### Accompanying Commentary

1(a). Referring to published UN Charter socialist ideology, and Agenda 21 world control plans:

The UN Charter drawn up by treaty agreement of 50 nations (plus Poland at a later date) at a conference in San Francisco in 1945, was the result of proposals worked out in Aug.-Oct., 1944 by China, the Soviet Union, the United Kingdom, and the United States, at Dumbarton Oakes, Georgetown University, in Washington, D.C. There are now 193 nations under United Nations jurisdiction,

1(b). The American signatory supporters of the UN/NWO Charter who signed the 1945 treaty, were traitors, who willfully and purposely surrendered the sovereign, independent nationhood of the U.S., thereby consigning the country to an interdependent slave nation membership status, under the autocratic, totalitarian control of the United Nations organization. The first four suggested names for the NWO/UN takeover above, are (1) "An Impending Tragedy", (2) "From Riches to Rags", (3) "The Road to Tyranny", (4) "The Great American Sellout".

1(c). Actually, the real cause of such a development is primarily the result of the biblically revealed Satanic establishment of an evil world kingdom, even as he threatened in rebellion against God, saying that "I will be like the Most High". Isa. 14:14.

From a human standpoint, the treaty action was like "giving away the farm", and consigning the bulk of citizens to the lives of sharecroppers. If anyone doesn't believe it will be that bad, they need to read the stark details of Agenda 21.

The over-simplified rationale that our "trusted" officials used for joining the UN is the supposed enhanced and maximum security of a combination and consolidation of the prearranged military forces around the world, under a unified command and deployment administration--that is claimed to be able to virtually assure keeping of peace throughout the world!

That objective may sound justified and convincing, even imperative, for theoretical control or prevention of "wars and threats of wars". But, in reality, it is another use of "false flags", when the real motive is the conspiratorial agenda of the New World Order, by eliminating all effective means of opposition and resistance--furthering the self-serving, elitist, ruling cabal, goal of world domination!

Even though, the U.S. has officially capitulated to U.N. ruling authority and total control of the nation, there is one particular reason that the NWO has not seized the reins of administration of its socialist agenda. That is because America still has personal gun ownership rights, by which citizens could revolt, and mobilize against our own government, and UN forces to prevent a forcible, literal UN takeover.

The anti-gun lobby has been working for decades trying to outlaw firearms possession, by the vacuous rationale of those like Diane Feinstein who have tried every back door trick, and subterfuge imaginable to pave the way to outlaw gun possession, including confiscation! The whole scheme is antithetical to natural human rights. The UN Charter's main proviso is for international

personal firearms confiscation!

Personal protection, and self-preservation are instinctive natural rights endowed by God, which a man may logically, morally, and defensively use to sustain his life, whenever it is threatened, and however it may be attempted. His ability to protect himself, and survive, must be equal to, or greater than the danger he may be confronted with. Hence, no man should be made to suffer an imposed restriction of that capacity!

It is all about (1) the natural right to do anything that does not purposely threaten nor endanger the lives of others, and (2) the unrestricted means of survival! The subject of the "right to bear arms" (gun ownership) is so elementary, and common sense simple, that any argument against the obvious positive answer, is specious and ridiculous.

In the matter of our U.N. membership, a current legislative proposal calls for U.S. defunding of the UN organization, but, that probably would not be enough to extricate the U.S. from UN control. But, I challenge anyone who conscientiously reads the UN Charter, not to see the socialist, totalitarian authority over member-nations, contained in that disenfranchising, enslaving document!

But, again, we are back to the fundamental mystery of why our elected, appointed representatives signed on to the traitorous, unpatriotic, oath-breaking 1945 treaty, in the first place! Their unrealistic belief in the UN global agenda's peacemaking philosophy, notwithstanding, nothing justifies any action contrary to a literal interpretation of the U.S. Constitution, i.e., anything being done that would interfere with U.S. sovereignty and independence.

