### Double Lives of Government Figures

How can a national government, and other political, educational, and media associations who claim, or are assumed to be responsible constitutionalists, let known deviants pose as true, loyal Americans, and continually operate without exposure, and not being held to account for their unpatriotic, traitorous actions and affiliations? Particularly egregious are government officials who swore an oath to uphold the Constitution, and have continually violated that vow.

The founding fathers would have labeled them as "scoundrels", and directed Congress to undergo steps to have them prosecuted, according to their criminal actions. To name at least a few of the principal turncoats, past and present, most of which hide their globalist identities, and stealth involvement, they are, in no particular order:

George H. W. Bush, Franklin D. Roosevelt, Winston Churchill (accountable to Britain), Henry Kissinger, Bill Clinton, Zbigniew Brzezinsky, Dwight D. Eisenhower, Ronald Reagan, Jimmy Carter, Barack Obama, and George W. Bush.

There are, in addition, many other notable persons who are similarly chargeable for their New World Order advocacy, and active surreptitious participation in the global conspiracy! It has been accurately noted that "War is the enforcement mechanism of the UN/NWO.(one-world movement), especially "staged" wars.

Objective analysis of the cause of wars in the past two centuries bears that out!

Names and identification of some of their devious conduct is summarized as follows:

### **George H. W. Bush**

An active advocate and promoter of the NWO conspiracy, who was also a member of the Trilateral Commission, and Council of Foreign Relations, both organizations being purposely oriented to the one-world government plot. To cite an example of the elder Bush's devotion to the United Nations, which is synonymous with the development of the New World Order, the following excerpt is from a speech he made to the UN General Assembly in Sept. 1991. Why there wasn't much reported opposition to his diatribe is difficult to understand, until you realize how common government complicities and coverups are.

In a flowery speech falsely glorifying the UN and its services, Bush made the following specious statement: "Where institutions of freedom (socialist freedoms?) have lain dormant, the UN can offer them new life." What is the value of one communist system over another? When, in fact, and most member nations don't even realize it, they were better off as independent, sovereign nations before they were induced to join the UN.

Because, they unwittingly (Duh!) became **interdependent, slave nations**, without the right or power to participate in UN decision making. All consequential decisions are made by the UN Security Council, without participation in the administrative

process by any member nation. Besides making the disingenuous remark that, in effect, nations that are members escaped communism, Bush doesn't acknowledge the fact that the NWO/UN operates on the same autocratic, ruling ideology, i.e., communism of the highest order.

Then, to add insult to injury, Bush made the absurd false statement that "in our quest for a new world order, no nation must surrender one iota of its own sovereignty. And, then adds the provision of cooperative (read: forced) settlements of disputes, and unstinting belief in human rights. See UN directive No. 181 for details of the stark deprivations of human rights under the despotic, megalomaniacal UN/NWO regime, scheduled to become effective with their announced world takeover in 2025.

More empty rhetoric, from Bush, is this remark that "if we (the UN hierarchy) limit state power wisely (why should they?) it will free our people to make the best use of new ideas, inventions, and insights," Which contradicts the self-serving, utopian plans of the elitist world controllers, who would severely limit, or prevent opportunities for upward accomplishments and rewards for the subservient classes of world inhabitants.

Power-mongering communists do not want competition--intellectually, industrially, etc. Dictators don't share power! Whatever skills, or crafts are possessed by the common class are to be used for the service needs and desires of the NWO ruling cabal, and their selected minions.

Why does our government allow the infiltration, and provide a

stage, for development of people who plot against our traditional nationalist country, by working to promote the socialist, or communist takeover of our democratic republic institutions? The implications of the U. S. 1945 treaty sellout to the UN, are difficult to believe as being conscientious actions of the principal officials.

A UN action applying to the Gulf War, resulting from the 1945 treaty decision by their elite lawyers and agents, incorporated economic sanctions into the UN Charter, as a disciplinary policy in order to control, and/or punish nations that resist the globalists' agenda, and authority.

In Aug. 1990 the UN on behalf of well-connected corporations, imposed the longest running sanctions on Iraq, since Feb. 1962 against Cuba. After the destruction of the Iraqi infrastructure, and the accompanying pollution of the water supply, the UN Security Council then inflicted strict economic sanctions on Iraq, with Resolution 661, that continued until May, 2003.

