CONSULT ROUNDS

Thank you to everyone who joined our virtual OHIG meeting on community on-call coverage and hospital transfers. We appreciated the expertise of our panelists and educational Q&A.

Program Agenda:

1) Community Call Coverage and Hospitalist Models

- Craig Czyz (Oculoplastics, Ohio)
- Babak Marefat (Comprehensive, Kansas)
- James Oakman (Comprehensive, South Carolina)

2) Ocular Telehealth for ER Consults

- April Maa (Emory University, Atlanta VA Medical Center)

3) Innovative Models for Community Call Coverage Support

- Lisa Neavyn (Maine Eye Center)
- Brooke Miller (Maine Eye Center)

4) Study on Hospital Consult Volume/Transfer Trends

- Jennifer Yu (University of Washington)
- Shu Feng (University of Washington)

5) Audience Q&A

Dr. Craig Czyz wears many hats including Oculoplastics and has years of experience as an independent ophthalmic hospitalist. He shares his advice for community on-call coverage including hospital contract negotiation.

Dr. Babak Marefat is a comprehensive ophthalmologist who is a single practitioner eye clinic within a large multi-specialty group. He shares his on-call coverage set up for multiple ED's, hospitals, and express care clinics

Dr. James Oakman is a comprehensive ophthalmologist whose private practice transitioned from traditional office-based practice with subspecialties to an Eye Urgent Care Operation. He shares his experience launching a new ophthalmic hospitalist program.

Dr. April Maa is a comprehensive ophthalmologist in the VA system and Emory University. She is discusses her exciting work in ER Teleconsults and how this might address challenges for reliable on-call coverage.

Dr. Brooke Miller and **Dr. Lisa Neavyn** are both comprehensive ophthalmologists and ophthalmic hospitalists from a private practice setting at Maine Eye Center. They share their unique approach for supporting hospital-based coverage from their community practice via their Pre-Residency Clinical Ophthalmology Fellowship - a win win opportunity for both practitioners and ophthalmology residency applicants.

Dr. Shu Feng and **Dr. Jennifer Yu** are both academic comprehensive ophthalmologists from the University of Washington. They share their exciting research study regarding hospital consult volume and transfer trends. They are currently recruiting other sites for involvement.

There have been many requests for a video recording. To view [click here](#).

We wish to extend a sincere thank you to all our panelists for sharing their unique experience and expertise for this OHIG discussion session.