And, I realize that my belief in an underlying supernatural cause for the treasonous act of however many signers or subscribers there were, is unconventional and hard for many people to believe! Yet, it would seem that, anything less defies, or exceeds normal human limitations. However, the perpetrators, no less guilty, are among the long list I included in my website commentary, "New World Order Conspiracy", pages 18-19.

Just to name a few, they are both Bush Presidents, Brezinski and Kissinger (as would be expected, communists), Jimmy Carter, Dick Cheney, Bill Kristol, Colin Powell, Steve Forbes, Robert Gates, Charles Krauthammer, Newt Gingrich, John McCain, and many more turncoats.

Since the UN Charter government system is entirely socialistic, are not the American traitors who signed onto it, socialist "birds of a feather"? Were they infiltrators, or converts? The secrecy that surrounds the scoundrels is keeping them from being exposed, prosecuted, and punished for their seditious, treasonous acts, is not readily explainable as decisions that would normally or easily be made by otherwise responsible persons in national leadership and official positions.

Which is made worse by an apparent absence of the normal effects of conscience, and guilt for such heinous acts of betrayal of trust, in the commission of cruel actions against fellow citizens! Many of these disloyal, criminal dignitaries, politicians, etc. are still in various government, business, media, and other positions, as if they have done nothing wrong!

With certain strawman arguments and excuses, talk shows, politicians, etc., will not discuss the NWO Conspiracy (as if the idea is merely a groundless theory, and they do not appear to even question the UN Charter as a dangerous document for our country to be subject to. Which I label as a "Socialist Manifesto", or a fascist constitution, by whatever name.

When the fox is caught in the henhouse, he is driven out, and preferably eliminated! In the case of the traitors in question, it is probably just more of the mystery alluded to, that they are not suspected, or detected. The more I learn of how our government works in secrecy, and hides the truth of much important information, and administrative and bureaucratic decisions from the public--the more reason there is to distrust them, in general!

For example, when William Casey was director of the CIA, he was quoted as saying the following, "We will know our disinformation program is working. when everything the public believes is false"! And, as recent reporting has

revealed, we learn that fake news" is not only common practice, but uncontested by news agencies, and the government departments involved. Which is not surprising with a government and media that has suppressed and misstated, and propagandized political news for decades, at least!

On the subject of national traitors leading a double, practically undetected and unrestricted life, another example comes to mind. That is, Bill Kristol, and his cohorts who are active promoters of the PNAC (Project for a New American Century), an NGO that has since been replaced by a think tank called Foreign Policy Initiative. Isn't that a government responsibility? But, of course, the overriding NWO shadow government really sets policy, like a puppet master!

The PNAC goals are still maintained by its minions, as:

1. Remake America in the image of an imperialistic nation, prepared for global domination.
2. Remake other nations into the socialistic democracy that many people seem to think we have--while abandoning our Constitution.
3. They believe we should spend more for defense. (Being the Neocon war hawks that they are).
4. They believe in intervention - hence the abandonment of the more Christian, isolationist mentality of the founding fathers. That is, unencumbered nationalism vs. mutual globalism or internationalism.
5. Infiltration, and holding of high, often unelected, government positions.

Further quoting from Deanna Spingola (6/14/05 PNAC article), on the preceding subject, "A PNAC letter to President Bush dated 20 September 2001, included strong encouragement for the nation's 'first war of the 21st century' including the capture, or killing of Osama bin Laden, and the capture and prosecution of any and all perpetrators of 9/11."

The absolute irony of that last clause is overwhelming! The lying "false flag" subterfuge is typical strategy of the NWO global government movement--but is only apparent to the realists who know that our own government, and its conspiratorial accomplices were the perpetrators of the "Twin Towers" catastrophe! But, unfortunately, the large majority of

Americans, along with much of the world are such naive dupes of the government and media propaganda machine, that they unquestionably buy into the Washington lies that the 9/11 tragedy was the work of the Islamic terrorist scourge, who they claim is trying to defeat and overcome the independent, democratic, capitalistic nations of the world!

