In The Swing.... Month of November

You hit up onto the green; your ball rolls up to the pin. What is the first thing you do?? That's right!! Find..then FIX YOUR BALL MARK. Ball marks are openings for weeds and disease to invade our beautiful greens. Working around the hole, pushing the mounded grass inward towards the middle with a ball mark tool, then tapping it back into place with your putter, fixes the hole quickly. Fixing your ball mark keeps our greens healthy and smooth.

Please Mark Your Calendars

Final LGA Members Business Meeting After the Holiday fun tournament on Dec. 10th

Dunes West LGA
