Unmasking of Alan Dershowitz
"Constitutional Law Scholar"

I haven't verified all my assumptions yet, but my suspicions appear quite certain that Professor Dershowitz is a New World Order conspiracy Zionist Jew activist, or advocate.

My first observation of that likely identification, was in reading his remarks about the cause of the 9/11 World Trade Center catastrophe. He completely agreed with the **9/11 Commission Report**, which claims that the "attack" was made by **Islamic terrorists** in a deliberately planned collision into WTC buildings, resulting in their complete destruction and collapse, which they report as building fires caused by the explosive impact of the planes slamming into the twin towers.

Another associated plane crashed into the Pentagon building in the nation's capital, plus a plane crash in a field in Pennsylvania. Whereas, the scientific account of the forensic analysis of the tragedy proved that the cause of the catastrophe established it to be a professional meticulously **planned demolition** of the two buildings involved.

And, if there was no other factor supporting the arranged demolition plan, one fact alone rules out the airplane crashes as the cause of the destruction of two of the towers in the WTC tragedy! That is, that 50 of the world's top physicists agree that it is impossible for fire to collapse a steel supported building, stating

it has never happened, nor could it!

And, even if it hypothetically did happen, the columns would not collapse in clean cut sections of uniform lengths, as occurred. In fact, the columns fell in sections fitting the capacity of the trucks which hauled them away the next morning for arranged shipment to China. Also it is noteworthy that the columns were disposed of illegally, before the required forensic investigation could be conducted.

Plus, obviously, the only way the columns could separate in specific lengths, would be by the use of a particular chemical (thermite) to cut through the columns (like a hot knife through butter)! And, since the planned demolition took weeks to prepare for, who could carry out the project? Who, but the government would have the resources, the motive, access and control to perpetrate such a radical detailed falsely motivated scheme?

The 9/11 Commission report was a **contrived account of the "false flag" occurrence**; as part of the surreptitious, more than two centuries of a worldwide conspiracy movement, organized and managed by a Jewish megalomaniacal cabal, intent upon gaining global wealth and power to establish a utopian goal of an elite, exclusive, self-serving empire.

Read **UN/NWO Agenda 21** for the full plan of a drastic, inhumane population reduction (genocide) and control to approximately 500 million from seven and a half billion current world inhabitants. Most of the final world population would be the common "deplorable", limited skill, trained people who are to

exist and function as servants of the ruling oligarchy.

A distinction must be made between the two classes of Jews in the world. (1) The **Zionist Jews**, who are non-religious, commercially driven, New World Order conspirators. Certain racial characteristics are: **ethnocentrism**, the belief that one's own ethnic group, nation, or culture is superior, and who are non-assimilating, condescending, exploitative, and terroristic, with a universal hatred of Gentiles. (2) The **Orthodox Remnant**, who are religious Jews, whom God has reserved to Himself, and are faithful to Him under the Mosaic law, and prophesied to have eventual spiritual conversion, and eternal life.

The other subject which Dershowitz pontificates about is the possibility of **mandatory mass vaccination** against the coronavirus pandemic, which he apparently recommends. Questioning his "scholarly" judgment on the subject, his rash pronouncement at least suggests that he thinks "progressively" about established conservative Constitutional perpetual authority.

In other words, he obviously appears to be more liberal in interpretation of Constitutional law, than conservative, like Obama, who speciously calls himself a Constitution teacher and scholar. Rather than striving to literally interpret and apply the Constitution, he and Dershowitz are **critical judges, and would-be revisers** of it!

Reflecting again on Dershowitz's supposed credentials of "objective" scholarly thinking; his ideological motivation is more than conjecturable. For example, his Zionist Jew identity

characterizes his opinion on the 9/11 World Trade Center tragedy! Believing, or pretending to believe, the 9/11 Commission Report of Islamic direct responsibility for the attack, **ties him into the UN/NWO conspiracy movement**, which promotes false "retaliatory" staged wars against Mideast countries, and elsewhere in the world.

Which action subsequently overcomes countries with war financing debt which they cannot repay, impoverishing them, resulting in the NWO central bank's ownership of the region. Thus, establishing another strategic base of operations for the eventual one-world tyrannical network, that they camouflage as peace and security for the world, which they neither primarily intend, nor could realistically accomplish!

Obsession with such a **megalomaniacal** plan, makes its principals flat-out deny the obvious evidence of the purposeful staging of a typical "false flag" war provocation. When an intentional outright lie ignores the truth of a matter, there is no moral explanation, or justification for the brazen fault of it. **Megalomania** is a psychotic mental disorder, which often motivates unrestrained compulsion to achieve amoral, greedy, power-mad desires at any possible cost!