I completely believe that the scope of this developing worldwide dilemma, that is being foisted upon us by the NWO conspirators, is beyond strictly human causes, and involves a mysterious component that can only be logically explained in a supernatural context. No human power-mongering scheme of such magnitude is possible, to be carried out on that scale of treasonous complicity, and relative secrecy or coverup. And, especially, so that most of the world remains uninformed and ignorant of the existential threat that is being imposed on it by the evil, elitist ruling cartel that has been working for centuries toward their goal of total radical world reorganization, and domination!

And, what about the media, who should actually be preoccupied with the heightened conspiracy development, and sounding an "All Alert"! What is more important to keep the country warned and advised of, instead of secondary issues, which everything else is, in fact! Whenever anyone approaches news and talk shows, newspaper, and magazine publishers, etc., with questions about the subversive movement which is stealthily gaining overcoming power over the world--the callers or inquirers, even knowledgeable informants on the subject are immediately rejected, and criticized as mere "theorists", with no credible beliefs, or arguments, not even to be heard!

What authorizes pundits, or anyone else to say that "theorists", and demagogues, even "prophets of doom" don't have the same free speech rights as anyone else? Not a word of the Constitution qualifies, or limits those rights! So, what is some news show commentator doing denying hearing, or audience to any constitutionally protected caller, or inquirer? One of them, Bill O'Reilly, even gets visibly angry, demeaning them as whackos, or the like, when he is actually the ill-informed one, contradicting his own byword, "that we are looking out for you"!

Ownership or management of media programs, channels, print sources, etc., have no defensible authority over the free discourse, and exchange of ideas! I think it was Sir Edmund Burke who said in effect, that all mediums should exist as openly available sounding boards for all opinions, beliefs, and

ideas. I wish I could remember who said it, but one of the best quotations I have ever heard on the importance of open, and free discourse, is that "Whoever refuses to consider another man's opinion, denies himself the right to change his mind"!

Truth is not afraid of opposite ideas, or concepts! It can stand on its own merits, or credibility! Think, with the best construction of what he meant, both as a moral responsibility, and as a guiding principle of the conduct of his life, when Will Rogers said that he "would rather be right than President"!

Burke's implication was that all voices should be considered, so that the most informed judgment might be arrived at on a given subject. The English parliamentary method and procedure, if freely conducted, would be a good model to follow, in any public, or private arena, or setting!

And, as for treason in high places, what about Newt Gingrich, an avowed internationalist, and NWO activist? And, though I haven't read it, can you believe that he has written a book called "Treason"? I intend to check it, but I don't know if I could stand the anticipated hypocrisy of it! He made an inadvertent remark, implying his personal connection with a secret society oath, when someone asked him if he thought Trump is a globalist. Gingrich said no, because in effect, Trump hadn't taken the required NWO membership steps, which, as difficult as it may seem to believe, includes an oath to commit oneself to Satan, whose master plan the one-worlders are furthering, unwittingly, or not!

Gingrich had been considered a top choice by Trump for a senior position in his administration. Of course, he is highly qualified, being skilled and experienced in congressional affairs, including leadership positions, and corresponding accomplishments.

But, his alignment with the NWO movement makes him a threat to our national sovereignty and independence, it having been surrendered to the UN over 70 years ago, though they still haven't finally coopted us, and taken over! Some of the examples of undermining our country's security may seem to be uncertain and not prevalent, but they are an integral part of the subversive NWO conspiracy, leading to eventual UN/US world control, unless something almost miraculous intervenes!

I received a soliciting letter from Laura Ingraham in behalf of the Leadership Institute, which was established to help conservative college students

stand up against the liberal indoctrination and intimidation by professors, and their administrations. It included an example of actual lessons that the liberal professors are subjecting students to. Quote: "Conservatism champions racism, exploitation, and imperialist war".

