New World Order
Secret Conspiracy
Role Players

Brotherhoods (Secret Societies) involved:

1. Skull and Bones Society (Yale University undergraduates), also called the Brotherhood of Death. It is similar to the Thule Society, which was Adolph Hitler's cult. Rituals are the same in both groups, with Nazi occultism and ideology, that members believe gives them immortality!

Commitment requires Satanic and psychological rituals to be followed. Blood oaths are taken that they believe releases them of allegiance to kings, governments, and constitutions, or nations, and subjects the members to worship of Satan, not God!

Alliance with Satan is based on a false interpretation of Gen. Chapter 3, wherein God commanded Adam that, "of every tree of the garden thou mayest freely eat, but of the tree of the knowledge of good and evil, thou shalt not eat, neither shall ye touch it, lest ye die".

Which meant that Adam had a spiritual relationship with God, that enabled him to have a perfect, sinless life being potentially immortal, and eternally secure. That would have been the result of partaking of "the tree of life". But, eating of the fruit of the tree of the knowledge of good and evil, would remove his spiritual connection with God, subjecting him to a life of sin and death,

leaving him to be personally responsible for every decision and act that life would require.

In addition, the Society members are sworn to uphold the implementation of the worship of Euloga, Goddess of eloquence, who it is claimed, came down from heaven to reside in the "Tomb" (a special secret occult building at Yale). Members sing Satanic hymns to praise the "deity".

Bush family members include Prescott, George H.W., and George W.

2. Bohemian Grove, founded in 1872, is the occult playground of elite world leaders, celebrities, etc. The meeting place is a campground in Monte Rio, Calif., property of the Bohemian Club. An annual meeting is held for seventeen days in July. In 2000, Alex Jones, and Mike Hansen secretly got into the retreat and videotaped the amazing spectacle, including worship of a giant concrete owl, similar to the biblical Moloch

Per the North Star Zone website, there are rooms in secret locations, including a Necrophilia room which represents "an abnormal fascination with death and the dead; esp., an erotic attraction to corpses". Per Webster's College Dictionary, 4th Edition. There are also reports of effigy burnings, and possible human sacrifices!

Neocons (war hawks), associated with secret societies: Newt Gingrich, Dwight Eisenhower, Herbert Hoover, Theodore Roosevelt, David Rockefeller, Clint Eastwood, James Woods, Henry

Ford, Jack London, Mark Twain, Colin Powell, and many others.

3. Project for a New American Century, later named Foreign Policy Initiative. Neoconservative role players, per Deanna Spingola, Spingola Speaks website.

Goals of the organizations' behind-the-scenes plans to further the NWO objectives:

1. Remake America in the image of an imperialistic nation prepared for global domination.
2. Remake other nations into the socialistic democracy that many people seem to think we have--while abandoning our constitution.
3. Spend sufficiently for defense.
4. They believe in intervention, and empire building vs. traditional Christian nationalist, and isolationist principles, per the founding fathers.
5. Infiltrate, and hold high, often unelected government positions.

A letter was sent to Pres. George W. Bush, encouraging the "first war of the 21st century", including the killing of Osama Bin Laden, and the capture and prosecution of any, and all perpetrators of 9/11. Which ironically means the U. S. government officials (with the controlling Israeli connection) who are the real guilty conspiracy culprits in the WTC tragedy! It shows how confident, and calculating the global powermongers are with their false flag disinformation schemes!

On the subject of U. S. officials, and other celebrities involved in these activities, especially the mysterious element of why and

how they have seemed to lead double lives--there are no quick, easy answers. It is one thing to have different ideas about the kind of society, and government that can be discussed, but quite another when government officials, as in the foreboding day they sold out our country to the United Nations prospective world-governing rulers, by signing the treaty which made the United States a **legally powerless** slave member nation under the authority of the U. N. Charter. How could our responsible representatives have fully known what they were doing?

Our founding fathers, who conceived and instituted our republic system of limited government, to be under the rule of the American citizens, would never have let such a travesty develop, but would have stopped it in its tracks, and exposed the traitorous action for what it was, and drove the guilty scoundrels responsible for it, to their demise. But, our leaders, and supporting minions have become too soft and "progressive" to act in decisive, patriotic actions to serve the country's best interests with their delegated authority.

And, for over 70 years now, the turncoats involved continued in their self-serving government positions, and other professions, as if they were worthy patriots, and faithful servants of the American people. Yet, they are, or were (if not alive today) **role players**, in the most subversive, anti-American movement in our history, the **New World Order global domination plan**. Which began with the Bavarian Illuminati in 1776. So, why were they not exposed, and prosecuted for their traitorous actions? It doesn't have to be called treason, but any serious traitorous, disloyal

actions, can be enough to fire them, or try them if necessary!

