To whom it may concern,

British Commercial Cleaning has been an excellent service for us and has fulfilled all of our companies cleaning needs. We were referred to this company from another local company that had been using them for the past year. Upon our first meeting we knew this company would be very personal, dependable, and would provide the detailed work we needed.

Mike has always been very responsive and was able to provide a schedule that was cost effective and appropriate for our specific needs. We commonly had to ask Mike and his team to break outside of this schedule and provide specialty cleanings. British Commercial Cleaning has always delivered for us on a consistent basis.

This company will show up to work on time, do an amazing job, and provide a personal touch that is a pleasure to work with. I would highly recommend this company to anyone.

Sincerely,

Jeanne Burns