The professors are so obsessed to blame conservative Republicans for everything politically wrong, that they cannot see that except for "imperialist war", liberals far exceed conservatives on "racism", and "exploitation" charges; that is, exploitation of the race issue! They seize every opportunity to accuse conservatives of using race as an issue, just because there may be a black presence, which often has no effect or connection to a situation observed, or reported on!

Then, of course, there is the unconscionable Democratic proclivity to freely provide for, even promote, social programs of unemployment benefits, food stamps, and disability payments--all as part of the control syndrome that characterizes the liberal Democrat Party, by the redistribution of resources "unfairly" monopolized by conservatives.

So, when honestly assessed and reported, racism and exploitation are by far cards played by liberals as stock-in-trade tactics to falsely charge conservatives with their own disingenuous party, or class politics. Liberal journalists, pundits, etc. typically accuse conservative sources of stories, and news incidents involving black assaults on whites, for what the assailant is, that is, "black", but not for what he does, or the criminal act he commits! Which, falsely implies, in many cases, that if it were white on black, it probably either wouldn't be reported, or justly criticized for the criminal assault.

Of the two examples used in the letter from Laura Ingraham, the one referring to "imperialist war" is right on! That is, a Neocon interventionist strategy to ultimately gain control of foreign nations, via the "false flag" ruse of international crises, or to try to impose democracy on other countries, whether they want it or not!

It is, of course, part of the NWO movement to dominate the world, either by consent or conquest! Surely, Laura has been part of the problem, or guilty of the imperialist war, NeoCon philosophy! Though something she said recently, indicates that she may have softened her alignment with the "war drums" mentality.

On the subject of professors denying the genocidal killing of multiple millions of Russians by Lenin and Stalin, they are either intentional liars, or misinformed, and false teachers of established historical facts! The barbaric killing of 30-40 million innocent people, is nothing less than "population control"--practiced throughout the the world by the amoral tyrants, and the inhumane self-appointed elitist ruling class!

50 years ago, John Stormer wrote a book, "None Dare Call it Treason". The U.S. pretended to fight communism at that time, but, today under Obama and others like him, Stormer says we have become a "facilitator " of communism. And, the situation is not helped when the columnist George Will says communist Cuba is a "geopolitical irrelevancy". In May, 2016, investigative reporter Bill Gertz noted that Cuba and Russia concluded a security deal aimed at bolstering "intelligence and military ties" between the two countries.

International News Analysis Today, had an article in 2012, noting that Communist China regards the island of Cuba as "strategically located for the interception of U.S. military and civilian satellite communications", and that "China's spy service also cooperates closely with Havana's own world-class intelligence services".

Sorry, George Will, that sounds like some pretty potential "geopolitical relevancy". Shame on you if(?) you don't know those things, or can't assess them for the threat they pose to U.S. security. Isn't Cuba as close as the enemy can get, geographically? A person in an influential position can put a lot of people falsely at ease!

One of my suggested names (No. 6) for the general government, media, and academic ignorance and virtual silence on the impending threat of the NWO movement is "Asleep at The Wheel", which is fitting for Will's misguided apathy about Cuba! Thomas Jefferson's words that "Eternal vigilance is the price of liberty", certainly applies to such a situation, and on a broader scale to the world itself!

As for the world-controlling threat of the NWO tyrannical hierarchy, there is concurrently the age-old conspiracy of the Muslim religion wanting to impose its diabolical political/religious ideology on the world, by the slim possibility of consent, but mainly by conquest, purposely resulting in the death of all non-Muslims, or infidels as they call them. The Muslim religion is a system of

idol-worshipping of Allah and Mohammed, plus terrorism, mythology, barbaric punitive customs, etc. It is nothing less, than a Satanic-inspired and controlled evil, false religious ideology! Anything as hostile as that violence-promoting belief system, cannot qualify for religious liberty! Shouldn't a religion mainly exhibit fundamentally benign, and spiritual activity?

The following information is derived from a website, I would not otherwise recommend, Freethought Nation (url: [truthbeknown.com](http://truthbeknown.com)):

1. 61% of the Koran speaks against "unbelievers", intolerantly calling for their conquest, usually by means of violent death.
2. 75% of Mohammed's biography consists of the teaching of jihad, to be waged on unbelievers.

