first amendment right of free speech**, which should include an open discourse of the unhindered exchange of ideas, opinions, and especially unfiltered news and important information!

The NWO scheme is the most serious, pressing problem, by far, that we have, and yet we are not acknowledging it, or confronting it! The only safe thing to do is to **completely withdraw from the United Nations!** If we would! The urgent danger is apparently not even realized, or cared about, by the ones who were involved, or others who support the nation's surrender to the UN, by way of the 1945 treaty approval, which is nothing less than treason against the United States.

Unless we have a regime change by the election of a conservative Republican president, and strengthening of the Republican numbers of the House and Senate, plus the addition of conservative Supreme Court and other justices, there would be very little prospect of organizing a move to get out of our UN complicity, being locked into the planned final dropping of the hammer of the NWO ruling cabal takeover! Which would be the culmination of **the great American sellout!** The NWO official installation is scheduled by them for 2025!

I alluded to a **mind control phenomenon** in my other website article on the subject, the "UN Charter Summary". That is, in essence there are two supernatural powers that can and do operate in every human life, for good or evil! God for good, and Satan for evil! As to Satan's power, there is a scriptural passage or statement that says, of believers who have submitted or given access to him, and are thereby subject to his control, "That they may recover themselves out of the

snare of the devil, who are taken captive by him at his will", (2 Tim. 2:26) if we do not spiritually resist him (James 4:7).

In another place Satan is referred to as "the god of this world", and the "prince of darkness, of the powers of the air (high places)". Satan's power is always subject to God's intervention, and control, and is limited to the earthly domain of the "law of sin and death", as part of God's temporal judgment for Adam's sin, which affects all mankind, who are not redeemed from it, by the act of unmerited, selective salvation.

Therefore, acknowledging at least the conceivable likeliness that the devil can have access to, and power over some people's minds, coupled with his enmity against God, it causes him to exploit people by interfering with their lives, even to overpowering their thinking to show his evil control.

An evidence of Satanic influence is that many of the one-worlders have taken the Luciferian oath, which commits them to regard and honor Satan as their God! Temptation strategy was used by him, explaining that the statement by God, that "ye shall be as gods, with the knowledge of good and evil" is a good thing endowing Adam and the race to have godly powers and abilities, like God. Which if true, would be like God rewarding Adam for disobeying him, and Adam foolishly refusing the alternative gift of immortality that God promised him for choosing his eternally fulfilling offer, symbolized by the "tree of life".

Some of the one-worlders' vows are made in cooperation with secret societies, involved in occult practices, or ritual indulgences, often including perverse sexual acts, as "blood brothers", who bind themselves in agreement to support each other to any extent required by the circumstances involved. The upshot being, that their "death", or other brotherhood allegiance takes priority over constitutional oaths, or any other commitments or responsibilities!

An example of Satanic practices and indulgences that periodically take place, i.e., in Hollywood as often as weekly, or monthly, I read of meetings that include some sacrificial and sexual acts that are out of control evil activities. Such is the power that Satan can have over his followers. The Bohemian Grove annual event in California is another secret society conclave attended by many of the country's evilly influenced governmental, financial, corporate, and educational leaders, and other elitist minions!

The biblically declared fact of Satan's ability to use supernatural power over men's minds could possibly explain such contrary, foolish actions, and illogical decisions of those in positions of influence and authority, that would undermine and virtually destroy the liberty and quality of life that American citizens have been privileged to enjoy. The same phenomenal, overriding element of mental control could likewise explain why there are not more voices against the impending demise of our constitutional republican government, and capitalist, free enterprise society!

It is a staggering realization to have had the New World Order threat hanging over our heads for seventy-two years, positioned and poised to take over our country, and to extend the UN's tentacles, striving for world domination over all nations!

In addition to the NWO's cruel, inhumane plans for eventual massive depopulation of the world, their purpose in sending troops to fight foreign wars is intentionally done by creating crises, and killing military and civilian inhabitants, setting the stage for U. S. imperialistic control.. Thereby causing a financial drain on countries' wealth and solvency, which necessitates excessive loan indebtedness, that enriches the international banking cartel. Who, upon typical default of loan payments acquires a country's property and resources. Lenin said, "The establishment of a central bank is 90% of communizing a nation".

Of course, this is all done in the guise of creating a peacekeeping global government to make the world a safer and better place to live. For who? The movement hierarchy, including other chosen elitists. And, be sure that the ruling cabal has no compassionate desire to improve the lives of the common people, but quite the opposite, to massively depopulate the world, through genocide, and other inhuman means of re-shaping the world by various harshly austere changes, controlling every aspect of subordinated mankind's existence. For example.