Punitive sanctions critically restrict the import of the basic essentials needed to sustain life, which severely affects the most vulnerable in any society, the children; of which 500,000 perished during that deadly period. The sanctions predictably deindustrialized what remained of the country, now dependent on others for agricultural products. By the end of the war, Iraq had only four percent of its pre-war electricity. Bombs destroyed most of the infrastructure of key parts of Iraq.

Sewage was allowed to be poured into the Tigris River, and

thus causing deaths to thousands, who drank the polluted water. Diarrhea in children under five, occurred in epic proportions. Iraq agreed to a cease-fire in Feb., 1991. They had three weeks to withdraw their troops to within pre-invasion borders.

The U. S. accepted the entire proposal, and promised that American troops would not harm retreating Iraqi soldiers. However, Gen. Barry McCaffrey ordered the bombing of retreating Iraqi troops in a systematic massacre that lasted two days. Which was another typical lying and doublecrossing U. S. action contradicting promises and agreements with political and military opponents!

As I have commented on elsewhere, the seeming phenomenon of the U. S. capitulating to the U. N. world control conspiracy is only explainable as having a paranormal cause; that being a supernatural intervention of Satan, who in defiant opposition to God, is carrying out his threat to "be like the Most High", and build his evil kingdom, which he has been doing ever since his expulsion, for cause, from heaven! That was coupled with the fact of secret society swearing of oaths to worship and serve Satan, by certain traitorous signatory participants in the 1945 UN/US Charter agreement, which sold us "down the river".

A telling example of the elder Bush's underhanded, traitorous conduct, is the following comment he made to a secretary that "If the citizens knew what we are doing, they would run us out, and chase us down the street." Does that sound like a president whose career is worthy of national commemoration, or even

common respect? No, not even the misguided tacit approval of a headshake, or handshake!

### **Dwight D, Eisenhower**

For starters, on the basis of character, I believe Eisenhower was the most undeserving, shameful president in our history! No matter how much good he did for the country during WW2, part of his record as a commanding Army general deserves nothing but dishonor and defamation!. His cruel, inhumane mistreatment of German war prisoners, ranks right up there with other slaughterous miscreants--Stalin, Hitler, Saddam Hussein, and any other similar abusers of mankind. All of that condemnable record was as customary kept from exposure by the government, media, corporate and educational disloyal compatriots!

The more I read and learn of the governmental leadership's propagandizing, and selective management of news and government activities, the more I recognize that the only credible, honest, and patriotic loyalty that we can trust and be proud of is lived and died for by the regular, everyday true citizens of our country, who have not been corrupted by government, corporate, educational, and other unpatriotic organizations. That is not to discredit the many federal government employees who love their country, and do an honest day's work, and are to be commended.

Eisenhower's often-voiced, disparaging, hate filled, obsessed attitude toward the German soldiers was pointedly expressed by his familiar statement that "God, I hate those Germans." Rather than direct that bitter feeling to the government and military

leaders of the German Army, why would Gen. Eisenhower blame, or curse the conscripted or volunteer soldiers for doing what they were ordered to do, even as proud, patriotic German citizens?

{Eisenhower gave a speech in Paris, in Mar, 1945 asserting that the U. S. would **honor** the Geneva Convention with regard to humane treatment of prisoners, many captured as early as 1943. Within days of the Paris speech, Eisenhower, without **honor**, surreptitiously signed an order establishing a "deathly" D.E.F.(Disarmed Enemy Forces) vulnerable status for all prisoners, even those who voluntarily surrendered. The designation is illegal under international law, and completely contrary to the Geneva Convention.

By June 1943, there were between 4,000,000 to 5,000,000 prisoners under Eisenhower's jurisdiction--all with his illegal D.E.F. status. The barbed wire enclosed concentration camps in Germany lacked even the barest facilities found in other camps: barracks, laboratories, camp kitchens, infirmaries, and latrines. In the absence of latrines, crowded inmates standing almost shoulder to shoulder, by necessity often relieving themselves where they stood--in a growing quagmire of putrid mud.

Latrines (ditches) where available, were death traps for those who slipped. Food, water, and shelter, basic human necessities, were mostly unavailable in those camps, although there were sufficient resources available. Eisenhower often disobeyed his superiors' orders, and undercut the specific rations ordered, and other required services.

