**CAPABILITY
STATEMENT**

Explosive Ordnance

Planning | Design | Hazardous Areas | UXO

WHO ARE WE

At **OrdPro**, we are explosive ordnance (EO) professionals with decades of combined experience across complex infrastructure projects in Australia and abroad. Our team includes base armament managers, EO specialists and EOD technicians—some of whom have served within Australia's elite Special Forces.

What We Do

We provide end-to-end EO consulting services, including:

EO Facility Design, Siting, Master Planning, Technical Advisory & Policy Guidance

Recent projects across Australia and international regions.

Compliance with eDEOP101, AASTP-1, US DoD and more.

Siting & Risk Assessments

Strategic planning aligned with Defence EO regulations, policy and standards.

EO Hazardous Areas

Restricted Electrical Areas (**REA**) and Explosive Hazardous Areas (**EHA**) Classification, Design, Installation and Inspection.

Explosive Ordnance consultation, cooperation and coordination (**EO CCC**).

EO Licensing

EO Facility Decontamination

Decontamination of former EO facilities for demolition.

Let's Talk

Whether you're planning a new EO facility or need expert guidance on compliance and safety, OrdPro is your trusted partner.

Talk to the pros. Talk to OrdPro.

WHY CHOOSE US

Explosive Ordnance Expertise. Delivered with Precision.

Why Choose OrdPro?

Unmatched Technical Expertise

Precision, attention to detail, and up-to-date regulatory knowledge.

Leadership & Team Building

Strong planning, decision-making, and collaborative execution.

Client-Centric Approach

We understand the mission and deliver tailored, practical solutions.

Agile

Able to pivot quickly, without the need to talk to non-EO project managers who don't fully understand the operating environment.

Reach-back

We have partnered with the very best in EO compliance and technical expertise.

Elite Level Explosive Ordnance Background

Our consultants bring real-world operational insight.

Leadership You Can Count On

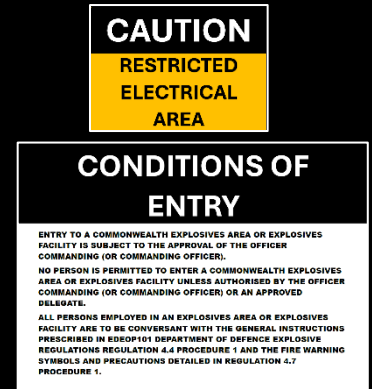

We lead with clarity, plan with precision, and build high-performing teams that deliver under pressure.

Products

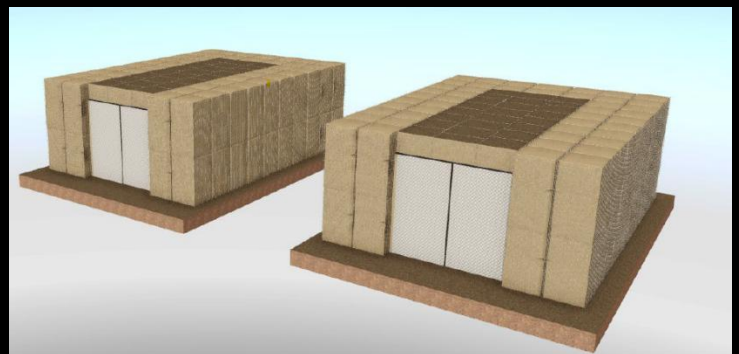

Explosive Ordnance Signage

- Symbols Indicating Fire Hazards of Explosives
- Prohibited Articles
- Conditions of Entry
- EHA/REA Signage

Explosive Storage Solutions

- Ammotainer® – Deployable Protected Storage
- Small Quantity Facilities

Nordic Shield Group

OrdPro is Australia's agent for NSG products

NSG offers Scalable and modular blast rated physical protection

- Protected Personnel Shelters
- Protected Containers
- Security Storage
- Ammunition Storage
- Concrete Buildings

NORDIC SHIELD GROUP

**WE PROTECT PEOPLE
AND ESSENTIAL INFRASTRUCTURE**

THIS IS NSG

We develop, manufacture and construct high-security buildings in Swedish concrete and Swedish steel – together with the market's most proven materials, technology and suppliers.

