

The Stack Challenge

Open to all Measured Golf Members, The Stack Challenge is a speed-training program designed by the “Savant of Speed” Dr. Sasho MacKenzie. The program will run for approximately six months with the intent of helping all athletes increase their speed. The Stack System hardware will be made available by Measured Golf as long as access to the mobile app which you will download to your phone. In addition to custom tailoring a training program that meets your need, the app will also provide you with a training schedule and encourage you to keep going via the grit score that it produces.

As you complete your training, the progress will be uploaded to the Measured Golf leaderboard which will be featured at the facility. The athlete who gains the most speed (determined by an algorithm designed by Dr. Sasho MacKenzie) will be declared the winner by May 1, 2023. There will also be various other prizes distributed to other categories as well.

The competition begins on November 14th, 2023. For more information, or to sign-up for The Stack Challenge, please email info@measuredgolf.com.

1st Place