Those were American camps, supervised by Eisenhower, where thousands of ordinary soldiers, ignorant of their government's atrocities, ultimately starved and died, who instead of being victims of Eisenhower's vendetta, should have been released and allowed to go to their homes, like other countries prisoners were, after the war was ended.}

The last three bracketed paragraphs are mostly quotes from Deanna Spingola website researched articles on "Famine and Genocide."

Novelist James Barque wrote that nearly 1,000,000 German prisoners of war died of starvation or exposure. Trucks hauled away bodies! Red Cross inspectors were banned. Red Cross food aid was refused, as "unneeded" and returned. Building of shelters was forbidden. Soldiers were kept on short rations; seen by Barque as "a method of genocide".

Most all of the horrendous, inhumane mistreatment was intentionally kept from the media, so that the American public was unaware of the sordid reality of the immense cruelty of those camps. Eisenhower was seen only as a conquering hero, and went on to be a college president, and later national president, neither of which prestigious, honorable positions should ever have been available to such a dishonorable, wicked person who instead should have been prosecuted and punished for commission of horrible, savage war crimes against humanity!

### **Henry A. Kissinger**

Kissinger was Secretary of State, and National Security Advisor,

and foreign policy expert under Nixon, and Ford; a Nobel "Peace" Prize winner in 1973 (after the four year genocidal attacks on Cambodia, which he led), and also a major proponent of the global, NWO government conspiracy! "Condemned as a war criminal by journalists, political activists, and human rights lawyers," he had been heavily involved in eugenics, genocide, and various other depopulation methods.

A typical elitist snob, he put forth a depopulation plan, remarking that "Depopulation should be the highest priority of U. S. foreign policy towards the Third World." An example of a method discovered by Dr. Ignacio Chapela, a University of California microbiologist was that "Wild corn in remote parts of Mexico was contaminated with lab-altered DNA. Chapela revealed that spermicidal corn developed by a U. S. company was being tested in Mexico (in 2004). Males who unknowingly eat the corn, produce non-viable sperm--and are unable to reproduce."

"The Trial of Henry Kissinger", is a novel written by Christopher Hitchens, examining Kissinger's alleged war crimes. In the words of Hitchens, Kissinger deserved prosecution "for war crimes against humanity, and for offenses against common, or customary, or international law, including conspiracy to commit murder, kidnap, and torture." Tim Walker, of the Austin Chronicle, lauded Hitchens as a "brilliant polemicist, and a tireless reporter."

Kissinger is an obsessed, radical world depopulation fanatic, by various means, all equating to genocide. For example it was his

decision, which the government allowed, to decimate the inhabitants of Cambodia, that was carried on for about four years.

### **Franklin D. Roosevelt**

Despite his feigned "fireside chats" to the American people, FDR was like too many other presidents guilty of cruel, inhumane treatment of certain other country's inhabitants. For example, during the India famine in 1943-44, Roosevelt refused to authorize food assistance to India, or use any available American ships to transport food to India.

About 3,000,000 people perished in Bengal, a very deliberate genocide of 1943-44. Roosevelt and Stalin also agreed to toast the death of 50,000 German officers at the end of the war!

Prior to the Pearl Harbor attack, the United States had embargoed Japan, which totally depended on imports, in order to provoke a military response. Churchill and Roosevelt, whose governments had already broken the Japanese communication codes, then monitored the entire progress of Japan's military expedition all the way to Pearl Harbor.

Japan's attack on Dec. 7, 1941 killed unwary military personnel, more "live bait" (Churchill's term for those who perished in the deliberate sinking of the Lusitania, which totaled 2,402 people). Thereafter the media predictably vilified and dehumanized the Japanese.

The U. S. also had warships strategically placed throughout the South Pacific, to prevent Japan's hegemony over East Asia.

Though Roosevelt had pledged that **no act of the United States would help produce or promote war**, the plan to induce Japan to attack Pearl Harbor was purposely devised to create U. S. involvement in the European war. Typical power politics vs. moral principles.

Various Jewish organizations, exempted their people from fighting, and left it up to the U. S. and its allies to fight for them! It is to be noted that the great majority of Israelis are "Zionist" Jews, not the religious Judaist faction, who are not politically and commercially motivated to dominate the world, including by terrorism and other criminal actions! All of which relates to the surreptitious, underlying New World movement, of which Zionist Jews are the predominant players.