We deliver solutions that withstand the most extreme stresses, so that you as a customer receive a product with maximum security and quality.

Our mission is to provide authorities, companies and societal functions with firstclass protection solutions, adapted for today's and tomorrow's threat environments.

CONCRETE BUILDINGS

Swedish concrete and Swedish steel

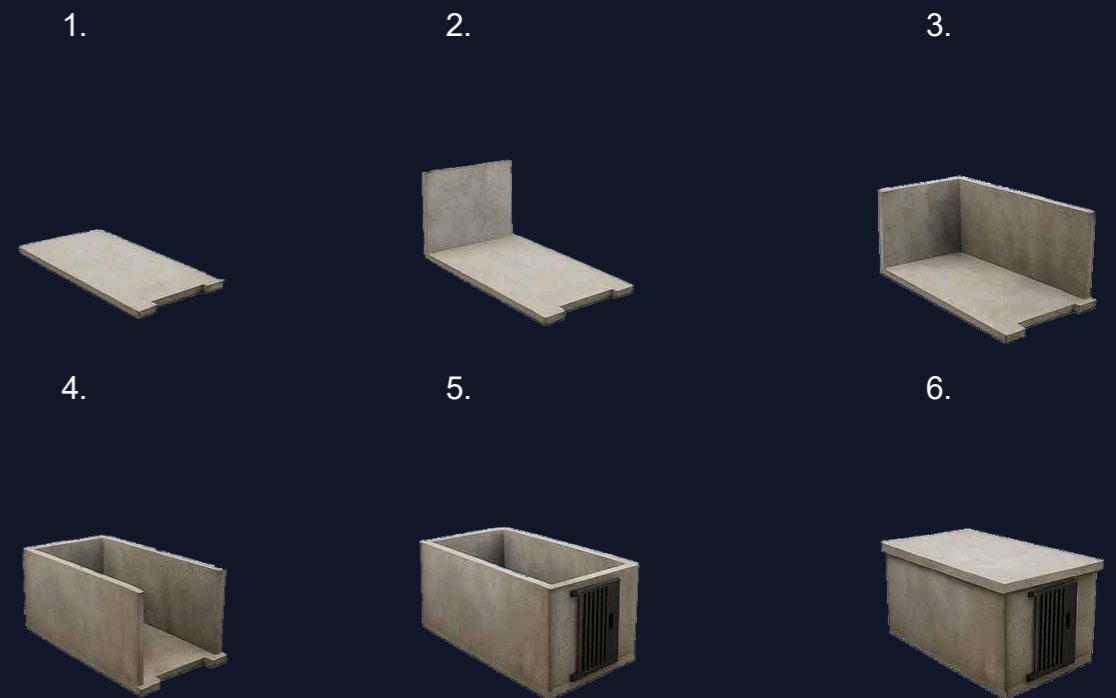

WHEN PHYSICAL SECURITY REALLY MATTERS

NSG offers scalable and modular physical protection. Our solutions meet protection class Grade VI (SS-EN 1143-1), *or higher*, and can be built bulletproof up to FB7 (EN1522). All according to Swedish authorities requirements for physical IT security and international standards.

STORE FOR WEAPONS, AMMUNITION AND EXPLOSIVES

- Less than 2 hours to assemble and 2 hours to dismantle.
- The building is tested and certified according to EN-1143-1 Grade VI and above.
- Bulletproof according to EN1522, FB7