NWO officials have stated their idea of a sustainable world population to be 500 million, vs. the over 7 billion people in the world today! As radical as that is, it is more of a goal to them, than just a desirable theory! The details of their Satanically inspired and controlled plans can be read in publications of their intended imposition of heinous, degrading rules to restrict and govern the lives of captive world inhabitants. Read Agenda 21 for the "mad scientists" detailed blueprint!

On the subject of free trade, the following quotation from Deanna Spingola is informative: "The abolition of nationalism, and borders under the guise of free trade has been the ultimate Illuminati objective since the late 1700's". Or, to basically **destroy the inventive, creative, skilled, industrious middle class!** Also, "Nationalists believe in reasonable tariffs that protect the nation's industry. Free trade is detrimental to a nation's wealth". Tariffs are a necessary equalizer of financial inequities between countries. A positive example of the value of imposing tariffs is that for the first 300 years of our history, tariffs were the main source of federal income.

Free trade under the auspices of the World Trade Organization, is not accountable to any nation's laws and regulations, but to those of their own international entity. Why would anyone in their right mind trade, or worse still, betray our sovereign, free, independent government and way of life, for a historically failed worldwide socialist, totalitarian system? Simply put, to pursue the utopian, self-serving pipedream of the world powermongers?

In a larger, evil spiritual sense, it is the kingdom anticipated by Satan, wherein he delusively believes he is carrying out his blasphemous oath in heaven, that he would be "like the Most High (God)", though it is power controlled and limited by God! Also, those foolish committed followers of Satan, are ones who have "sold (given) their souls to him".

A graphic example of "man's inhumanity to man", among our military and civilian leadership figures is the sordid account of Eisenhower's Death Camps. Per Deanna Spingola website: "A million Germans taken prisoner by Eisenhower's armies, died in captivity after the surrender! British and Canadian forces catch totaled more than 2 million. Records indicate that their prisoners were in fair health. Most were quickly released and sent home, or transferred to the French to help with post-war reconstruction.

"The Americans were suddenly faced with astounding numbers of surrendering German troops. The final tally of prisoners taken by the U. S. Army in Europe (excl. Italy and North Africa) was 5.25 million! The American military sector administration responded very differently."

A message sent to the combined chiefs of staff, initialled by Eisenhower, created a new class of prisoners. Note the following decision on the feeding of prisoners: DEF's (Disarmed Enemy Forces) vs. Geneva Convention defined

prisoners of war, would not be fed by the army, after the surrender of Germany. Which was a direct breach of the Geneva Conventions! The combined chiefs stipulated that the status of disarmed troops be kept secret.

Another message signed "Eisenhower" reported to Gen. George Marshall, U. S. Army Chief of Staff, that the prisoner pens would provide "no shelter or other comforts". The problem was not supplies. "The Red Cross had 100,000 tons of food in Switzerland. When it tried to send two trainloads of this to the American sector of Germany, U. S. Army officers turned the trains back (no doubt at Eisenhower's instruction) saying that their warehouses were already overflowing with ICRC food, **which they had never distributed!**"

"Water, food, tents, space, medicine--everything necessary for the prisoners was kept fatally scarce". At Camp Rheinburch (as in the other Rhein Meadow camps) opened by the Americans in mid-April (1945) there were no guard towers, tents, buildings, cooking facilities, water, latrines, or food.

"Private Heinz T. remembers that "All we had to eat was grass". "George Weiss, a tank repairman, said "All night we had to sit jammed up against each other. But lack of water was the worst thing. For three and a half days we had no water at all. We would drink our own urine".

Another soldier, Charles von Luttichau was quoted, "We were kept in crowded barb wire cages in the open with scarcely any food. More than half the days we had no food at all, on the rest we got a little K-ration--one-fourth of what they were giving to their own men. The provision of water was a major problem--yet only 200 yds. away was the River Rhine, running bankfull".

And yet, because of all the hushed up, and propagandized news, our country didn't know what a harsh, cruel excuse for a human being that Gen. Eisenhower was, or possibly became in coping with the throes of intense warfare decisions, and actions. Yet, nothing justifies his and other officials' barbaric treatment of fellow human beings. who were not the cause of the war but who were drafted or patriotically defending their country against enemy combatants. Examples of the atrocities can be read in Deanna Spingola's, "The New World Order, Criminals and Their Camps", Part 21.