Roosevelt authorized Secretary of War, Henry Stimson to create a civilian agency, under the jurisdiction of the Federal Security Agency to supervise **biological warfare**, to include studies on immune-system-destroying agents, for the purpose of **depopulation**. An example of which, per statement of Dr. Robert Strecker, was that the Aids virus was man-made, for obvious purposes.

George Merck, owner of Merck Pharmaceutical, and a close advisor to F.D.R., was appointed director of the new War Research Service. Also, the Rockefellers lent their support to England's Eugenics Society by establishing the International Planned Parenthood Federation, in conjunction with the Eugenics Society. This formed a private global system, by which the elite could

choreograph an international holocaust, within the context of offering "humanitarian" services, all under the jurisdiction of the United Nations flag, the main Rockefeller front organization

The biological warfare project, at least for Third World countries to begin with, was to be done under the jurisdiction of the Federal Security Agency. Except for possibly John F. Kennedy, the other Presidents and many other officials were in agreement that world population is a critical problem that must be dealt with eventually, by reduction of as much as "seven" billion people, which is all spelled out in their plan documents.

If there were no other serious criticisms that could be levied against our government leaders, and their influential cohorts, that moral crime alone against humanity should have been sufficient to prosecute and remove them from office. A megalomaniacal lust for wealth and power, overrules normal morality and conscience, for man to be cruel and inhumane enough to carry out such extreme violence against fellow human beings, who have as much natural right to live, and enjoy their existence as anyone else.

### **Winston Churchill**

The U. S. Congress enacted legislation in Feb. 1944, authorizing the United Nations Relief and Rehabilitation Administration (UNRRA) to provide India with food relief. However, Churchill, to avoid condemnation and responsibility, consistently claimed that there was no Bengal famine. So, that the suffering and starving population did not receive the assistance they so desperately

needed. Nothing but abusive authority would deny the obvious reality of the Indian plight.

As stated for Roosevelt, Churchill was part of the plot to allow Japan to attack the U. S. base in Pearl Harbor, knowing of the Japanese intent beforehand. Which was another of various war causes staged by the U. S. and Britain for political, power-driven purposes, not for justified national defense reasons!

Referring back to a pre-WW1 incident, most Americans, a large percentage of which, were Germans, were neutral until propagandized by a barrage of German 'atrocities' stories through pamphlets produced by the U. S. government. The U. S. resisted the war, even after the devised Lusitania incident, May 7, 1915, when 785 out of 1,257 passengers perished, 128 of them Americans.

Several months before that ill-fated voyage, Winston Churchill, a Rothschild (NWO conspirator) minion, described the Lusitania as 45,000 tons of "live bait", apparently including ship weight. Were the 3,000 victims of the Rockefeller-built (by another NWO elitist planner) twin towers tragedy in Manhattan on Sept. 11, 2001, also "live bait", leading to yet another genocidal war? The answer is a scientifically provable yes, despite the government commission report lies blaming it on Al Qaeda (Islam), a literally impossible claim, and another U. S. "false flag" war cause!

### **Harry S. Truman**

Truman's decision to A-Bomb Hiroshima and Nagasaki, while at

least pragmatically supported by many military, governmental, and political figures, was also met with considerable disapproval and strong criticism on Christian moral, and humanitarian grounds. First off, on the latter basis, those Japanese cities were not military targets, but defenseless civilian populations, and properties, .no matter how that fact was misconstrued to try to justify the attacks.

Listen to what Truman's Chief of Staff, Ad. William Leahy wrote: "This use of the barbarous weapon at Hiroshima and Nagasaki was of no material assistance in our war against KJapan. My own feeling was that being the first to use it, we had adopted an ethical standard common to the barbarians of the Dark Ages. I was not to make war in that fashion."

Gen, MacArthur, Eisenhower, "Hap" Arnold, and Curtis LeMay reportedly felt the bombing of Hiroshima and Nagasaki was unnecessary. Pat Buchanan pointed out that "With Japan naked to our B-29s, her surface navy at the bottom of the Pacific, the home islands blockaded, what was the need to bomb at all?"

While Roosevelt contended that the Japanese bombing of the U. S. Fleet at Pearl Harbor was, "a day of infamy", the horrific slaughter by the A-Bomb attacks on the two Japanese cities were far more brutal, and inhumane! Especially, since the Dec. 7, 1941 assault on Pearl Harbor was purposely staged and facilitated by the U. S. to "justify" America's planned entrance into World War 2, to aid Britain in its losing battle with Germany, and Japan, its ally!

