America's No. 1 Problem

In three letters, the NWO (New World Order) signifies the most impending existential threat that faces our country, but only relatively few citizens know what it is, or take it serious, if they know it! Mostly because of irresponsible citizenship, and the longstanding practice of our government propagandizing the nation to believe what they wanted us to believe, not the truth of the complicit evil actions they have shamelessly hidden from us!

And, one of their worst acts happened to us over 70 years ago! That is when our trusted government guardians either fell asleep at the wheel, or deliberately capitulated and signed a treaty making us slave members of the United Nations, subject to the conditions and requirements of the U. N. Charter document, that I call a "Socialist Manifesto", from 1945 on; creating a legally permanent status.

The U. N. is the working arm, of what is designed to be the New World Order--that is, a global, dominating elitist ruling oligarchy. The behind-the-scenes conspiracy, dates back to the late 1700s, as the Bavarian Illuminati (self-designated enlightened ones). The controlling nationality of the principal leadership of the subversive movement, is Zionist Jews.

The distinction must be made that those Israelis are not the religious Jews, but are mainly nationalistic and commercial--intent on acquiring wealth and power superiority in the world. Neither

is it to be assumed that they are generally moral and rightly pursuing success in their endeavors, and business dealings. Far from it! Because. the NWO conspiracy is a Zionist movement. Which says it all, fully understood!

Looking at the Palestine situation, the Jews made up only 33 percent of the total population, and owned only about 7 percent of the land. The U.N. Resolution 181 gave the Jewish state 54 percent of the territory. This disparity, of course, resulted from Israeli political connections with the U.N. hierarchy.

During the Israeli/Palestinian Arab cohabitation conflict, many hundreds of thousands of mainly passive, defenseless Arabs were forced out of their houses and land. They were deprived of enough food and water, and other personal needs, at the hands of the Jewish warmongers.

Throughout those and other mistreatments by the secular contingent of the Israelis, most of the world has foolishly fallen for propaganda and blindly supported Zionist Israel. For example, why would the richest nationality in the world, ask money from other countries, charities and people? TV pictures of starving Israelites pose more questions than answers. But, sympathy for the melodramatic appeals keeps on working!

The United States government propagandizes, misinforms and disinforms its citizens (via "managed" news, i.e. "false flag" created wars), etc. Governments of other countries use the same methodology to hide what they are really doing, like the dictators,

controllers, and deceivers that most of them are!

On the subject, again, of the NWO movement, the mystery of their nefarious, self-serving actions is only sporadically revealed, and rarely discussed, for the threatening conspiracy that it is. For example, when the subject is broached to various media reps, or any of our government officials, they go into defensive modes, and refuse to discuss what they imply by their actions is only a far-fetched conspiracy "theory".

The condescendence, even ridicule, by which they dismiss the subject, when anyone, including myself, knows it to be provably true, and of critical importance for our country to be aware of, and to do something serious about--there is little response, or agreement.

If you don't think you would get the "boot" for raising the subject with nearly any talk show, and other news and opinion commentators, just try it! I recall one typical reaction by Bill O'Reilly, when he was at Fox. A guest asked him a question about the NWO movement, and O'Reilly said to him, sarcastically, that he wasn't going to discuss what was merely a "theory", as if the subject had no credence, implying that it wasn't worth replying to with any interest.

Others, like Shaun Hennessy, who is normally non-restrictive, think the same, and treats it like he is not interested in talking about it. Which is surprising, since he and others are avowed constitutionalists, the first amendment of which, prohibits the government from making any laws abridging the right of citizens

to have the privilege of free speech, implying that it is a natural right, as well as legal.

Then, how can anyone conscientiously refuse the right of free speech to any inquiry, or statement made by an American citizen? And, the 1st Amendment makes no distinction as to whether the speech is true or false!

Many people, especially the neoconservatives, are motivated, and indoctrinated by the NWO conspiracy ideology, and have infiltrated the ranks of government officials, or hold other seemingly innocent jobs and positions in the media, industry, and education fields.

