## Coronavirus Commentary

Reference to John Scott, Sociologist, Website Article

"Viruses are very specific protein structures in the body, whose primary function is to dissolve and discard dead toxic refuse from cells! A virus is not a living organism! The presence of a virus does not mean it is the cause of an illness!" In fact, it cannot be the cause of an illness or disease!

A virus lacks the ability to replicate on its own. It requires the assistance of a host cell, in order to borrow enzymes and other molecules to concoct more viruses.

No clinical virological research since 1933 has been able to demonstrate or prove a link between a virus and contagion. NOT ONE! The coronavirus, Covid 19, is not contagious! There is no physical disease caused by it! Coughing, sneezing, and spitting is not a vector for the transmission of viruses!

In addition to chemical cause, the sickness is the result of a toxic reaction to an emotion of fear, including worry, negative feelings, sentiment, etc. Emotion is a natural instinctive (or intuitive) state of mind deriving from one's circumstances, mood, or relationships with others. Dict., Wikipedia (?). It is a biological state, associated with the nervous system. Fear can create a toxic mental and physical condition that must be avoided, or overcome.

The symptoms, or effects would be the same for any

emotionally caused illness, because the Covid-19 virus is not contagious, any more than any other fear-based, or toxic sickness! Therefore, the hoax is a misdiagnosed, falsely identified ailment, or illness, that is purposely used to obfuscate or distract attention from the main objective, the **One World Government conspiracy movement.**

The only way viruses can be used as biological weapons is via **vaccine injection**, period! And, in case you don't know it, or suspect it, that is the major factor in the One World Government depopulation game plan! And, the No. 1 computer role player in the nefarious scheme, you might guess is Bill Gates, the complex electronics maven, who has been working on the conspiracy plan for years. Read a detailed account of his traitorous background, and subversive activity, in the "John Scott consciousness" blog cited at the top of this commentary.

The current pandemic psychosis serves to ramp up fear in the population, and is instrumental in drawing attention away from the underlying agenda--that of the instigation of the One World Government order, and of Transhumanism. The latter belief or theory holds that the human race can evolve beyond its current physical and mental limitations, especially by means of science and technology!

On the subject, again, of vaccines, there has never been one made that could affect coronaviruses! Though, it has been tried ever since 2003! Hundreds of doctors, in their documentaries, have stated that **vaccines are not safe, or effective!**

Vaccine induced immunity is a medical "science" attempt to cure coronavirus. But, viruses are 100% ORGANIC, and as such alone can be of no harm to the body! The Germ Theory (per Louis Pasteur) has continued to dominate virology, unscientifically, for the last 160 years. "Fear is the contagion, the emotional effect of toxicity in the body! And, rational thinking is the first casualty of an epidemic of fear."

"When the accumulation of industrially contaminated waste is so great, and can't use microbes, then the cells make solvents, or enzymes which we will call soap to do that (cleanse ourselves), which are viruses we call flu". Ajonus Vanderplanitz.

Hypothetical statement, per John Scott: "I am Covid-19". "I am the cure, not the disease". Microbes and fungi host their own novel viruses. You would be dead without them! Natural cleansing is with bacteria, but when we are so toxic that the bacteria are poisoned by the tissue from chemical inundation, then we have to make solvents. Each cell makes a solvent.

The quarantine restriction superficially established to keep the virus from spreading, is a highly suspect part of the plan, which is employed to interfere with and endanger the health and welfare of national citizens, and the related institutions of the economy: employment, education, shopping, dining, entertainment. and other normal activities and freedoms.

An honest, accurate assessment of the morbidity, and mortality rates of the Covid-19 virus does not show critical numbers of cases, or deaths. In fact, the reported statistics are

greatly exaggerated. They primarily only apply to the older vulnerable citizens, especially those with underlying serious health problems.

What, then, is the cause of alarm, and extreme reactions to "prevent" a serious spread of the virus "pandemic"? Certainly the results of "reported" positive cases of Covid-19 (catch a cold, and you're an automatic statistic) does not warrant the restrictive steps of precautionary prevention and containment that has been advised and ordered.

Would it not serve as a diversion of attention and continuance of undercover conspiratorial acts of the One World Government movement, including the plan of radical depopulation by acts of genocide? See Agenda 21 of the U.N. Zionist Jews, megalomaniacal, world control, utopian plan.

Other supporting information to corroborate John Scott material: per the website "Bernician Voluntary Association/Trust".

Article: "The Deception of Virology and Vaccines/why Coronavirus is not Contagious! Posted on 25 March 2020 by the Bernician.

"The above article is taken from Jeff's book, the Age of Deception. Published with the author's permission".

"Having received the essential anonymous post on the true nature of viruses and virology, by email, I felt compelled to re-post it in this blog, given that it nails to the mast the fraudulent claims

being used to justify the indefensible" pandemic.

A Summary of the Elements of Genocidal Pandemic Fraud:

"Vaccination is propped up by the entirety of virology and vaccine pseudo-science, predicated on one thing--that viruses are infectious agents that cause disease".

"Viruses are not living organisms".

"Viruses are not contagious".

"The observation of cell cultures/petri-dish environments, is inherently flawed. Phagocytosis is a process whereby cellular debris and dead and dying tissue are absorbed and discarded for elimination out of the body".

"It is bacteria that first and foremost carry out this process in large part--mainly as scavengers".

"Toxicity sources:

Environmental

Pollution

Chemical Inundation

Poor Air Quality

Poor Water Quality

Poor Food Quality

Nutritional Deficiencies

Wrong Combination, or Choice of Foods

Medical Treatment, such as antibiotics and medications"

"When a body has a high degree of toxicity, bacteria feeding

upon that toxic dead matter and tissue will be poisoned to death. At that point, the body (cells) will call upon the help of viruses--non-living protein solvents--to help cleanse itself of the toxic waste, to be expelled via mucous membranes, out through the skin, or through the intestinal tract."