Quotations:

Koran 8:12, "I shall cast terror into the hearts of the infidels. Strike off their heads. Strike off the very tips of their fingers".

Koran 9:12, "Make war on the infidels who dwell among you, and unbelievers, and deal rigorously with them".

From the same reference, a letter from a lady in India is quoted below. "I am an Indian citizen belonging to the female gender. I read the whole Koran with much hope of finding words of beauty and wisdom. What I encountered was mostly (with a few exceptions) words of hatred and misogyny. I thus realized **the true reason behind the violence in the Muslim world**.

"It is not their fault. They have been misled by a wrong ideology. Born in a Christian family, I am familiar with both Old and New Testament. While Old Testament contains some passages endorsing violence (not to the same extent as in Koran). Christ's message is about love, kindness and forgiveness. Christ's mission was to correct wrong ideologies, and beliefs, and it is the New Testament a true Christian should build her (or his) ideology on".

As for the political alliance of many of our past and present government officials, business executives, media columnists, journalists, talking heads, and other plotters and schemers, who were/are signers and NGO members promoting the UN/NWO agenda--they are still masquerading as patriotic citizens, but who should be exposed as traitors, marked with infamy and reprobation, and ostracized from society!

Actually, there is a federal penalty for violation of oath of office for

congressmen, or anyone officially serving the U.S. government who in any way "advocates the overthrow or alteration of our constitutional form of government", without appropriate congressional action. According to 5 U.S.C. 7311, the penalty for such violation calls for (!) removal from office, or (2) confinement or fine. Which is a "paper tiger", because it hasn't been enforced for two centuries, or more!

Other than for the greedy, self-serving motives of the international elitist cabal, why would any right-thinking American official succumb to the hijacking of our national republic which is the finest, and fairest designed form of government, and system of laws and liberty ever established in the world? **The spectre of a mind-controlling power of some kind looms above any plausible human explanation for such abnormal mental behavior.**

And, it doesn't matter that probably a great majority of Muslims are peaceable, non-violent members, The doctrine or ideology of their religious order calls for elimination by any means of all opposition to the Muslim religious ideology! There is no real innocence in the diabolical monolithic system. There are no permitted differing factions, all members are subject to the same teachings of the Muslim religion, including jihad! Fear of retribution alone is why you seldom hear of outright opposition from worldwide members.

An interesting comment from Deanna Spingola, about the PNAC (Project for a New American Century), is that "9/11/01 was the "new Pearl Harbor", precipitating the order to invade Iraq, by which she meant that it was a "staged crisis" (like the permissive start of World War II was). Based on the false rhetoric excuse of Islamic terrorism being the cause of the World Trade Center attacks, I believe evidence incontrovertibly shows that the catastrophe was really the result of **a U.S. government, meticulously planned tragedy** (per above reference), that ought to be termed the premeditated murder of some 3,000 innocent Americans, and the subsequent slaughter of thousands of Iraqis!

Those were lives sacrificed on the altar of self-serving, power-mongering, depraved disregard for human life! Which, incidentally is the same vitiated nature of those who kill, or allow unborn infants to suffer the inhumane act of abortion. The perpetrators behind the calculating, cruel political acts against innocent victims, will surely be dealt with by God, at his appointed time, but, whichever ones are still living need to be justly exposed, prosecuted, and punished by the wheels of justice as traitorous, criminal citizens. There are also

international laws that were ignored and violated, in the commission of "crimes against humanity".

As for anyone who adversely reacts to my assignment of the real blame for the 9/11 catastrophe to the U. S. government, they need only to be willing to study the reports of the various scientific professional experts, which completely debunk the "false flag" illogical, lying governmental accounts, including the 9/11 investigation panel, which ridiculously accuses the Islamic terrorist scourge for something, of which they could never accomplish the intricate professional, systematic details involved.

