

A close-up photograph of a person's face and hands splashing water. The person's hands are cupped over their face, and a large splash of water is captured mid-air, creating a dynamic and refreshing scene. The background is a bright, slightly blurred white, emphasizing the water and the person's skin.

BRING YOUR
WATER TO LIFE
WITH
WATERHEALERTM

WATERHEALER™ WATER CARE SYSTEM

ENJOY THE WATERHEALER™ FOR IMPROVED HEALTH

Balance of the minerals

Water contained with rich dissolved oxygen

WaterHealerTM Brings Your Water To Life

HEALING BY WATERHEALER™

Proven Principles of
WaterHealer created by Brownian motion
increases the vitality of water.

Characteristics of water through WaterHealer™

Activating Water Molecules

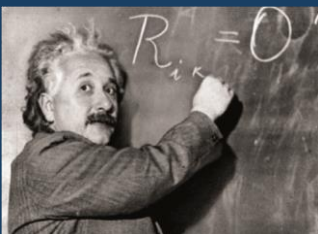

Water molecules
activated are quickly absorbed
by the human body

Activating mineral action

Essential nutrients such as sodium,
potassium, calcium and magnesium
are activated

Ionization of water molecules

Water will be ionized with
hydrogen ions and hydroxyl ions

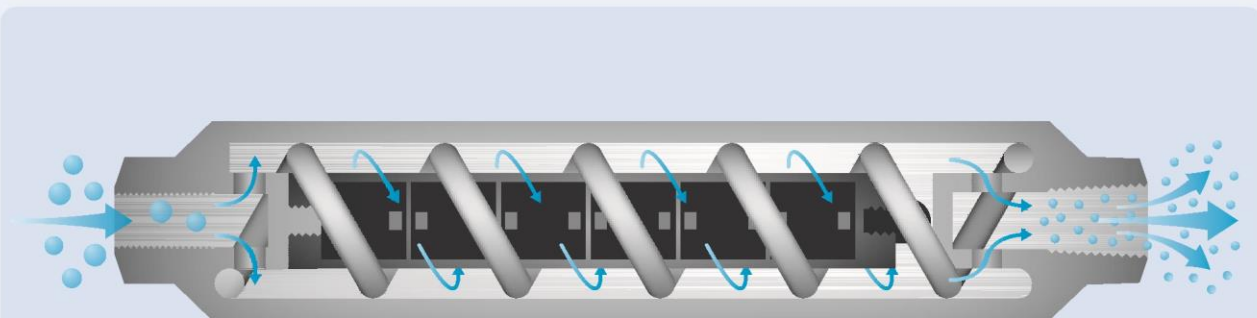

A phenomenon discovered by Robert Brown is the irregular movement of micro-particles moving in liquids or gases. Einstein scientifically proved Brown's movement, explaining the conviction of random motion of atoms or molecules. According to Einstein, irregular movements of atoms and molecules eventually affect each other and produce zigzag movements of all the particles. As the movement of the particles becomes active, it maximizes kinetic energy. WaterHealer maximizes the kinetic energy of water through this principle and increases the vitality of water.

1 Water when it meets the **3-Water Accelerator System** of WaterHealer™

3-Water Accelerator System

Each accelerator maximizes the kinetic energy of water to produce healthy water with excellent absorption rate.

Cross Section of WaterHealer™

Phase 1
Powerful
electromagnetic
force

Phase 3
Outlet to
maximize
vortex

Phase 2
Tornado
system

Phase 1 Powerful electromagnetic force

Promote the segmentation of water molecules with electromagnetic force that is 20,000 times higher than the Earth's magnetic field (average 0.5 Gauss)

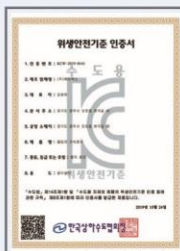

Phase 2 Tornado system

The Tornado Unit with four rotations maximizes kinetic energy of water by increasing the surface area of touches of water

Phase 3 Outlet to maximize vortex

When water erupts from watermax, with increased acceleration and kinetic energy, water is sprayed under high pressure to subdivide the tangle of water molecules and accelerate the kinetic energy of water.

The Certificates

〈Korea Certification mark〉

〈Trade Mark〉

〈Water Quality〉

〈BOD〉

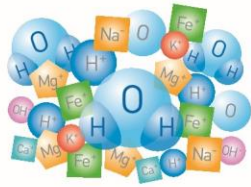

〈Mineral Test〉

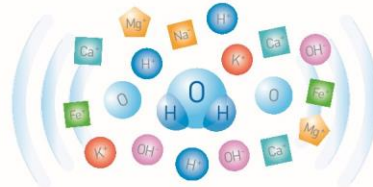

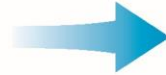

2 By dispersing water molecules, water cluster get smaller, while increasing water kinetic energy thus increasing absorption

Cluster

The water cluster is a group of water molecules, The smaller the cluster, the higher the absorption rate.

The clusters before WaterMax

The clusters after WaterMax

3 Activated water molecules make for a healthier water

Eliminate the harmful Oxygen

Detox Effects

Increase of immunity

4 Effects for living

Effects for living

Elimination of skin irritation and excellent moisturizing effect

Reducing the amount of detergent by improving the washing power of dishes and laundry

Reduces corrosion in water pipes and minimizes water scale

Total Water Care System By WaterHealer™

The Applications of WaterHealer™

Washing

Cooking

Cleaning &
Gardening

Drinking

The shape of installation

1 Easy installation

2 Long life cycle

3 Easy cleaning

for Health, for Healing, for Life

BETTER WATER, BETTER LIFE

WATERMAX Co.,Ltd.
43 HyungGok-Gil, Opo-Eup, Gwangju-City,