There is, however, a further phenomenon, and mystery as to why they maintain relative secrecy, and do not show much evidence of their complicity with the U. N. real mission. That being the US/UN front, and driving force for the subversive plans, and actions that cause the global control plot to progress with minimal exposure of their extensive evil schemes, and foreboding developments.

If, as it claims, its purpose is to provide peace and security for nations of the world, which is plausibly such a positive and good thing, why is it not openly discussed and promoted, instead of surreptitiously conducted like a stealth underground traitorous movement, that it is?

Because, what we know (or should know) about human nature traits of greed, and wealth and power manias, which in the

case at hand, that has accelerated into megalomania, we should not be deceived by its elitist practitioners, who are engaged in a utopian, self-serving mission to rule and control the world. In other words, the elaborate plan is not for the world, but for themselves!

So, why is it that there is no real effective opposition to such a world-changing, inhumane, evil conspiracy that is in the final stages of its prodigious plan to take control of the free world? The world, where most of mankind has had the liberty, and opportunities to pursue fulfilling lives of family, career, social relationships and activities, plus participation in civic and national responsibilities, and various afforded pleasures in a free, bountiful country.

I haven't yet explained the underlying mystery which I alluded to as the main factor in the NWO movement's development. From the human side it is an elite international operation of human greed, wealth and power--and planned tyrannical control to completely subjugate the common inhabitants of the world.

Or, as the falsely esteemed Henry Kissinger called most of the world, "useless eaters" (or, excessive consumers of the world's resources), and who Hillary Clinton referred to in her presidential campaign, as a "basket of deplorables". Which was probably an inadvertent remark, showing her neophyte "elitism". The term deplorables, is a eugenics lower class equivalent label to Kissingers' "useless eaters". Eugenics is the science of improving the human population, by selective breeding, to increase the

occurrence of heritable superior characteristics; the idea or practice of which fell into disfavor after perversion of its doctrine by the Nazis.

But, there is no adequate explanation for why the United States succumbed to the treaty terms that legally signed our country over to the United Nations, leaving us with the status of a virtually powerless, interdependent, slave nation, subject to the conditions and demands of the U.N. Charter, and the dictatorial power of its ruling Security Council.

As I have commented on before, in related articles, there are paranormal, supernatural powers at work in the universe that mankind is subject to, which no natural source can explain. The authorized scriptures explain the fact that there is a divine, infinitely powerful being, who is both a holy and righteous God, and administrative creator of the universe.

Everyone, and everything is under His control, and subject to His will in every aspect. Nothing can happen that He either does not cause, or permit to happen, according to His purposes, and absolute control.

The one other extreme supernatural being is Satan, who was an exalted angel in heaven, under and subject to God, who rose up against God, and declared that "he would become like the Most High, and establish his kingdom on the earth". For which sin against God, he was banished from Heaven, and became involved in Adam and Eve's lives as a tempter and other evil influence.

Under the "law of sin and death" pronounced by God, after Adam and Eve's commission of original sin, God relegated Satan to be the ruler over those who are subject to judgmental conditions established as earthly punishments for fallen man. Satan, therefore, in his control over natural, unregenerate man, has great, but limited power, always subject to God's will and control.

Most people acknowledge the fact there is a combat between, good and evil, which is essentially between God and Satan. In that context, the behavior of those connected with the NWO conspiracy is only explainable as a supernatural effect, not merely abnormal human actions. The **war-advocating neoconservative mentality** (the preoccupation of which began with Irving Kristol, and others) that has been so successful in furthering the NWO cause, cannot be easily detected in many people who are talk show hosts, government officials, and position holders, plus many dignitaries, and politicians who are often in the news.

But, as we should be aware, it is seldom that the NWO subject is brought up, or discussed during guest inquiries, interviews, debates and public speeches and conferences! So, if the devil can keep that many people relatively quiet about the issue, there should be no doubt that he can control how most people subject to him act in any given matter.