That is how, or why there is no moral compunction of the advocates of elite global control of every aspect of NWO attainment, who would use any, even inhumane means to accomplish it! Again, read UN Agenda 21 for confirmation of that fact.

Dershowitz, who suggested the use of mandatory mass vaccination against the Covid-19 virus, true to form follows that psychotic, ideological mindset! Morally unprincipled recommendations and actions by people of national influence, ought to be probable cause to disqualify them from positions of trust! And, citizens who would submit to any such governmental dictatorial regimentation, don't deserve the God-given liberty that they would be surrendering.

In other words, in contrast, you don't stick a needle in me, unless I understandingly, and willingly permit it, which is a Constitutional prerequisite of "consent of the governed". And, that would be a direct, personally performed right and responsibility, not assumed to be an innate power of our representative republic form of democratic government.

Of course, Dershowitz is not in a minority group of people, professional or ordinary, who believe the government 9/11 Report to be true, in spite of the incontrovertible evidence to the contrary. And, even though the government has traditionally propagandized the public with coverups, outright lies, and various other deceptive practices, some of its "managed" news, and ruses have been so ridiculously concocted, as to be both implausible and impossible to be credible accounts of a multitude of historical government affairs, and actions.

And, even the matter at hand that actually happened, along with other notable cases, defies normal intelligence to such a preposterous extent, that the cause must relate to some external,

paranormal influence and control, of truly Biblical proportions. That is, that something either blocks, or overpowers natural cognitive ability to think and act logically and correctly! Unfortunately, the average person, learned or not, has no problem believing the fairy tale of the evolutionary theory of the cause of the universe's existence and nature, plus the origin and nature of man, animal, and plant life, etc., which contradicts the realities of nature, and the logic of the overwhelming evidence of supernatural creation--any example of which makes the cockeyed fantasy of evolution untenable and imaginary.

Because certain things happen that are unexplainable mysteries, doesn't mean that in the proper context, they don't have an explicit answer! In the annals of failed national affairs and actions, one stands out as the most consequential, potentially existential act of them all. That being the Congressional act of the 1945 signing of the treaty by which the U. S. subscribed to the U. N. Charter; making us an interdependent (nationally powerless) member of the UN world organization. Which, tersely put, means that we surrendered freedom for bondage!

The Senate vote approving the transaction was 89 to 2, followed by a majority House vote ratifying the capitulation. The effect of that decision was to give the UN Security Council technically complete authority over the U. S., replacing U. S. Constitutional law, and all other treaty obligations! Only the flimsy excuse of excitement over the recent end of war declarations by Japan, and Germany caused the short shrift of our UN Charter deliberations, and decisions to accept the agreement.

Gullibility, regarding the rationale offered, also being a conducive factor!

The selling points (uncertain questionable assurances) of "world peace and security" claims by the UN/NWO hierarchy, with its real covert goal of Zionist Jew elitist one-world control, was the true foreboding issue, that should have been a deterrent cause, to prevent the US/UN alliance, for any political purposes, which subjugated our country to binding NWO authority and control.

In simple, existential terms, we sold out to the evil plan of global control and domination of its inhabitants, property, and national and international affairs! Why would any government official, especially an overwhelming majority of national leaders capitulate to an organization dedicated to the highjacking, and conquest of the sovereign, independence and freedoms of the greatest and most successful nation on earth?

Thus, trading a unique democratic republic for a communistic, dictatorial system of tyranny and oppression of the masses, to meet the utopian, self-serving interests and desires of a Zionist Jew, world controlling oligarchic empire! It's like the owner of a fulfilling, successful farm, giving it away to become a sharecropper, dependent upon a highly restrictive new owner and master, for a minimal provision of needs and desires, or what would be the antithesis of the God-given natural free rights of "life, liberty, and the pursuit of happiness" available in the equality and opportunities of a Constitutional democratic

republic, which we have had the rewarding benefit of for over 200 years.

Whatever drove our elected leaders to "sell out" for an eventual life of slavery, and a "mess of pottage" defies rational, normal thinking and responsible actions required by our Constitutional operating principle of "consent of the governed". What else were their actions but a traitorous betrayal of sworn oaths to honorably serve their country?

The one "ace" that we still hold, to resist and overcome the NWO takeover, is our Second Amendment right to bear arms, but which is constantly threatened to be taken away from us! A mobilized citizenry show of force is not only a probable necessity, but possibly the only resort we have, except for hopeful divine intervention, to free us from NWO tyrannical control, and restore and preserve our precious, vital way of life!
