FALL 2025

We will be entering your units between the hours of **9:00 A.M. and 12:00 P.M.** to service your HVAC unit. This program is designed to extend the life of your convector and save energy. Specifically, our staff will change the filter, check temperature across the coil, and inspect for any issues that may affect operation. At the same time, we will inspect for plumbing leaks and perform an enzyme treatment of the kitchen waste line to cut down on the number of sewer back-ups.

Please ensure that we have a valid key for your unit as Emergency Keys will be used to perform the maintenance inspections. If you know you do not have a valid key on file, please drop one off in the drop box at maintenance immediately. [Units without keys are in violation of the condominium documents and may be assessed a fine.](#)

If you have an alarm, please turn it off on the scheduled service date. If you have a dog, please keep it in a bedroom (other than a master bedroom which allows access to a bathroom) if you are not going to be home. If you have any furniture in front of the HVAC closet, please move it so that we can access the HVAC equipment. If the HVAC closet door is painted shut or sealed in any way, please open it before your scheduled maintenance date. Please remove all items from the top of the bathroom toilet tanks.

Thank you for your cooperation with this important preventative maintenance program.