Think of how many times over the years we have observed and listened to the detractors noted, on TV, and seldom, if ever, is anything mentioned or discussed about the things or people connected with the one world government movement! And they, the hosts, conduct themselves as if there is no such thing, or cause to be seriously concerned with any suggestion of the problem. Which is out-of-character for people who are supposed to report, and discuss items of importance as newsworthy subjects to be revealed to the public, not ignored, or covered up!

The answer to the mystery of how the clandestine operation of the New World Order conspiracy could forge ahead in our history, and in effect take over our country, and most other nations of the world--involves powers beyond normal human capacity. Most of the world doesn't know or seem to realize, and many would scoff at the suggestion, that there are supernatural, paranormal forces that actually control man's actions, when it serves their purposes and plans. "The devil made me do it", can well be the reason for many wrongdoings, if not provable, or acceptable as an excuse!

The scriptures, of course, reveal the fact that those supernatural entities are (1) God, who is the infinitely powerful eternal being who created and controls the universe, and every living creature, and material substance in it, and (2) Satan, an exalted angel in God's hierarchy, who rebelled against God, declaring that "I will be like the Most High", and was banished from Heaven. Which was when sin first occurred in the universe.

After the fall of man, earthly judgments were pronounced by God, and Satan was given power over natural (unredeemed) man, subject to God's will and control, under the dispensation of the "law of sin and death" affecting all who were not called of God to become Christians!

The minds of faithful Christians are spiritually protected and guided by God, but the minds of non-Christians, and unfaithful Christians can be controlled or influenced by Satan. That is the supernatural factor that I referred to, as to why a normal, supposedly principled, patriotic citizen would act out of character, or abnormally enough--first of all, to sign a treaty agreement selling out our country to the U. N., and then being able to conceal the double life he was leading, without even arousing suspicions of it. Who can think that some of that is not a mystery?

The fact of, and practically unknown potential danger that has existed for the seventy-plus years of our United Nations membership, is only really explainable by the above-noted phenomenon! In perspective then, the situation should be seen as **the most critical, impending, existential problem facing our nation!**

The history of the New World Order conspiracy movement is mainly a Zionist Jew long range venture, with prominent figures like the Rothschilds of London, and Rockefellers of New York at the forefront. Their sphere of operation has been big international bank organizations, with the persons noted having obsessive compulsions for wealth and power, often

unscrupulously, driven by megalomaniacal personalities which are categorically, psychological mental disorders.

The Zionist Jew upper hand prevails throughout the NWO surreptitious movement, as they and their minions stealthily progress toward their ultimate goal of a world-dominating, self-serving, tyrannical elitist empire!

And, unless it is finally realized by our government, and steps taken to extricate ourselves from the unconscionable bad impotent alliance that we are in with the United Nations organization--we are otherwise doomed to remain a slave to U. N. authority--which, after all, is the main entity representing the one world domination conspiracy movement.

The U. N. has declared, with little reactionary publicity, that they have set 2025 to be the year that they will establish their world takeover, and begin the full implementation of their detailed radical Agenda 21 plans, and any other authority they choose to use, to bring the world under their control.

We need to hope and pray that God might intervene, and that America will wake up before it is too late! As for why the U. N. has not acted before to enforce their authority has, no doubt, been affected by our 2nd Amendment right to bear arms, which was instituted--aside from other possible needs of protection, and possible self-preservation--for our nation to be able to resist possible government tyranny, which has happened throughout the history of the world. A mass mobilization, and revolution

could be developed, if necessary!

Nothing else, but the supernatural factor, can adequately explain how people can plot, and scheme such a prodigious undertaking as to radically change institutions of life, so that global control of the earth could eventually be accomplished by an elitist, self-serving cabal--operating as a powerful tyrannical autocracy.

As an almost unimaginable example of the cruelty and inhumanity involved with the U. N. agenda, consider if you can, their depopulation plan of reducing the world's inhabitants from 7.5 billion to 500 million, as a "sustainable" population! Which would be mass genocide, or murder! Most of the former number, in Kissinger's words being "useless eaters", or "deplorables" in Hilary Clinton's terms. Only science-fiction imagination and drama could match the scope of such an evil plan!

With the seeds of anarchy threatening our national unity and security, we need to solve our out-of-control political differences, and resolve to patriotically deal with the New World Order conspiracy nemesis before the time may be upon us, when we could be without recourse for national and personal survival,

Do we not have the strength and spirit that our ancestors fought with in the Revolutionary War--and secured our freedom and independence, the technical loss of which we are now faced with to defend to the death. if necessary? It is sad, indeed, that we are so complacent and taken up with internal political struggles, or petty party politics, that we are not vigilant enough

about external threats that are developing against us.

And, which will consume us if we don't mobilize our forces and resources to prevent the looming NWO crisis that is fast approaching, and must be defeated, if we want to recover and preserve our national sovereignty and freedom , before it is only a memory, and the kind of life lost forever that we have known and cherished. And, that is not an overstatement!
