GRATEFUL HEADZ

Name, company logo, colors, typeface: these are the pillars of the identity of the company. Their characteristics ensure an individual and consistent image of the company on the market. The graphic of the definitive logo is very clean, square, linear, essential, strong and emphasizes the values of the brand. The logo is a graphic comprised of the wordmark (logotype) and figurative mark (symbol). The lettering is created using the Hoodson typeface, and the Grateful Headz Bear is inseparable. The logo should be always produced from the master artwork. The only time you should use the symbol alone is on the website or social media channels where there are other elements to help the user recognise the brand.