Therefore, Eisenhower no more deserved to be elected President than the worst convicted murderer, which crime he was guilty of, on an epic scale. Also, his

word was not trustworthy. He gave a speech in March, 1945, saying that the Army would abide by the Geneva Conventions in the treatment of German prisoners. But, it was only days later when he established the DEF (Disarmed Enemy Forces) which ignored and defied the Geneva Conventions. He should have been court-martialed, and imprisoned for that and much other wretched conduct, for the remainder of his life! What a mockery of truth and justice his national exaltation was! And still, there is talk about creating a statue in commemoration of him! It ought to include the likeness of an emaciated, cruelly abused German prisoner.

Per Deanna Spingola, Truman and Eisenhower introduced and mobilized propaganda as an official peacetime practice to "persuade citizens to accept ideas, points of view, or policy positions, as if the communications were immediately, or ultimately their own". CIA Director William Casey, commenting on controlling the U. S. Media said, "We'll know our disinformation program is complete when everything the American public believes is false".

Another account of a famous, decorated military leader, is that of Douglas MacArthur, whose father, Gen. Arthur MacArthur, in 1901 defending his army's civilian massacres (of Filipinos) explaining that they were "carrying out the civilizing (?) mission of its Aryan ancestors". And, on July 28, 1932, Douglas MacArthur and his men, with six battle tanks, fixed bayonets, and poisonous Adamsite gas (developed for use in WW1) marched on and fired upon the Bonus Army, a desperate group of WW1 unemployed veterans and their families (43,000 individuals), who had set up temporary housing which the troops burned!

They had been attempting to collect the bonus promised to veterans by the government (which delayed these payments until 1944). MacArthur claimed that the veterans group had been taken over by pacifists and communists! Which was just another "false flag" invention, a lie such has often been used throughout the world by U.S. intervening forces, to avoid keeping promises, or do the honest, compassionate thing that misused, dispossessed people deserved! How many people know the ugly truth of another one of our "illustrious" heroes? That is how effective the propaganda and disinformation program is between the official government liars, and their national media lackeys!

Also, I referred in another website article on the subject, how that Pres. George H. W. Bush, a key perpetrator of the NWO/UN movement--commented boastfully, in a speech before Congress in 1991, about the plans being carried out for the future establishment of the US/UN global empire. And, having the

audacity, and outright disregard for the American citizens, he commented to Sue McLendon, the official White House Secretary, that "if the people knew what we have done, they would run us out, and chase us down the street".

And, that is a President that we ought to hold in high regard? Just the opposite, as he along with at least a few others ought to have been impeached (like Obama today, should be)! Our founding fathers wouldn't believe that such cruel cold-hearted "scoundrels" (as they would have called them) could get away with the traitorous, treasonous misconduct of their responsibility to honorably serve their country!

And, then, moving up to the 9/11/01 infamous catastrophe at ground zero of the New York World Trade Center, we have the controversial question of what the exact cause of the explosions was! Was it the external threat of Islamic terrorism carried out against us with fragile aluminum planes (as steel-melting fire bombs) as the government and their controlled media continually maintain, or could it have been a diabolical, cleverly orchestrated plan executed by our own government? Could we have been duped again by the power wielding, world control, obsessed elitist barons? Like in hollywood, the script is always in the hands of the producers and directors! In the real life case at hand, its the Illuminati scions, and their puppets!

As for the World Trade Center disaster, I believe that without doubt, the overwhelming evidence, examined by many of the most credible engineers, architects, physicists etc. was found to prove and support in every detail, an elaborate, meticulously planned demolition of the towers! The terrorist airplane attacks, is too simplistic, and scientifically impossible to account for the technical details, and precisely planned results of such a sophisticated engineering scheme.

So, what was the purpose of such a diabolical plan? It was for the furtherance of another step in the NWO conspiracy, by creating a crisis in a targeted Mideast country (Iraq), enabling the U.S. to establish another regional powerbase, for the inhumane, greedy, elitist controlling cabal!

What, then, does that make President G. W. Bush, our Commander-in-Chief, who is responsible, not only for the cruel planned sacrifice of some three thousand employees and visitors in the WTC catastrophe sites, but also the subsequent perpetration of thousands of military and civilian deaths and injuries in Iraq, and

eventually other Mideast countries?

So, why don't we erect a monument for him, with a mass obituary statement telling of the victims of his dictatorial, "blood on his hands" decision to cause the death and injury of thousands of innocent Americans and visiting foreigners at the World Trade Center site, plus Iraqi and Muslim soldiers and civilians!