SECURITY STORAGE

Burglary and bulletproof according to EN-1143-1 and EN 1522

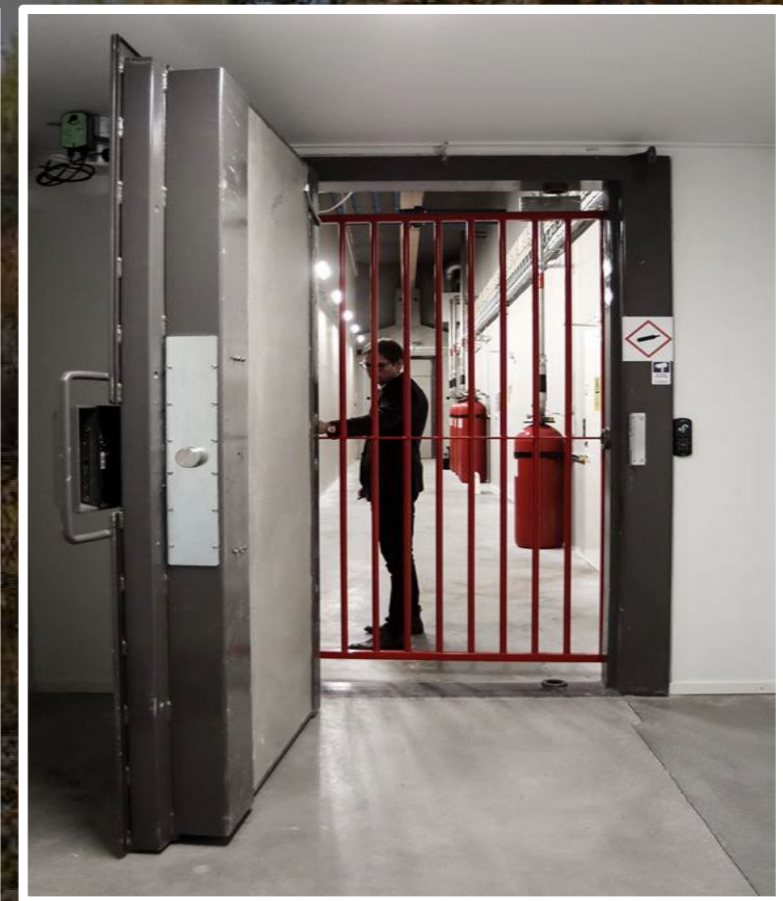

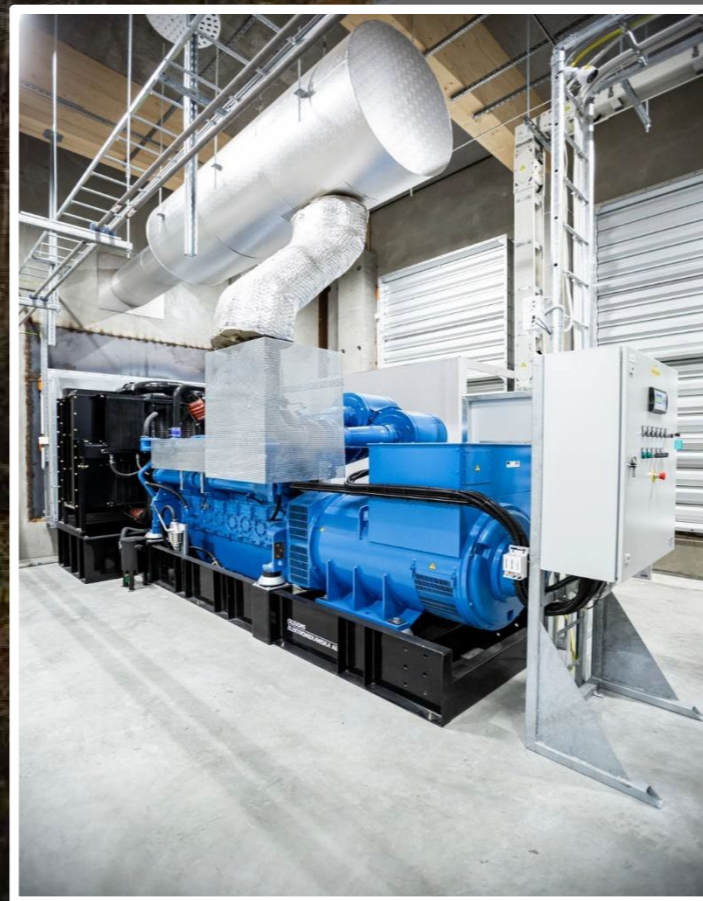

Modular & scalable

DATA CENTER

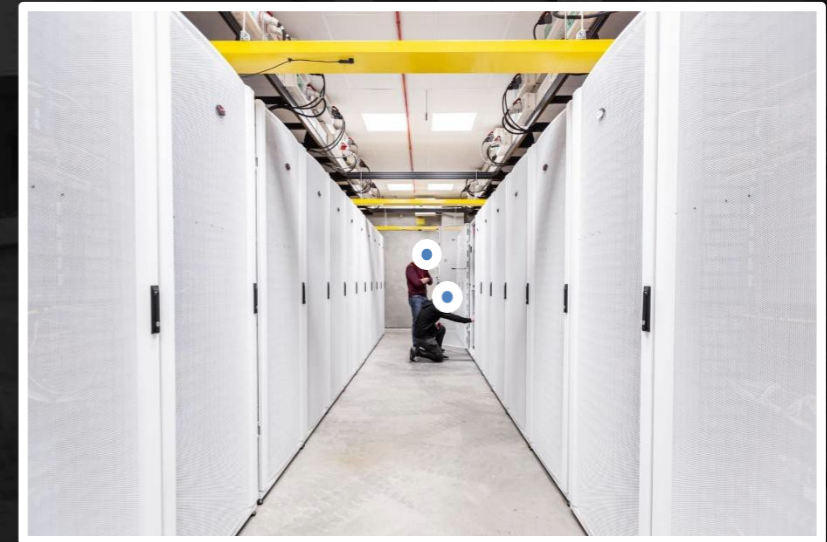

NSG — General contractor

Design — Project Planning — Completion — Operation

DATA CENTER

- Scalable and modular data centers in protection class Grade VI (SS-EN 1143-1)
- Bulletproof up to FB7 AP (EN1522).
- All critical components within the shell protection (electric power, backup power, chillers, etc). *Unique!*
- EMP - RÖS - TEMPEST if necessary
- NSG delivers complete turnkey data centers including high-security building and all infrastructure in accordance with standards chosen by the Customer (Uptime TIER / ANSI 942-B / EN 50600)
- NSG offers Operation and Service Agreements

CONTAINERS

STEEL CONTAINERS - CONCRETE/STEEL

MSV - MOBILE SECURITY VAULT MLA LINED CONTAINER

We use standard containers 8, 10, 20 and 40 ft.
The containers will be lined inside with MLA
Can be equipped with different interior solutions

BULLET RESISTANCE

- ✦ EN 1522 ✦ FB 7
- ✦ Protection exceeding STANAG Level 3

BURGLAR RESISTANCE

- ✦ Grade 4-6 ✦ EN 1143-1

- ✦ Weight for a 20 ft container ~ 7000 kg
- ✦ Cost effective protection
- ✦ Multiple use