Title No. 7, "The Robber Barons", and No. 8, "A Greedy Gang of Thieves", and No. 9, "Power-Mongering Bankers", refers to the scheme of creating false war crises, in foreign countries, necessitating costly financing by an international central bank, which the countries cannot usually repay, and the cabal gets control of resources to settle the debts, leaving the countries impoverished, or severely limited financially. By which criminal means the New World Order establishes power bases to incorporate into their global domination objective.

"Megalomaniacal Marauders", Title No. 10, and "Elitist Exploiters", No. 12, describes the nature of certain individuals who, usually by early adulthood, become obsessed with the desire to increasingly acquire wealth and power, and do not seem to care, or have compassion about people who are adversely affected by their overly ambitious greed, and unethical practices.

Item No. 11, "Diabolical Despots", labels the tyrannical oligarchy, in the name of the United Nations, or New World Order as the self-aggrandizing, ruling elitist conspirators, who have been clandestinely operating as a shadow government for better than two centuries, dating from the days of its origin in the Bavarian "*Illuminati*", a secret society, organized in 1776.

English banking heads, particularly the Rothschild family, and associates were the principal figures in the society for most of the time, later involving David Rockefeller and others in the circle of international bankers, surreptitiously gaining global influence and control!

In effect, I liken the scope of this impending threat to civilization, as the world being prey to a monstrous invisible octopus poised over the earth, waiting for a signal to pounce upon, and eliminate as much as 90% of the world's population, leaving most of the remaining, elitist recommended maximum of 500

million inhabitants, as severely restricted victims of mass inhumanity and deprivation!

The 90% figure, is the seven billion people targeted for depopulation, and what Hillary Clinton called a "basket of deplorables", or who Henry Kissinger termed as "useless eaters", because they (which, is almost all of us) consume too much of the world's resources.

The "deplorable" word was an inadvertent slip by Hillary, because it applies to all of the common people who do not have the eugenics classification of a superior class of the human race, and therefore are dispensable!

Hillary didn't think quick enough to realize that her prospective voters were part of the "deplorables" class, and if they caught on to who she was really referring to, why would they ever support her? But, sadly, most of her constituency probably didn't understand what she was implying, and, therefore, how little she actually cares for them! They, being among the ones that Rush Limbaugh calls "low information" voters!

Besides, anyone that would vote for a subversive, socialist, unAmerican ideologue like Obama, because he is black, isn't doing too much heavy thinking, anyway! Which was further proven, when they almost got another amoral, dictatorial demagogue elected (Hillary Clinton)--which could have marked the demise of whatever remains of our once sovereign, free republic!

I believe there is hope for something good to happen under President Trump. As far as I can tell, he appears to be nationally oriented, which is especially evident in his opposition to established trade alliances with other countries. He is for genuine free trade, but not at the expense of being subject to another country's vote, or approval, or authority.

In other words, one-on-one business deals, with little or no strings attached! Hopefully his nationalism extends into the political realm, as well; like the wisdom of the founding fathers, who were very reluctant to enter into any obligating associations with other countries. At least, I haven't seen any notable signs of his having a predisposition to the various aspects, or ideology of globalism. It might sometimes be inferred, but not with any certainty!

I would like to think that enough of the present administration would be concerned about the inherent dangers of U. S. membership in the U. N., and

would actively work to extricate us from that unholy alliance, that we were foolish enough to become entangled in--having surrendered our national sovereignty, and independence for a pipedream of a utopian scheme of a one-world government.

America's loss of autonomy and liberty, has left us subordinate to the whims of a self-serving elitist oligarchy, who care not a whit for anyone outside their select circle, and whose evil plan would be the most destructive world-changing development in the history of mankind--if it is carried to its ultimate designed end!

May more of America become informed of the impending tragedy that faces us, before it may be too late, and that our government would act to withdraw from, and stand against the UN foreboding fiasco, and take back our cherished homeland, and precious freedoms and opportunities, that are on the brink of disappearing, possibly forever!