Which is a consequence of Adam disobeying God's command "not to eat of the forbidden fruit". In the "UN Charter Commentary" on my website, I have analyzed the Charter, spelling out what the obscure, misleading document really means, using

editing inserts. What else but some overriding mind control can explain why the UN Charter cannot be seen through, for its subtle double talk and anti-American implications?

Back to the elusive subject of the NWO conspiracy, and the actions of its participants: Constitutional treason, technically, is the crime of betraying one's country; especially by **attempting to kill the sovereign, or overthrow the government.** Also, adhering to the enemy, by giving them aid and comfort.

Synonyms for the word "treason" are: lese-majesty - disloyalty - betrayal - faithlessness - perfidy - duplicity - infidelity - sedition - subversion - mutiny - rebellion.

While it might be difficult to prove in a court of law, the ultimate purpose and desired effect of the NWO conspiracy machinations, is to legally overthrow the distinguishing ideal characteristics of national government, which are its **sovereignty, its independence, its security, its national and personal freedom, its economy and industry, and the opportunities for its citizens to pursue and attain occupational skills and careers.**

There are two points to be realized regarding the NWO declared objectives of establishing a global system to maintain world peace and security, that give away the truth of the real reason for the movement. (1) If the purpose is to act as the official organization to aid, assist, and settle national and international problems, and disputes, and (2) to provide maximum security to member states (actually the entire world, per Charter language) then, why wouldn't the idea be a proposal that if

favorable and feasible, would sell itself on its "merits", and not instead require secretive operation to cover up its real privately avowed elitist goal?

The other thing which shows the complicity of our national signatories of the US/UN treaty as to the treasonous effect of the event, is the guilt of the purpose which was to legally overthrow our government! They were not credible constitutionalists, and the sedition act violated their oaths to serve our country, and obey the laws of the Constitution. And synonyms for treason that I listed, clearly incriminate those traitorous individuals involved in what constituted **the great American "sellout"!**

And, there were, and are an untold number of "turncoats" occupying positions throughout our government, and nation at large, that you can be sure our founding fathers, and loyal Constitutional Congress, and administration would have exposed and taken proper action to either reprimand, prosecute, and cast out as the "scoundrels", which they would have called them!

In a speech before Congress in 1991, George H.W. Bush, a key perpetrator of the NWO/UN movement--proudly speaking about the plans being carried out for **the 'future establishment of the UN global empire'**--commented to Sue McLendon, official White House Secretary, that "If the people knew what we have done, they would run us out, and chase us down the street". Which, shows his disloyalty, independent arrogance, and dereliction of his sworn responsibility to serve the nation's Constitutional interests.

Former CIA Director William Casey, commenting on controlling the media, said "We'll know our disinformation program is complete, **when everything the American people believe, is false**". You can be sure that those government figures never wanted those subversive comments to get out to the public! Also, that not much negative reaction, was reported among their peers, or personnel in general. Apparently, leaks weren't in style, like they are today! Yet, nothing so far prevents Satan from holding the **"sword of Damocles"** over our heads!

A. The U. S. Civil War

The war between the North and South was a dark period in American history! There were multiple factors affecting the conflict, but most analysts agree on the slavery issue as being the main cause. The first mistake was bringing slaves into this country from Africa, in 1619, 250 years before the Civil War.

The various issues contributing to the Civil War were:

1. **States Rights**. Pitting State laws against the notion of federal sovereignty, and proposed breaking up of the U. S. nation into North and South regions.
2. **Slavery in America**. Human bondage. On the basis of equal, natural human rights nothing justifies the enslavement by one human being of another; not economics, or anything else, ever! The cotton growing success perpetuated and multiplied the slave population, which in reaction to Northern opposition led to secession by the South, and heavy tariffing by the Federal government, which was justified to correct import inequities with

national production costs.

3. **The Abolition Movement.** Notable leaders: Frederick Douglass (escaped slave), John Brown, Harriet Tubman. The movement was increasingly prominent in Northern churches, and politics, beginning in the 1830s. They were for immediate emancipation of slaves, and the end of racial discrimination, and segregation.