MSV - MOBILE SECURITY VAULT MSV CONTAINER

GUARDHOUSE

MSV - MOBILE SECURITY VAULT MSV CONTAINER

Operations center

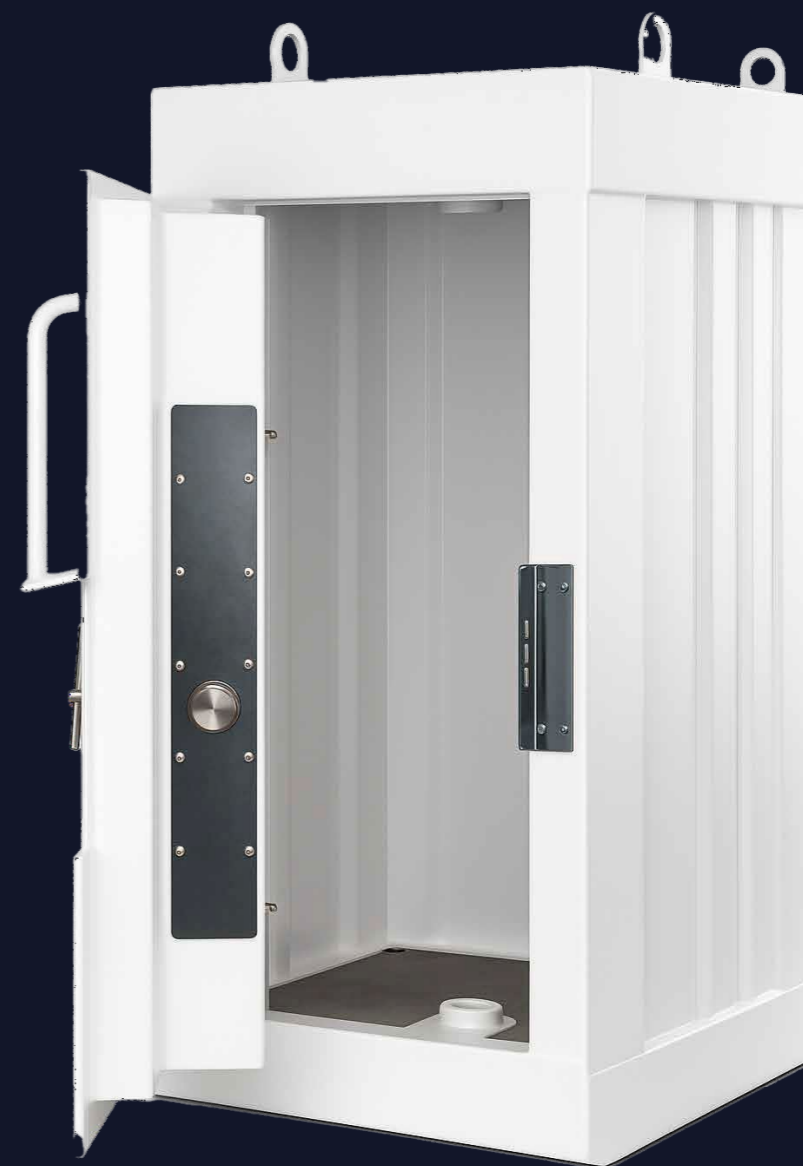

BURGLAR PROOF AND BULLET PROOF

HIGH SECURITY ARMORY AND EXPLOSIVE vault for a demanding world.

The MSV meets the Specification SS-EN -1143-1 VI and higher.

Protection level:	EN 1143-1 Grade VI
Weight kg:	3000 kg
Outer Dimensions mm:	1620x1060x980
Inner Dimensions mm:	1300x700x700
Looking system:	Keys or keypad
Holes for bolting it to the ground:	Yes
Shelfs:	According to customer.