In further reference to which, the affair was another glaring example of the war-minded ideology of American "imperialistic intervention" against sovereign nations for ulterior self-serving purposes. Which cannot be ethically, or morally justified, as anything better than being an international "bully on the block". In other words, "might does not make right", nationally, or personally!

### **Barack Obama**

My website article, "The Obama Mystique Exposed", gives full treatment of his abysmal presidential service, but the following excerpt, and paraphrased additional comment are examples of the most impeachable presidential performance ever conducted by any President in our history.

"(National) failures to us, were successes to Obama, because they were calculated and executed according to his master plan of America's destruction, (1) by causing a massive national and international debt crisis, (2) burdensomely increasing taxes and regulations on industry (especially small businesses, the mainstay and backbone of free enterprise), (3) pushing the largely disincentivizing social and economic entitlement programs beyond sustainable limits, (4) motivating the phenomenon of the racist policy of affirmative action (as noted by Matt Patterson), (5) critically undermining military defense capability, (6) exacerbating the race situation, by allowing and condoning civil unrest, and unjustified protests, and outbreaks of color-based violence."

Only the racial color factor got Obama elected! A white

candidate with Obama's un-American background of (socialist/communistic) associations and activities, would have disqualified him from ever receiving his party's nomination! Obama could have been dumber than an ox, and the majority would have still voted for him. Actually, we wouldn't have been any worse off! He couldn't have stumbled through his job, as bad as he did on purpose!

Supplemental notes on "free trade negotiations and subsequent agreements":

Quotes from Deanna Spingola (Spingola Speaks) on free trade economics: "The products of the labor of its citizens determine a nation's prosperity. Free trade is detrimental to a nation's wealth."

Conversely, Henry Kissinger wrote in the L. A. Times about the prospective NAFTA treaty, "What Congress will have before it is not a conventional agreement, but the architecture of a new international system, a first step toward a New World Order."

NAFTA (North American Free Trade Agreement) negotiations began under President Reagan in 1986, and were formally signed into law under Pres. G. H. W. Bush, Canadian Prime Minister Mulroney, and Mexican Pres. Salinas. Clinton and Gore got Congressional approval of NAFTA. The treaty was supported by 132 Republicans, and 102 Democrats.

Newt Gingrich, per Deanna Spingola, is "Just another

internationalist, still masquerading as a constitutionalist." As Republican House Whip, he promised he could extract 132 votes for NAFTA, a treaty that Ian Fletcher (an economist) refers to as "a veritable case study in failure." "Pork barrel promises", that cost the taxpayers \$50 billion. As reported by Pat Buchanan, "The treaty led to large job losses, and huge trade deficits."

In summation of the effect of the various unfavorable, sometimes unconstitutional and criminal actions of some of our presidents, and other top officials in federal government for many decades now, their conduct has been unpatriotic, or treasonous, deserving of prosecution, and whose records should bear marks of infamy--not unmerited approval and distinction. While America has a lot to be proud of throughout its history, it also has much to be ashamed of, because the subversive actions of its internal enemies did more damage to the country than any of its foreign adversaries, real, imagined, or created!

But, because our government officials are such masters of deceit and coverup, many malevolent acts are not exposed, or otherwise known by the general public. Propaganda and lies are much-used tools of our typical self-important elitist, stuff-shirted federal hierarchy, i.e., NWO advocates and operatives! "Authoritarianism" practically rules the day in much of Washington bureaucracy, and political administration, despite all the rhetorical language used to deceive the public.

For a prime example, the truth of our government's involvement in globally planned genocidal acts of intentional

radical world depopulation, underlies much of U. S. stealth imperialistic, unjustified war-making throughout our nation's history. The main purpose of the deranged genocidal plan is, of course, to further the ultimate elitist goal of the New World Order, so that their minions can have possession and control (however logically unwieldy and unworkable) of an assumed controllable drastically reduced world population!

That is, the self-serving utopian wealth and power conspiracy, is nothing less than an intensely evil and tyrannical assault on humanity! There is obviously no fear of God in the perpetrators of such planned inhumane treatment of the "inferior" bulk of mankind. And the mastermind behind it all is Satan, building his evil kingdom according to script, who is the supernaturally powerful enemy of God, and all those who live for, and serve Him!