FALSE FLAGS OF WAR

B. The Spanish/American War

The Spanish-American War began after the **internal explosion** of the *USS Maine* in Havana, Cuba in 1897. The cause was never determined whether from mine detonation alone, or a planted explosion, which was suspected because the ship sank in such a short time. This event led to U. S. intervention in the Cuban War of independence.

American acquisition of Spain's Pacific possessions led to its involvement in the Philippian Revolution, and ultimately in the Philippine-American War. The U. S. involvement in the Spanish and Philippine wars was motivated by U. S. interventionism, and further enticed by interest in Philippine resources of gold, silver, base metals, and other minerals, building materials, and cheap labor to extract the resources.

Like most other wars involving our country, as well as others, they could have been avoided, or not planned in the first place. But, they relate to the basic international faults of greed,

envy, and lust for wealth and power.

C. World War 1.

Causes of the War: "Britain, which had enjoyed naval superiority since 1815, was threatened by German industrial competition and monopolization of North Atlantic shipping. Germany was also rich from its industries, especially steel. The British nation had become industrially, and economically inefficient and war poor, and colonially over extended.

Oil greed generates war! "International banksters in London, and New York quickly recognized that control of petroleum was essential to power and profit," In 1885, German engineer Gottlieb Daimler, used petroleum to 'drive a road vehicle'." He was the inventor of the first high speed internal combustion engine, and produced the Mercedes automobile.

Looking ahead, on the subject of the century of oil wars, Kissinger (a typical elitist) referred to military men as "dumb, stupid animals to be used as pawns for foreign policy." And, we "honored" him by Nixon naming him Sec. of State, from 1973-1977, and was National Security Advisor from 1969-73. Kissinger is also strongly socialist-minded. Who cared? He is "only" a Zionist Jew, and a definite NWO advocate and operative! Isn't that enough to do something about? It is one of many similar mysteries in our country's history.

Other things that contributed to WW1, was (1) the assassination of Franz Ferdinand, Heir-apparent of Austria, and his

wife. Britain was said to have entered the war to protect Austrian, and Belgian neutrality. (2) The sinking of the "Lusitania", by a German submarine, circumstantially seen as pre-staged by Britain, to draw the U. S. into the war.

D. World War 2.

Various prominent figures such as Eleanor Roosevelt, Wendell Willkie, George Field and others founded Freedom House, a CFR (Council on Foreign Relations) front in Oct., 1941. FDR encouraged the group's covert propaganda activities as he hoped it would persuade U. S. citizens to accept entry into WW2. Freedom House was also instrumental in facilitating and supporting post-war policies like the Marshall Plan, NATO, and the United Nations.

The Marshall Plan transferred U. S. tax dollars into the hands of the elite, camouflaged as a humanitarian effort. U. S. taxpayers rebuilt bombed-out foreign countries with the stipulation that the money be spent with banker-backed U. S. companies, who raised prices for those foreign countries"

"The U. S. embargoed Japan, which depended on imports, to provoke a military response. What right did the U. S. have to impose shipping restrictions on another nation? None! But, that is what expansionists do, if they can get away with it! Churchill and Roosevelt, whose governments had broken the Japanese communication codes, then monitored the progress of Japan's (retaliatory) military expedition to Pearl Harbor, where unwary (unalerted) military personnel, 2402 people ("live bait", per

Churchill's term) were killed on Dec. 7, 1941."

"After Japan's attack, the media (and other countries) vilified and dehumanized them." Roosevelt's speech characterized the attack as a "day of infamy", when in truth, the "false flag" decision of FDR and Churchill provoking Japan was the real day of infamy. Continued repeated atrocity stories were employed by the U. S. to "prove" that the enemy was evil and had to be eliminated.

