Between Two Homes®
Help for families raising children between two homes

This one-day workshop offers legal and mental health professionals an educational opportunity to acquire fundamental knowledge of best practices in working with the courts, clarifying expectations between mental health professionals and legal professionals, navigating potential paperwork pitfalls, and understanding guidelines, as well as an opportunity to explore research findings from relevant evidence-based articles.

6 Hrs. CEU/CLE with 2 hrs. Ethics
Free Lunch and Addition Panel
Discussion with Matt Sossi Attorney at
Law and Local Professionals

LEARNING OBJECTIVES

- Understand the family system in transition to assess intervention and maximize client outcomes
- Understand the current professional and legal standards of practice between therapeutic and forensic services
- Identify circumstances where a professional's experience can be misapplied to families involved in the court system and ways to prevent this
- Learn resources available to families to reduce chronic re-litigation
- Gain insight into patterns of low conflict families versus highly conflicted families
- Recognize common coparenting mistakes which may be addressed in a parenting plan