A simple observation by John Wayne encapsulates the impending travesty looming in the world today. He said that "If you put ten men in a room with a dollar apiece, eventually one s.o.b. would have it all." That, in terms of the NWO elitist cabal , is where most of mankind is headed, unless something intervenes and causes a mass resistance and possibly requiring armed uprising against it.

The crimes and misdemeanors of the presidents noted, and their official cohorts renders them unfit to be accorded national patriotism, and reputable careers. There were also serious disservices and unconstitutional actions that should be known or noted about Ronald Reagan, and George W. Bush, plus sexual

abuse acts and/or openly adulterous actions of John F. Kennedy, Lyndon Johnson, and Bill Clinton.

For a serious political matter, "President Reagan entered into agreement with Mikhail Gorbachev" in 1986, for the U. S. to institute the Soviet educational program called "workforce training", which though not fully implemented yet into our national school system, is a radically designed system that replaces our traditional academic education that gives students choice and opportunity for upwardly developing opportunities to achieve educational levels for whatever fields, or careers they desire.

Whereas, the "workforce training system" only prepares students to become skilled in jobs required to ultimately serve the specific needs and desires of the elitist ruling class of the planned world-controlling UN/NWO regime. Among things that George W. Bush did to hurt our country, was The Patriot Act, installing an invasive "security" system, that overrules and denies certain traditional liberties of American citizens. He (Bush) was (is) a "one world government" promoter, like his father and other unpatriotic, treasonous Presidents, and other high officials.

Almost the only true Americans who loved, and willingly fought for their country, were trusting citizens: husbands, and fathers who were propagandized by their "trusted" government, through compliant media and other means of false representation and reporting, to believe that the various contrived wars were defensively necessary. Only the revolutionary war against

England could rightly be classified as a justified defensive war! The practice of American "imperialism" has been the driving force of many of the government's international moves, often independent of congressional, and other required approval.

The dissolution of our federal government has been the historical process of wickedness in high places, and the reason for it is simply the failure to honor and follow the principles of the Constitution, which are embodied in the fundamental principle of "Consent of the governed". The designed vehicle for which is an established "representative republic", intended and specified to be the continual operating system of our national governance, and political process.

"Of the people, by the people, and for the people", should be the only justifiable grounds of any official act, or function administered or carried out by our specific form of government. In fact, it ought to be the considerate object of any governing regime! It was certainly the overriding intent, and organizing principle of the founding fathers of our Constitution. Which, no matter what laws or amendments might be incorporated into that rightfully decisive document, that fundamental requirement is "not to be violated".

But, as our history testifies, the ordained principle of determining the representative "will" of the people, has been flagrantly abused, ignored, and violated--to the detriment of our country's success and wellbeing! In fact, we have been increasingly corrupted by many deviant, and socialistic

developments making a mockery of our original capitalistic model administrative institutions and services.

All government authority, itself, ought to be delegated and controlled by the "will" of a responsible, conscientious citizenry! An applicable assessment, or evaluation should conclude that "we get the kind of government that we deserve". That is, we are each personally obligated to collectively ensure that our elected and appointed officials, officeholders, and staffs are performing their Constitutional required duties, and jobs.

The ballot box, responsibly utilized, is the ultimate means of endeavoring to assure necessary personal performances, as servants of the country. In the interim of assigned employment, if cooperation cannot be obtained, then "forced constraint" or any necessary legitimate alternative must be used. That is, whatever it takes "to get the job done"

Unfortunately, government ranks are occupied with many self-serving, unconstitutionally motivated persons so that it is largely corrupted and out of control. But since the election of President Trump, substantial efforts are being made to reform and improve various deficient and inefficient parts of our national government, that seriously need to be dismantled or reigned in, and corrected, to eventually be able to get back on the right track, of a responsible, efficient government structure.

Highlighting some of the serious faults, and actions of various Presidents, and other key officials, which the general public isn't informed and sufficiently aware of--because of high level deceit

and coverup, serves as specific exposure of the duplicitous conduct over much of our modern history, by some of those who were entrusted to Constitutionally lead and protect our country.

May it be, though not to be assumed as requisite upon God to do anything "deserved" by us, that He might intervene to help us get our country straightened out, and able to operate again as the sovereign, self-fulfilling nation (under God) that we once were.  
Amen!