We (the U. S. government) drafted the UN Charter, a document which displaced the U. S. Constitution. U. S. Senators voted to accept the Charter, without even viewing a copy! They were not authorized to bind U. S. citizens, without their consent. Sec. Dulles claimed that "Treaty law can override the Constitution. Treaties can take powers away from Congress, and give them to the President". But, only if Congress ratifies the treaty! Incidentally, it is the same basis as free trade agreements with other countries, wherein authority is shared with them, as an organization that operates separately from U. S. independent, unilateral control.

CIA activities include psychological warfare/military training, as one of the agency's greatest propaganda triumphs. It has various other intelligence programs, but because of its delegated powers and position, it became increasingly active in the international sphere of big corporate business, to the extent of being its main function. It could well stand for Commercial Interests of America. Truman and Eisenhower mobilized propaganda as an official peacetime and war practice.

E. The Korean War.

On June 25, 1950 the Korean War began, between the North and South. It was the first military action of the Cold War. By July, American troops had entered the war on South Korea's behalf.

To American officials, it was a war against international communism itself. "Unlike World War 2, and Vietnam, the Korean War did not get much media attention in the United States.

The North Korean invasion came as an alarming surprise to American officials. Many feared it was the first step in a communist campaign to take over the world. A National Security Council recommended that the U. S. use military force to "contain" communist expansionism anywhere it seemed to be occurring.

"The fight on the Korean peninsula was a symbol of the global struggle between east and west, good and evil." It was a comparatively short war, but exceptionally bloody, and frustrating. Nearly 5 million people died. The **civilian casualties** were higher than WW2, and Viet Nam's. How is that justified? It is not! Almost 40,000 Americans died in action, and more than 100,000 were wounded. In 1953, the U. S., China, North and South Korea agreed to an armistice.

F. The Viet Nam War

Factors involved in Viet Nam and Iraq wars. Neither one was a threat to our national security. The invasion of Viet Nam was

deliberate and calculated.. Genocide strategies, and chemical warfare were unnecessarily and cruelly used to force millions of people from their homes. Agent Orange banned in the U. S., was used to change the generic, and environmental order.

The disingenuous claim that we enter into war with other nations to "promote democracy" for the people is a "false front" for US/UN intervention and control of nations of the world, not to facilitate "peace and security" for them, that they claim, but to make them subject to the real purpose of furthering UN hegemony, under the self-serving, utopian goal of global control by an elitist cabal of megalomaniacal, tyrannical rulers.

"Our leaders are pushing this great country (the U. S.) toward impoverishment and slavery within the United Nations." See my critical editing of the UN Charter. "The UN is the real axis of evil", and those who promote its malevolent existence and growth, are the authentic and very sinister enemies." And, sad to say, many of our officials and representatives are among the unpatriotic, subversive signers of the 1945 treaty, which sold us out, to international socialism (actually communism).

As for Viet Nam, the intended communization of South Viet Nam, was the reason for the civil conflict between the North aggressors and the peaceful South Viet Nam government. The North Viet Nam communist regime, was pitted against the non-communist South Vietnamese, to overthrow it, and unite all of Viet Nam as a communist state.

The U. S. national interest was to assist the South Vietnamese,

to help resist the international threat of a worldwide communist takeover! But, the overriding purpose of the **one world government conspiracy movement** was the ultimate cause of the war!

G. The Iraq War

The old saying that "people believe what they want to believe", for some ulterior reason, is nowhere more clearly demonstrated than in the government's "investigative finding" of blaming Islamic terrorism for the World Trade Center destructive catastrophe on 9/11/01.

But, the fully incriminating evidence is, in itself, overwhelmingly conclusive, plus being fully corroborated by expert scientific analysis and testimony, that the U. S. government investigative Commission report is literally impossible to believe. For example, unanimous agreement between 50 of the world's top physicists, who said that (1) it is impossible for fire to destroy a steel supported building!. In fact, there has never been a steel framed building that collapsed from fire. (2) the steel columns were cut in place by a substance called "thermolite", which can cut through steel like a knife through butter. They were conveniently cut in 30 ft. lengths, the demolition disposal truck body lengths! (3) the columns were loaded and hauled away illegally, and shipped to China, before the required forensic examination could be made.