Disguised as a defensive reaction to Islamic terror attacks, the premise was covertly staged by our government, who launched a completely offensive war, without true justification, but only to serve the egomaniacal, ultimate world-conquest goals of the devil's evil minions, and their useful puppets!

As bad as the carnage caused by the sub-human decisions and acts of Eisenhower and MacArthur were, Bush's cold-hearted brutality seems even worse, in perspective, if possible! But, just as the ugly, sordid facts are covered up now, most likely, neither will the history books tell the truth to future generations!

Even though our elected representatives have miserably failed to do their duty, and deal with the high crimes and misdemeanors (including treasonous actions) committed by many of our elected officials, neither have the citizens in general cried out and demanded that required prosecution and justice be carried out.

And, then, to elect Obama as President, with all the anti-American background, and subversive agenda that should have been obvious--especially now that he has undermined and badly damaged our country in his two terms, it may be poetic justice that we have probably had the kind of representation and leadership we deserved!.

If enough of the American people knew and understood the impact of what many of our political, corporate, financial leaders and responsible officials have done to betray their trust, by conspiring against America's sovereignty, and independence, and national and personal freedoms--they couldn't, or shouldn't conscientiously allow them to hold government positions.

In fact, if they were exposed enough, they should have been prosecuted, imprisoned, outlawed, and ashamed to face their fellow citizens. Of course, I am probably allowing for more conscience than most of them have ever shown in their careers, or personal lives!

Another corrupt, special interests federal operation is the Central Intelligence

Agency (CIA), the words in the technical name being a misnomer. It would be more fittingly titled the Corporate Interests Advocate.

Items, or notes of things that the CIA does for big business:

1. Destablization of foreign countries' economies and politics.
2. I.e., Sec. of State John Foster Dulles, and CIA Chief Allen Dulles were key players as officials of the United Fruit Co., a Guatemalan monopoly, which for one thing, paid no or low taxes for many years.
3. Influential, well-connected individuals commonly move between government and business positions. The CIA essentially exists to promote major corporations' success around the world, mostly through intensive lobbying, and special interests political donations.
4. Richard Cheney held a government and media-aided position with Halliburton, large international no-bid engineering and construction contractor.
5. Donald Rumsfeld, similarly connected with Halliburton, plus having positions with Gilead Science (Biotech Co.), and G. D. Searle (pharmaceutical company), involved in getting aspartame (human pollutant) passed by the FDA.
6. "The symbiotic relation between government and big business makes no distinction between political parties. Because its all about money. They are all influenced and prostituted by lobbyists!"
7. The WTO, World Trade Organization was devised to advance the interests of private agribusiness companies. They are not accountable to any nation's laws. The WTO can force countries to accept GM (genetically modified) crops.

Though I am not inclined to give President Obama credit for much of anything constructive and beneficial to our country, since by and large his mission and agenda have been to undermine and subvert America's sovereignty, independence, freedom, and prosperity--yet, there is an international matter wherein his criticism is valid.

That is, because of the U. S. neocom movement of imperialism, by intervention in foreign countries' affairs--creating crises in various nations, causing wars, and eventually gaining control economically and politically, establishing controlled powerbases--as part of the NWO conspiracy to create a global empire, under the authority of an international elite ruling oligarchy.

It has been an outgrowth of the highly questionable doctrine of Manifest Destiny instituted in our country in the early years of its development. But, in the

case at hand, it is for a more narrowly defined exclusive group of self-serving autocratic elitists! Obama is not opposed to the one-world movement, but to the national exceptionalism, and independent super power status of the United States!

A simple question to be honestly answered is, what gives one nation the right to interfere with another country's sovereign independent right to be left alone and to determine its own destiny? The principle involved is the simple basic fact of human life, that if one person doesn't have the right to tell another person how to live--then by extension neither does a group or government have a right to order the others in society to live in a specific way! To do so, is to violate a law of human freedom that God established, as in "All men are created equal (in natural rights)".

American national and global prominence is one thing laudable in the world, as an outstanding accomplishment of a political republic and capitalistic society. Until recent decades of the inroads of counterproductive governmental actions, and cultural upheaval, it had been an example of nationalism at its best.

While I may not like to credit him for it, Obama (an NWO puppet) was right about criticizing our self-serving international expansionism , under the unjustified guise of trying to impose democracy upon other nations, or somehow to protect our national interests--not for safety and security, but for international power and control (per NWO agenda), and pragmatically, to ensure the continued supply of America's critical oil needs! The program can be couched in sophisticated altruistic terms, but in reality it is an international scenario of the "bully on the block".
