

Where am I going to get that done?

If you are like many of our members, you run across situations every once in a while, where you need to find a service to do work on or for your old Buick. One of the really nice benefits of belonging to a club, such as ours, is the ability to get help when you need it.

Various members have found and used several services that have done good and competent work. The list below serves as a starting point to identify those places and individuals that you can call on when the need arises. If you have had a good experience with other businesses, and want to let other people know, just provide the name and address to the webmaster and our newsletter editor and we'll add them to the listing. Or if you've had a good experience with those already listed would like to add your name as a contact to discuss your experience, again let us know.