Nothing else has to be said to disprove the claim that the destruction was caused by fire, but there is a list of other

government report claims for which it is incontrovertibly clear that only a meticulous, professionally designed and executed interior demolition plan, could accomplish such perfect destruction! Only the United States had the access, and expertise to carry out such an elaborate plan. Please read my "WTC Tragedy" commentary, in my website "The Literal Truth", for full details.

If indeed, which is a proven fact, that our government officials, deliberately staged that awful tragedy, as another unconscionable ploy to advance the New World Order conspiracy, what does it say about our "trusted" leaders? That they violated their Constitutional oaths, and betrayed their representative responsibility to the American people, which in a word means that they were, and are traitors!!

In other words they sold out their country and, yet they are allowed to keep on abusing their privileges, and either often ignoring, or double-crossing their constituency--even lauded after their terms ended, or in death, as faithful servants who loved their country.

Graphically put, how could the same man (President) who gave the order to attack the Islamic terrorists, in retaliation(?) first in Afghanistan, and then In Iraq, also to find and kill Osama Bin Laden--and then, put his arm around the Fire Chief, as televised to the world, in feigned sympathy and compassion for the victims of the catastrophe, for which he was cruelly responsible? No guilt or repentance was shown, nor has it been since, by any of the

perpetrators!

What other narrative can dispute that inhumane act, and the terrible consequences of loss of life, and disabling injuries of propagandized, innocent military and civilian people, on both sides of the unjustified US/UN caused conflict?

There are powerful forces at work, internationally, both human and supernatural throughout history!. All the wars cited in this commentary, except the U. S. Revolutionary, and Civil Wars were **offensive, not defensive**, by the perpetrators. The methodology is the same. Whatever target country is the focus of the conspiracy, the US/UN procedure is the same: (1) Propagandize the citizens with lies about an enemy threat of war, (2) start a war, or intervene in a national conflict, (3) finance it by a central bank, (4) impoverishing the country of its wealth, and valuable resources.

Having thereby overthrown the regime, the country becomes indebted to the central bank for war loans, disabling their industrial productivity, and other profitable economic enterprises. The country, therefore, becomes a captive UN slave member nation, having lost its sovereignty, independence, freedom, and self-sustaining economy, and instead being forced to endure a servile education, or worker training system to meet the material requirements of the elitist New World Order rulers and their minions. Read UN Agenda 21 to remove any doubts about the malicious elitist conspirators' ultimate plans.

And even so, the tyrants don't know that they are serving

Satan, who is carrying out his threat to God, of establishing his "kingdom on earth." Which, will end with his defeat by the Lord, and eternal judgment to follow, at God's appointed time.

How many puppet-like Presidents can you name (or should be able to), for six of the unjustifiable wars noted herein, who have sent, or caused men to die for the camouflaged purpose of furthering the one world government movement? Who, no matter how much good that can be cited for them, ought to be prosecuted, and stigmatized for the shameful legacy they created for themselves, and the dishonorable, unpatriotic, traitorous effect it has had upon our country!

I believe that President Trump, and some of his administration, are more for nationalism than globalism, and are aligned with Constitutional principles and guidelines. Yet, they do not indicate an awareness, or concern that the wording of the UN Charter binds the U. S. to its requirements, legally overriding our Constitution! Nor, do they realize (which is hard to believe) that in signing the UN/US treaty in 1945, we surrendered our national sovereignty, independence, and freedoms. Which makes us a slave nation member, powerless, and at the mercy of the UN Security Council for all future national needs and desires.

While the UN hasn't taken official control of our country yet, it may well be that they fear an uprising or revolution, because U. S. citizens have the 2nd Amendment right to bear arms, for defense against government tyranny. The UN has declared that they will establish control of the USA in 2025!

Pray that the President and his administration, and Congress will become aware of this impending national crisis, and mobilize against it, and withdraw entirely from the terrible trap of UN membership, and take back our country from the control of the UN/NWO elitist conspirators, before it could become virtually impossible to do.