The effects of the process of detoxification "are the symptoms experienced in cold or flu". But, the resulting ailments or illnesses are not caused by any external contagion, because there isn't any! Again, the cause is internal by ingested toxicity, induced by the environment! When the detoxification process is complete, **the body becomes stronger (healthier)**, returning to a state of homeostasis.

"Coronavirus is a respiratory counteraction manufactured by cells in the lungs, and respiratory areas to cleanse themselves of systemic toxicity. Mild flu-like symptoms usually result, including coughing and fever, which initiates the cleansing and healing process."

"Additional Information from Category Archives Critical Thinking. Article: Scientists Proved Viruses are NOT Contagious. Documented by Arthur Firstenberg, a researcher, consultant and lecturer on the health and environmental effects of electromagnetic radiation, with 40 years of experience. The only experiments attempting to prove viruses are contagious, were carried out in the 1918 flu pandemic, and those experiments failed 100% of the time!"

"Moreover, the results of the experiments proved beyond

doubt that viruses are so NOT contagious, that they cannot be transferred from one human body to another, even if blood, snot from a flu-ridden nose, and thick phlegm from the sufferers throat are consumed by the recipient in large amounts." Can it get any more graphic than that? So, where is the modern intelligence on the subject?

"Germs cannot be the cause of disease". "Nature Cure", H. Lindlahr, M.D.

"There is more harm in the fear of germs, than in the germs themselves." Simon Louis Katzoff, M.D., 1921.

"The experiments also showed that vaccines do nothing good whatsoever." But, potentially can do much, even irreversible harm!

It has been proved to me that Covid-19 is a hoax, and a scam! So, why is that true analysis not evident to most Americans, and other nationalities as well? Actually, the low morbidity and mortality rates alone ought to be convincing enough that the case for its seriousness is ridiculously overstated, and contrived.

Would it not serve the purpose of a political coverup of the underlying One World Government conspiracy movement? Particularly, to further the radical, inhumane genocidal depopulation plan of the Zionist Jew worldwide conspiracy.

As for vaccines, it has long been established that none have ever been created that were effective as a cure for the flu! Again, then, in light of an illness no more serious than a common cold,

why else would there be any government program of restrictive living taken, in the first place?

I realize that most people don't know or believe that there are paranormal, extra-human, or supernatural causes for some things that exist, or have occurred in the world! When, they actually are the underlying answer to everything humanly unexplainable!

For example, there was no credible good enough reason for the U. S. to agree to become a member of the U. N. in the 1945 treaty signing. The only barely plausible explanation given was that the event took place shortly during the aftermath of excitement over the WW2 victory celebration. But, the total effect of the treaty act was a critically bad move for the U. S.

In fact, it defied any rational thinking for the U. S. to concede or risk the cost of national sovereignty and independence, in exchange for what was no more than a relatively powerless membership, under the autocratic terms and limits of the U. N. Charter.

In other words, ignorantly and irresponsibly, the U. S. technically and legally surrendered our Constitution by accepting the authority of the U. N. Charter Security Council, with nothing more than a slave relationship to its dominance and control. Which means, that we (America) existentially capitulated to the U. N. planned world takeover, scheduled for 2025!

While there is a provable lack of authenticity in the medical consensus of scientists and doctors behind the Covid-19

government protocols established to combat the so-called virus pandemic, there is real but limited availability of reliable public information, or scientific knowledge, on the subject.

For anyone interested in the truth of the matter, as noted before, I would refer you to two well-studied. and thoroughly presented website commentaries. One is titled John Scott consciousness, and the other is The Bernican.

Before I discovered those analyses, I had a lot of difficulty trying to determine the truth from the plethora of questionable information referred to in the TV news and info reports, etc. As with a lot of other selective science on various subjects, it bothered me that seemingly no one, other than the two works I cited, could give a scientific medically logical definition and explanation for the word "virus".

The assumption that the virus is a contagious dangerous threat to society. has led to misconceptions and organized confusion on the subject. The reason, whether ignorant and uninformed, or intentional obfuscation and deception for political or ideological purposes has had a deleterious, perhaps largely irreparable effect on the health, welfare, and state of the economy, education, industry, etc.

The evidence, to me, leads to the inescapable conclusion that the whole pandemic narrative is a scam. a fake scenario, and another disservice and betrayal of the public's reliance on the assumed trustworthiness of our government officials. When, in fact, it is just another case of propaganda, of which our

"esteemed" government has a long history!

Just today, an otherwise informed respected conservative news and opinion program host, referred to Covid-19 as a "highly communicable disease" from China, when it is a scientific fact as I have thoughtfully learned from reliable sources reported in this commentary, that it is not contagious, and has a relatively minor effect on the general population! Which should be self-evident in the reported news details of the overblown issue!

Or, as Shakespeare said, "It is much ado about nothing", but the ongoing effect on our country, is practically devastating! Case in point: even the suicide rate among teenagers has risen dramatically because of the effect of the confinement arbitrarily, and dangerously ordered, and imposed upon society! And, various other obvious serious negative results can be enumerated!

The sociological cost of the ridiculously unwarranted restrictions on the natural rights and freedoms of citizens is not only unConstitutionally wrong now, but undeniably threatening to the future wellbeing of the country!

We must react and rebel, by mobilizing against the government to put an end to their senseless, inhumane mishandling of this Covid-19 false pandemic. May God intervene and rescue us from this critical dilemma!
