

PROFILE

Kyle is a remote capable, Dallas-based actor and director who's been in the audio industry since 2006. Right out of schooling at MediaTech Institute, Kyle started working at Funimation Entertainment in 2008. He was entrusted with handling AAA titles like One Piece as an ADR Engineer, but he quickly moved on to directing. Fire Force, Miss Kobayashi's Dragon Maid, and Fairy Tail's well-received dubs are all his babies!

Kyle did acting on the side in high school, but working at Funimation rekindled his passion for it. Almost immediately he got behind the mic to provide voices for some silly, dramatic, and villainous characters across hundreds of different shows!
