

Job Title: Licensed Clinician (Hybrid or Telehealth)

Location: Hybrid (In-Person in Suwanee/Lawrenceville + Remote) or Fully Remote (Georgia-based)

Organization: RGW Institute

Position Type: Full-Time W-2 (Hybrid) or 1099 (Telehealth Only)

About RGW Institute:

At RGW Institute, we are a purpose-driven mental health and wellness organization providing high-quality therapy and specialized support to individuals, couples, families, and communities. We are committed to culturally responsive, trauma-informed care, and we believe healing happens in connection.

We're expanding our team and currently seeking compassionate and motivated **Licensed or Associate-Level** Clinicians to join us in delivering transformative therapy services across Georgia.

Position Summary:

As a Licensed Clinician, you will provide individual, couples, or family therapy to a diverse range of clients in either a **hybrid salaried** role (in-person + virtual) or a **telehealth 1099** role (fully remote). You'll have the autonomy to shape your clinical focus while receiving ongoing support, supervision (if applicable), and access to a strong referral stream.

This is an ideal role for clinicians who are passionate about meaningful clinical work, collaborative team dynamics, and flexibility in their schedule and modality of service delivery.

Key Responsibilities:

Clinical Services:

- Provide weekly psychotherapy to individuals, couples, and/or families
- Maintain accurate and timely documentation in our EHR system
- Utilize evidence-based and relational approaches to therapy

- Participate in treatment planning, case consultation, and professional development

Collaboration & Growth:

- Attend monthly team meetings and participate in case consultations
- Collaborate with clinical supervisors (for associate-level clinicians)
- Option to facilitate groups or participate in workshops/bootcamps

Optional Specialties:

- Group therapy, trauma recovery, couples work, family therapy, substance use/IOP

Required Qualifications:

- Active Georgia license or associate-level credential (APC, LPC, LCSW, LMFT)
- Master's degree in a counseling, psychology, or social work discipline
- Strong clinical skills and ability to engage diverse populations
- Commitment to maintaining timely documentation and clinical compliance
- Access to a HIPAA-compliant work environment (for remote work)

Preferred Qualifications:

- Training or interest in trauma-informed, relational, or culturally responsive care
- Experience working in private practice, outpatient, or community mental health
- Familiarity with Sessions Health EHR or similar systems

Compensation & Benefits:**W-2 (Hybrid Role):**

- Competitive salary based on experience and caseload
- Clinical supervision provided (if needed)
- Health reimbursement, PTO, and professional development benefits available
- Access to office space, referrals, admin support, and clinical tools

1099 (Telehealth Only):

- Competitive revenue split
- Fully remote flexibility
- Referrals, documentation templates, and tech support provided
- Monthly peer consultation included