SSK35A

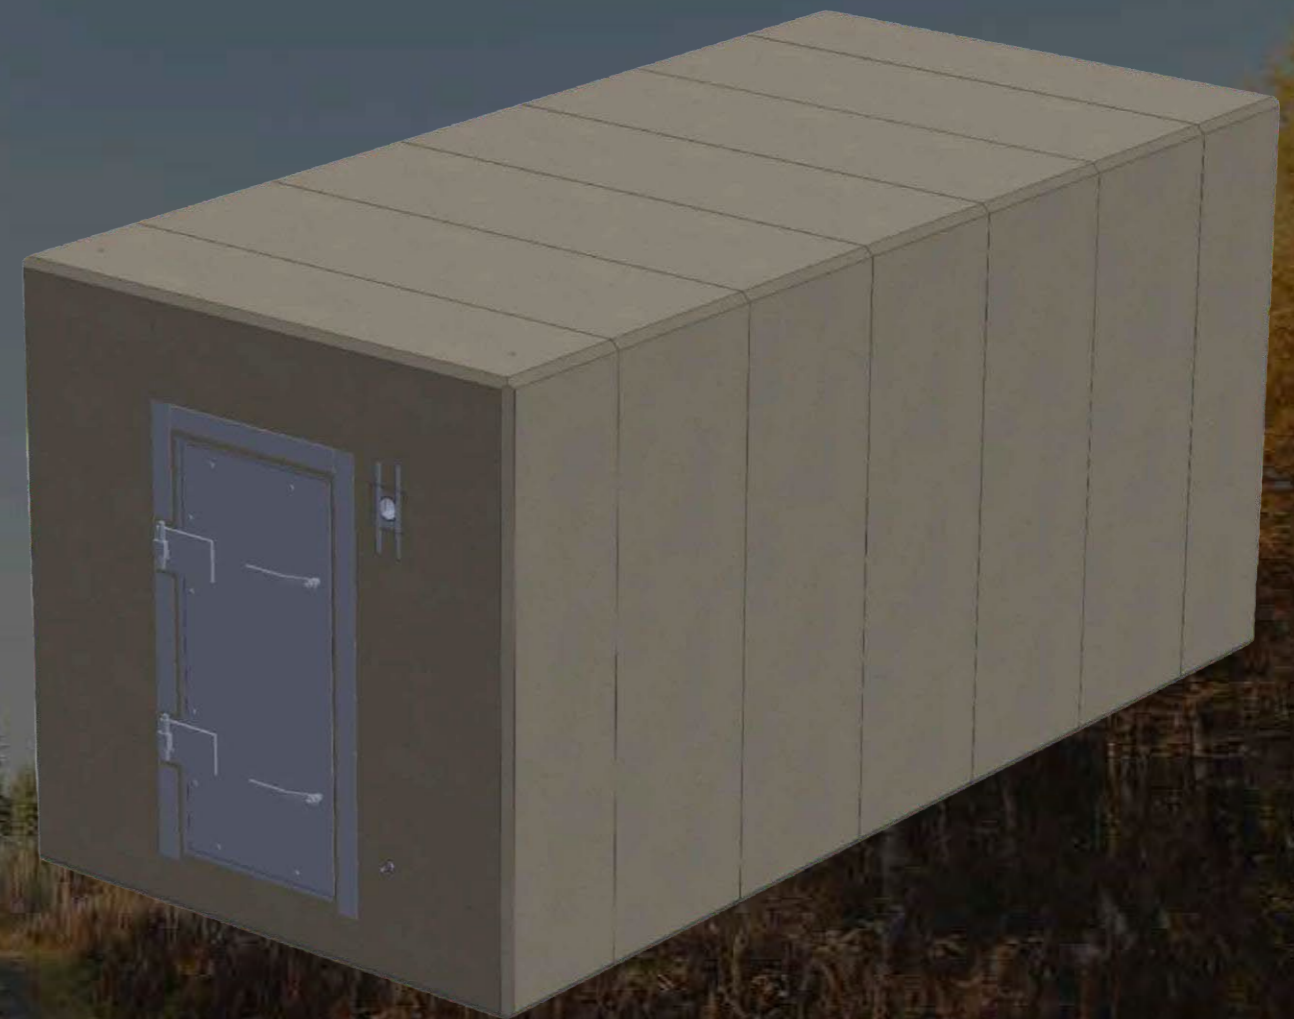

Fully modular shelter, protects against blast
Shrapnel, heat, FAE and NBC threat

Fully modular, no parts heavier than 12,5 tons

STANAG 2280 (A5/C5/D6) pending

350 mm double-reinforced HPS in walls, roof
and floor. Ventilation with NBC filter

Door , emergency exit, NBC protection
all according to Swedish Civil Contingencies
Agency (MSB) specifications

In this context, a protected shelter refers to an area that provides a certain level of protection
against harmful influences from the environment.

Harmful influences include air shock waves, shrapnel, building collapse and ionizing radiation.

The image shows a dense forest of tall, thin pine trees. The ground is covered with low-lying vegetation and patches of bare earth or rock. The sky is a clear, pale blue. The overall lighting is soft, suggesting a late afternoon or early morning setting. The logo is centered in the middle of the image.
